Sumter county has an area of 547 square miles, being the twenty-eighth largest county in the state.

able-bodied male persons from age of twenty-one (21) to fifty years, both inclusive, except residents in incorporated towns shall \$4.00 as a road tax except ministers of the Gospel actually in charge of a congregation, teachers employed in public schools, school trustees, and persons permanently disabled in the military service of this State and persons who served in the War Between States; and all quarantine service in this State and all residents who are attending school or college at time when said road tax shall be-

come due. Persons claiming disabilities must present certificate from two reputable physicians of this county.

All information with reference to taxes will be furnished upon application. D. M. McCASKILL, County Treasurer.

**TRESPASS NOTICE**

All parties are hereby warned not to fish, hunt or otherwise trespass upon the Livingston and Betty Neck lands in West Waterce. Parties disregarding this notice will be dealt with according to law.

A. E. KENNEDY, J. M. MARTIN.

26-28ab

**NOTICE**

Until further notice all motor vehicles will be required to dim lights only on streets lighted by the white way. It is felt necessary on all other streets that bright lights should be allowed as a means of safety to pedestrians and horse-drawn vehicles.

Motor drivers are urged to dim lights at all other times in passing each other.

(Signed) A. G. WHITAKER, Chief of Police.

**NOTICE**

Hunting, fishing or otherwise trespassing on either of my places is prohibited. No permits will be issued to anyone.

25-28pd

H. S. ZEIGLER.

**ADMINISTRATOR'S NOTICE**

All parties indebted to the estate of Charles W. Hendrix, deceased, are hereby notified to make payment to the undersigned and all parties, if any, having claims against the said estate will present them duly attested within the time prescribed by law.

ALLEN B. MURCHISON, Administrator. Camden, S. C., Sept. 22, 1923.

Sumter county has an area of 547 square miles, being the twenty-eighth largest county in the state.

**COLD WEATHER AND SNOW**

Is Forecast Made By Dutch Weather Prophet.

"The southeastern states will experience during the coming winter the lowest temperatures since the remarkably cold period of December 1917, and January, 1918," said W. P. Houseal, the Dutch Weather Prophet yesterday. We are entering the 35 year period of meteorological conditions when the weather pendulum begins to swing back the other way in a very decided manner. It happens now that the pendulum is swinging back to conditions similar to those of the '80s, when this section experienced its first daytime blizzard which the generation at that time had seen, and the "oldest inhabitant" remembered that had occurred in previous winters. In December, 1884, the Dutch Prophet saw a field of oats turn black from the effects of the blizzard one afternoon—perfectly green at 1 o'clock and as black as one's hair within two hours. The word blizzard was not in use in this section before that date.

"Along with the cold winter this year will come five snows south and east of the Blue Ridge. One of these snows at least has the promise of being of heavy precipitation and wide extent, and the latter condition, it is expected, will take in Columbia. I give a large clientele of young folk that abundant promise.

"Another condition of the winter will be no lack of rain. Precipitation will be at least normal with the promise of exceeding that limit with the inclusion of spring weather in the category.

"Indications at this date show frost of severe form to make it the killing variety along between November 3rd and 10th."—Friday's State.

**17,624 Married in This State.**

Columbia, Oct. 3.—Figures furnished by the United States department of commerce show there were 17,624 marriages performed in the state of South Carolina during the year 1922. The statistics were furnished by the judge of the probate court of each county. They are preliminary, the department of commerce announces, and are subject to correction. No divorces are granted in South Carolina. According to the figures, Greenville county led in the number of marriages with a total of 1,359; Spartanburg was second with 1,284.

**Died in Rock Hill.**

W. M. Cauthen, aged 60, died at the Fennell infirmary Tuesday night of peritonitis, following a case of ruptured appendix. The body was sent to Kershaw yesterday and burial will take place today at Hanging Rock church, near his home.—Rock Hill Record.

**MUMMIES HAVE TOLD MUCH**

Scientific Research Proves That Ancient Egyptians Suffered From Many "Modern" Diseases.

While we do not know just what were the seven plagues of Egypt, we do know that a good many of the diseases of today were present among the Egyptians of Tut-Aankh-Amen's time and earlier. Hardening of the arteries, for example, we have come to blame more or less on the drive and worry of modern life, yet the arteries of mummies buried 3,500 years ago show the plaques and deposits of lime salts typical of arteriosclerosis in all its stages.

We owe much of our knowledge of disease among the early Egyptians to the late Sir Marc Ruffer, president of the sanitary and quarantine council of Egypt during the last years of his life. By means of special solutions for softening and preserving the dried tissues of the mummies, he was able to prepare thin sections of the various organs and study them under the microscope. Owing to the common method of preparing the mummies, which consisted of the removal of most of the internal organs through an opening cut in the left flank, and repacking them after cleaning with sand or rags or, rarely, myrrh and incense, diseases of the organs themselves have not been easy to identify. The organs were replaced hit or miss; as a rule, regardless of where they belonged. Thus in one mummy Ruffer found the kidneys tucked away where the heart belonged, while that organ had crowded out the liver. Such diseases as affect the bones are easily studied, however.

**MAN'S VOICE IS PHENOMENAL**

London Window Cleaner Able to Sing Two Notes of Music at the Same Time.

Strathie Mackay, a window cleaner, can sing two notes of music at the same time and has been the subject of much curiosity and interest in London recently. The department of phonetics in the London university has shown deep interest in Mackay's case and has subjected him to tests and at his own request has arranged for further tests of his remarkable talent.

