"Baby Never Has Colic Now"

Colic is one of the most common complaints from which babies suffer. It is caused by indigestion and often results from careless feeding and overloading baby's stomach with too much food or giving soured milk. By relieving indigestion and regulating the bowels, Teethina quickly overcomes colic, helps keep baby well and gives it an opportunity for a healthy growth and sweet disposition. Mrs. S. H. Reid, 5497 Cherokee Ave., Tampa, Fla., writes: "My baby was subject to colicky spells until I started giving her Teethina. Now she never has colic at all and is as fat and good-natured as you please."

The jury awarded a verdict of \$25,000 in the case of the Crescent Filling station against the Standard Oil company in the court in session in Union last week. The verdict gave \$8,000 actual damages and \$17,000 punitive damages. The Crescent Filling station in its complaint alleged that the Standard Oil company thru the agency at Union had engaged in price cutting, seriously damaging the former's business. The case occupied three days of court when it was tried for the second time, the first resulting in a mistrial, the jury standing one against damages and the other eleven favoring a verdict for the plaintiff.

Death From Unusual Cause.

Last week a negro on W. J. Josey's place died rather suddenly. It is said that the negro had been down with typhoid fever, but was out again and apparently getting on nicely. Later it was learned that he had eaten a whole stalk of sugar cane and death followed shortly afterwards.—Bishopville Messenger.

Smallest Corn Crop in Years.

Washington Nov. 10.—The smallest corn crop since 1913 was the record of American farmers this year who planted the fifth largest acreage to that crop in the history of farming. Not only was the harvest substantially below those of the last four years, but the merchantable quality of this year's crop is the lowest in thirty years, with the exception of 1917.

"The Voice With a Smile" Answers Growing Needs

THE rapid increase in the number of new telephones in South Carolina is directly reflected in the greater use and value of the service as a whole.

Approximately 1,320 new telephones were added to the Bell System in South Carolina during the first six months of this year.

The telephone operators are handling an average of 298,200 local calls every day, an increase of 6.4 per cent over last year's record.

Long distance calls average 5,200 each day or 6.4 per cent more than in 1923.

To handle such a volume of traffic, twenty-four hours a day, every day in the year, requires a highly trained loyal organization of young women operators.

They are serving you efficiently and cheerfully and they appreciate the considerate co-operation which you extend to them.
