Much interest was created in Sumthe when an announcement was made by the local board of examiners that t' ere wound be no examination on August 21, as had previously been announced, for applicants for appointment as postmaster. It is not known here why the examination was called off, and interest in the next step which will be taken by the department is great. It has been currently reported on the streets that the appointment would be secured by Maj. J. W. Bradford, at present acting postmaster, but this is only hearsay, and is only given as rumor. It is further rumored that an offer of an appointment was made to a local negro, but he declined the offer. These offers, the rumor has it, were made by one who was representing Joseph W. Tolbert, and acting as a go-between.

Dear Mr. Alexander: Since seeing ou this morning I have been informed that during yesterday or the day before while you were at work on the fill at Beaver Creek, you allowed your men at work there to cover up ome property which belongs to Kershaw County, such as hammers and a quantity of nails in a keg, stating hat it was not your place to move them. If this be true, this is sufficient to prove to me that you do not have the interest of Kershaw County at heart as you should have, and I now feel it my duty to inform you that you placed on a pile of lumber nearby.