One of the tests was made by Prof. Daniel Jones, head of the department of phonetics in the university. At the conclusion the professor told a newspaper representative that Mr. Mackay's voice was absolutely unlike any other he had ever heard. He said that it was phenomenal.

At the professor's request, Mackay sang a number of notes with the double voice, and records of these tones were taken by the kymograph, an instrument which shows sound vibrations. By these means it was possible to keep a strictly scientific measurement of the musical intervals between the double notes that were sung.

Professor Jones explains that Mackay apparently has the power when singing to make one of his vocal chords vibrate at half the rate of the other, or at a third, fourth or fifth of the rate. It is this which produces the double notes.

**Why Paths Are Crooked.**

The reason most paths are crooked was explained the other day by a Lynbrook commuter, who ever since the Spanish war has been cutting across lots to catch the 7:42.

"Did you ever see a straight path?" he asked. "There may be some, but there's none in Lynbrook. What makes 'em crooked is the fact that one leg of man is shorter than the other. If he wandered aimlessly he would go around in a circle, but having his home as an objective he soon corrects his position. This makes a curve in the original path.

"Then, too, when he starts making the path he will stumble over the rough places. Others follow in his footsteps and a curve develops. A 'straight and narrow' path is never formed naturally and it would be a hard road to walk in."—New York Sun.

**First Hungarian Income Tax.**

Hungary has at length imposed a tax upon incomes, depending upon salaries or dividends earned. Weekly income of from 1,500 to 35,000 crowns pay at the annual rate of from 5 to 2,600 crowns weekly. Above 325,000 crowns the tax is 7 per cent for each 1,000 crowns. On monthly salaries of from 5,000 crowns to 140,000 crowns the tax varies from 20 to 10,500 crowns monthly. Joint stock companies pay from 16 to 26 per cent up to profits of 30 per cent, with a higher tax if profits exceed 40 per cent. Insurance companies pay one-thousandth of their incomes from policies.

**Tall Sunflower.**

Judge Charles B. Montgomery, the sunflower king, has heard from the 11,845 packages of seed he sent out last year, reports the Kansas City Times. The tallest sunflower was grown in Sanger, Cal. It was 20 1/2 feet high. The "king" raised the largest head, 16 1/2 pounds. The second to this, 16 1/4 pounds, was raised in Bernice, Neb. The "king" raised the most heads on one stalk, 120 fully developed blossoms.

**Radio Stations in Arctic.**

The Canadian government is planning a chain of radio stations, extending right into the Arctic circle, which are now being completed. Six stations are planned, five of which will be in the Northwest territories and another at Dawson. The stations are located at Mackenzie river, Fort Resolution, Fort Simpson, Fort Norman and Fort McPherson.—Scientific American.

**Preliminary For Boykin.**

Rural Policeman H. B. Boykin, accompanied by Sheriff C. M. Hurst, Rural Policeman Sam Newman and Magistrate L. S. Vinson, of Rembert, went to Camden Wednesday morning to attend a preliminary hearing given Rural Policeman Boykin on the charge of assault and battery of a high and aggravated nature. Magistrate S. N. Nicholson sent the case to the sessions court at the close of the preliminary.

The warrant was taken out against Rural Policeman Boykin by a Mr. West. It seems that about September 7th, a warrant was taken out before Magistrate L. S. Vinson at Rembert for a negro, Ned Taylor, on the charge of disposing of property under lien. This negro it seems lived on Mr. West's place. The warrant was duly countersigned by a Kershaw county magistrate and given to Rural Policeman Boykin to serve on the negro. The negro refused to be arrested when the rural policeman went to his place and ran off. Mr. Boykin then called for him to stop but he refused and it seems, according to Mr. Boykin's statement, that the officer fired several times in the air to frighten the negro and make him stop. Since that time the negro has paid the claim against him, and Mr. West took

out the warrant charging the officer with aggravated assault.

Sheriff Hurst stated that he did not think that a jury would consider the case seriously and that he expected it would take them only a few minutes to return a verdict of not guilty under the information given at the preliminary.—Wednesday's Sumter Item.

**Dead of Injuries.**

Lexington, Ky., Oct. 7.—Injuries to Price McLean, center on the University of Kentucky football team, received in the game with the University of Cincinnati at Carson field Saturday afternoon, proved fatal here tonight.

McLean, 20 years old and junior in the engineering college, returned from Cincinnati with the team Saturday night and apparently was not seriously hurt. At noon today he was found unconscious in his room and immediately rushed to a hospital. He died at 7 o'clock tonight without having regained consciousness.

Rear Admiral William J. Moffett of the United States navy, is quoted as saying that when the ZR-3, now under construction in Germany, is completed the airship will probably be put in the mail service between London and New York on a two-day schedule.

**Ford**  
THE UNIVERSAL CAR

**New Touring Car**

Looking at the new touring car from the side, you are at once favorably impressed with the effect of longer, more graceful lines secured by enlarging the cowl and raising the radiator.

Slanting windshield and one-man top lend material aid in giving the entire car a lower, more stylish appearance.

An apron connecting the radiator with the fender skirts is also a decided improvement.

A comfort feature much appreciated by owners, is the additional leg room provided by the enlargement of the cowl.

Allow us to show you the entire line of new Ford cars now on display in our show room.

These cars can be obtained through the Ford Weekly Purchase Plan.
