

**Bowel Troubles
Soon Relieved**

The first two years of baby's life are the most trying on mothers. Inconstant care must be exercised by the mother in baby's diet. Its little stomach is so easily upset and bowel troubles are a constant menace. At such times Teethina will assist in keeping baby well and greatly lessen the mother's anxiety.

Mrs. John W. Mobley, Route 2, Whigham, Ga., writes: "My baby had cholera and fever. He was very sick and his bowels were loose. My doctor gave me a medicine for him, but it didn't do him any good."

"I started him on Teethina and he soon got over the trouble and is now well and lively as a kitten. Its little stomach is so easily upset and bowel troubles are a constant menace. At such times Teethina will assist in keeping baby well and greatly lessen the mother's anxiety."

Boy Returns Home

Florence, Jan. 15.—L. A. Tatum, Jr., 14 year old son of the president of the Carolina Textile Corporation of Dillon, who disappeared mysteriously from his home yesterday afternoon and for whom a state-wide search was made last night, was found at Sellers this morning hiding in an abandoned boiler room of a lumber mill. The little fellow told of his plans to board a freight for Florida, having heard a great deal about everybody going to Florida. He beat a ride with a negro to within five miles of Sellers. He wandered around the greater part of the night, finally finding this refuge early this morning. He was hungry and cold and quite willing to return to his palatial home at Dillon. The police of Florence had searched every train entering Florence during the night. A posse of 100 men headed by Sheriff C. S. Bethea and L. A. Tatum, father of the young lad, searched all through the night, many wild rumors adding to the anxiety of the parents.

Would Make Autos Stop at Crossings

Columbia, Jan. 15.—Railroads would be required to erect "stop, look and listen" signs at all railroad and highway crossings, and motorists would be compelled to come to a halt before passing over the tracks under a bill introduced in the Senate by Senator John Howard Moore, of Abbeville, and Senator David Hamilton, of Chester.

The proposed law would be practically identical with the North Carolina crossing law, said Senator Moore, in discussing the measure. He stated that while penalties would be imposed for violation of its provisions, the law would not place complete responsibility on the motorists where collisions between automobiles and trains occur.

Earthquake shocks of considerable violence rocked the city of Tokio, Japan, early Friday morning.

**MAKES AUTOS GO
49 MILES ON ONE
GALLON OF GAS**

SIOUX FALLS, S. Dak.—James A. May of 347 Lacotah Bldg., has perfected an amazing new device that cuts down gas consumption, removes all carbon, prevents spark plug trouble and overhauling. Many cars have made over 49 miles on a gallon. Any one can install it in five minutes. Mr. May wants agents, and is offering to send one free to one auto owner in each locality. Write him today.

AN OLD YARN
Home Merchant Shows How To Compete With Mail Order House

Here is a yarn, while not new, that at least has good boss sense to commend it, and will bear repeating.

Down in a certain town a man went into a store to buy an article and asked the price. It was \$3.20, the dealer said.

"Good gracious," said the man. "I can get the same thing from a mail order house for \$2.82."

"That's less than it costs me," said the dealer, "but I'll sell it on the same terms as the mail order house just the same."

"All right," said the customer. "You can send it along and charge it to my account."

"Not on your life," replied the dealer. "No charge accounts. You can't do business with the mail order house that way. Fork over the cash." The customer handed over the cash.

"Now 2 cents for postage and 5 cents for money order." The customer, inwardly raving, kept to his agreement and paid the 7 cents. "Now 35 cents expressage."

"Well, I'll be doggoned," he said, but paid it, saying: "Now hand me it and I'll take it home for myself and be rid of the foolery."

"Hand it to you? Where do you think you are? You're not in Chicago, and you'll have to wait a week or more." Whereupon he placed the article on the shelf and put the money in his cash drawer.

"That makes \$3.26," he said. "It has cost you 6 cents more and taken you a week longer to get it than if you had paid my price in the first place."

The foregoing little story is good, and in it some good boss sense. But what about the business man who'll have his job printing done by Alexander Dowie's Zion City plant? Some do that very thing. Not infrequently the merchant who hollers Trade-at-Home loudest and longest is the one who does not advertise in his home page and does not hesitate to "order on" for stuff himself.—Monroe Enquirer.

"The teacher's greatest field of usefulness is in making children think. Make them think rather than make them good. Once they learn to think they are naturally good. Children must be taught to do right because they have to. The second greatest mistake parents and teachers make is preparing the path of life for the child instead of preparing the child for the path of life."—Judge Ben Lindsey.

**THE GLAND THAT
CAUSES MEN TO
GET UP AT NIGHT**

The gland that causes getting up at night is known as the prostate and is a notorious trouble maker. It is estimated that 65 out of every 100 men past 40, and many under that age, have prostate trouble, which, if unchecked, often leads to a serious operation. The prostate surrounds the neck of the bladder like a washer. Naturally, when the bladder becomes inflamed by poisons which the kidneys filter out of the blood, the irritation spreads to the prostate. As the gland swells, it closes the neck of the bladder, making urination difficult and painful and causing pains in the back, head and legs.

An easy way to treat these annoying and dangerous conditions is to take one or two renex pills after each meal. The renex formula has been victorious in thousands of such cases. One authority says it also has a valuable tonic effect. Anybody wishing to prove the value of the formula can get a full-size, two-dollar treatment of the pills under a money-back guarantee by sending the attached coupon to the address given therein. If you prefer, you can pay the postman two dollars and postage on delivery, instead of sending the money with your order. In any case, if you report within ten days that you are not entirely satisfied, the purchase price will be refunded at once, upon request. This is a thoroughly reliable company, so you need not hesitate about ordering the renex if you need it.

GUARANTEE COUPON

Gentlemen: Send me a regular-size Renex treatment, as guaranteed. Unless you find \$2 enclosed, I will pay \$2 and postage on delivery; but you are to refund the purchase price at once, upon request, if I report within 10 days that I am not satisfied.

**HEROES OF WAR
LIVING QUIETLY**

**Only Hazy Memory Now
Remains of Brave Deeds.**

Washington.—Those men who came back from the baptism of fire in France six years ago, heroes for a fleeting hour, have melted into the mass of humanity from which they stood apart gloriously for a brief moment, and are as completely out of the picture as if there had never been a war.

In the thick book in the voluminous files of the War Department their names can be found—those whose conspicuous bravery brought recognition from their own government and others. But in the minds of their countrymen only a hazy memory remains.

Six years ago, the name of Maj. Charles W. Whittlesey was on millions of tongues, the hero of the "lost battalion"—"Go-to-Hell Whittlesey"—who refused to surrender his command when it was cut off for five days without support in Argonne forest, under heavy fire. Melancholy, he jumped from a liner at sea, vanished from life and men.

Maj. Gen. William Haan, commander of the Thirty-second division, a National Guard outfit, died, a victim of disease, leaving a record of conspicuous bravery in action, and a wisdom at the council table.

Those other heroes whose names were watchwords for a time have dropped from notice. Two of them are back on the farm. Sergt. Alvin York, who captured 120 Germans, is back in Tennessee. Just across the line in Kentucky, at Devil's Jump Branch, Breathitt county, another hero is living the quiet life of a farmer.

Sergt. Willie Sandlin perhaps recalls how, on a rainy day, he felt, at Bois de Forges, France, when he advanced alone on three German machine gun nests with bullets flying all around, and hurled the grenades which tore into pieces the enemy crews which were holding up the advance.

In the same state, at Lexington, lives Sergt. Samuel Woodfill, who was acclaimed the outstanding hero of the American forces, for his part in silencing three machine gun nests one after the other, killing eleven men and capturing others.

The foremost American air ace, Capt. Eddie V. Rickenbacker, has settled down to a prosaic life in the automobile business in Detroit. Some of his comrades, like Kipling's sergeant, are still in the army.

Sergt. Frank Hunter, credited with nine planes, and Capt. Arthur D. Brooks, Martinus E. Stenseth and Arthur E. Easterbrook, all with six victories on the records, are still in the service.

**Holds Court Can't Save
Life Against Man's Will**

Murphyboro.—Can a court save a man's life, against his will, by ordering a surgical operation? State's Attorney John H. Searing decided that such action does not lie within the jurisdiction of the court, in an opinion in a case placed before him.

Dr. O. House of De Soto recently came to Murphyboro to obtain, if possible, an order for the amputation of a patient's arm. The patient, Charlie Counze, was wounded in the arm on a hunting expedition and the wound became infected. Doctor House, who had charge of the case, judged that amputation was the only sure means of checking the poison and saving the patient's life. Young Counze refused to undergo an operation, and the doctor came to see the state's attorney for advice.

In the meantime the patient moved to Missouri, where he is under the care of his mother, and no further reports of his condition have been received.

A similar case ended in the death of the patient in St. Louis. Michael J. Mulcahey, a railroad engineer living here, suffered a bruise which became infected, and the doctors in the St. Louis hospital, where he was taken, decided upon amputation of Mulcahey's leg. Mulcahey refused to consent to such an operation, and died in the hospital early this month.

**Straw Hat Output in Two
Years Brings \$32,534,763**

Washington.—Sol, the silent partner of all straw hat manufacturers, proved his worth during the last two years by increasing the returns from the hot-weather headgear 13.7 per cent over the preceding biennial period. The Department of Commerce announced that straw hat production exclusive of trimmed hats for women and children, was valued at \$32,534,763 for the two-year period since 1921.

**Theater Pensions Cook
Who Served 30 Years**

Paris.—Marie, cook and maid of all work for the actor, Edouard de Max, is to be pensioned by the Comedie Francaise. She took care of her errand and prodigal master some thirty years, during which she saw him give away 1,000 franc notes and often had to fight off bill collectors.

Her master never forgot to aid his poor comrades, but seldom remembered to pay Marie her wages, which his friends say were 44,000 francs in arrears when he died recently.

**Practical
Nurse Tells**

Mrs. N. E. Snow, of Route 1, near Paris, Tenn., tells the story of her experience as follows:

"I am 62 years old and I have been a practical nurse for more than 20 years, taking mostly maternity cases. One of my daughters suffered from cramping at . . . She would just bend double and have to go to bed."

CARDUI

The Woman's Tonic

was recommended to her and she only had to take about two bottles, when she hardly knew that it was . . . she suffered so little pain.

"My youngest daughter was run-down, weak and nervous, and looked like she didn't have a bit of blood left—just a walking skeleton, no appetite and tired all the time. I gave her two bottles of Cardui. It built her up and she began eating and soon gained in weight and has been so well since."

Cardui, the Woman's Tonic, has helped suffering women for over forty years. Try it. At all druggists. E-100

The original of the glass known as a "tumbler" was a drinking vessel with a bottom so constructed that it would not stand upon a table. The "tumbler" was a product of the old days and was designed to make a man "take off his liquor" without setting the "tumbler" aside.
