

SAFE ALL AROUND

You're safe all around when you buy Goodyears. Safe when you ride—because of their dependable quality.

Safe when you buy—because there isn't a better value on the market.

Why take chances? Play safe—put on Goodyears.

BROAD STREET FILLING STATION

E. N. MYERS, Proprietor

Lighting Chesterfield County

Chesterfield, Ruby, Mt. Croghan and Pageland are all now receiving the Yaddin Light and Power Co. current.

Current was turned on in Chesterfield Tuesday, the other towns have been cut in previously.

Chesterfield will be completely wired, the work having already commenced. The power company purchased the plant and equipment of the town for which something less than \$14,000 was received by the town.

It is stated on good authority that Jefferson has signed a contract with this company similar to those signed by the towns in the eastern section of the county. The proposition will be submitted to the voters at an early date for their acceptance or rejection. —Chesterfield Advertiser.

OFF like a shot

At the first crack of the spark. A standing start is no handicap to the car with a tankful of "Standard" the gasoline that's noted for easy starting.

"STANDARD" GASOLINE

MADE IN THE CAROLINAS

DEADLIER THAN WAR.

Autos Take Heavy Toll Throughout United States.

New York, May 3.—Automobiles caused 19,000 deaths and injuries to 450,000 persons in the United States in 1924, statistics made public by the National Bureau of Casualty and Surety Underwriters revealed today. This represents a daily average of 52 dead and 5,650 injured.

Notwithstanding the death total, the largest ever reported, the bureau found signs of encouragement in a pronounced fall in the rate of increase of accidents. The increase in the number of deaths in 1923 over figures for 1922 was 20 per cent, while the increase in 1924 over the preceding year was only four per cent. This reduction in the rate of increase was attributed to organized campaigns to reduce accidents.

A comparison of the automobile death rate with the number of cars registered, shows a steady decrease, the bureau reported. In 1915, the number of deaths for every 10,000 automobiles was 24, each succeeding year showing a decrease until the figures for 1924 indicate only 9.6 deaths for every 10,000 cars. There are now 17,500,000 cars registered in the United States.

Grade crossing accidents took a toll of 1,688 deaths, a decrease of 71 from the 1923 total.

Since 1908 the death rate due to motor car accidents has increased steadily until today automobiles cause more deaths than all other vehicles, including trains and street cars, combined.

The Physician—God Bless Him

Baby was sick, and the anxious mother called a physician. The doctor came and after making an examination said, "Baby has a sore throat." And then, with a quizzical smile he added, "No; it is not diphtheria. Baby will be all right in a day or so."

The physician's words were worth their weight in gold. They took fear from the mother's heart, for she had faith in him and his skill. She knew the doctor knew what he was talking about.

None of us can get quite as close to a mother's heart as the family physician. We don't want him around when we don't need him; but oh! how we do depend upon him when we do need him! —Rock Hill Record.

COUNTY PENSION LIST.

Veterans and Widows of Veterans Who Will Receive Money.

DAYLIGHT HOLDUP

Rob Spartanburg Salesman and Disconnect Gasoline Feed

Kershaw, May 7.—A daring daylight holdup was consummated about 12 miles east of Kershaw Tuesday, when two white men—neither of whom wore a mask—covered W. E. Hawkins, Spartanburg, traveling salesman, with pistols at a point on the Lancaster-Bennettsville road, and robbed him of \$43.

Mr. Hawkins, who was en route from Lancaster to Bennettsville stopped his automobile near Cooks bridge. Before he was able to start the car, the two men ran up on either side and demanded his money. After robbing the salesman the pair disconnected the gasoline feed so as to prevent the machine's being driven off and went into the woods nearby.

In a short while other motor drivers came along and Mr. Hawkins gave the details of the holdup. Officers who are investigating the case have two men suspected who fit the description given by Mr. Hawkins and feel that they will land the guilty parties.

This is the third attempt to rob passing auto drivers in this vicinity in the past ten days the other two attempts having failed as the drivers did not stop.

Fifty Thousand Saw Races.

Charlotte, N. C., May 12.—Official estimates today placed the crowd attending the annual Memorial Day 250 mile speedway here yesterday at approximately fifty thousand persons, although a complete check had not been made. It was disclosed that the race was expected to be a postponing one today.

However, and they were sure that the attendance was by many thousands, at least from the ways of last year.

Races were awarded the big net right at a dinner given in honor of the racers and speedway officials. Each driver received \$10,000 as first prize.

Negro Denied New Trial

Columbia, May 11.—Attorneys for Carroll Orr, Charleston County negro under sentence of death for murder in connection with the slaying of J. Madison Heape, aged white man, lost in their effort to secure a third trial on after-discovered evidence when a per curiam order was filed here late today in the Supreme Court denying their motion.

The execution will take place June 5, when the third reprieve allowed by the governor expires, unless executive clemency is granted.

CUTTING OUT FIRE ARMS

Largest Merchandising Houses Cooperate in Lessening Crime

"A growing sense of responsibility for human welfare is seen in the recent action of two of the largest merchandising houses in the world."

Mr. Julius Rosenwald, president of Sears-Roebuck Company, which did a mail-order business of over two hundred and fifteen million dollars in general merchandise last year, gives as his reasons for discontinuing the sale of firearms, as a desire to abate crime, for humane reasons, as well as the desire to be law-abiding.

Butler Bros., the largest wholesale mailorder house in the world, whose sales of firearms in the last ten years amounted to \$1,500,000 have also discontinued sales of revolvers and pistols.

These facts are significant and it is to be hoped that other firms will follow the action of the firms mentioned, by eliminating from their catalogues and from their warehouses, all weapons of a dangerous character. There is little doubt but the increase in crime has been made easier, by the unrestricted sale of such weapons.

While the sale of firearms to irresponsible persons continues, the menace and danger to human life will continue, and the victims of the "empty gun" (?) will also increase. There are many individuals today who are regretting that they did not make sure the gun was not loaded before they pointed it at their victims.

Accidents and crime will be greatly decreased when there is a nation wide restriction of the sale of firearms, as well as a heavy penalty for carrying weapons without official permission. The teaching of humane kindness to Every Living Creature, will, when made a part of the regular training of all children of school age, furnish a foundation for justice, fairness, and pity for all life, both human and animal.

Believe It Or Not

Down in the rice fields and lakes in lower Carolina the fish are plentiful and many Orangeburg sports go down there to pull them in.

Cecil Culler tells the following: He and a gentleman from Augusta were fishing close together and he noticed his cork go under. At the same time the Augustan got a bite. Both pulled and the Augustan thinking Mr. Culler had fastened on his line, let his cane loose and it was pulled in by Mr. Culler.

When the big red breast perch on the line was landed, it was found that he had swallowed both hooks, bait and all.—Orangeburg Times and Democrat.

Platinum wire has been drawn so fine that a mile of it would not weigh more than a grain, while seven ounces of it would extend from New York to London.

About three and one-half times as much of our cultivated crop land is devoted to growing feed for our farm animals as for producing crops for human consumption.

The only balloontire made this new way

It may sound like Greek to you when we say that the Kelly is the only balloon tire made with the looped bead construction.

But translated into the language every motorist can understand, that means—more mileage, more comfort and less gas!

KELLY Balloon TIRES

LITTLE MOTOR CO. Camden, S. C. T. Lee Little, Mgr.

Boy Scout News

Troop No. 2 of the Boy Scouts of Camden held their weekly meeting at the Scout Cabin on Friday May 18. The meeting was called to order at 8 o'clock with very good attendance. After the dues were collected we discussed plans for our summer camp which will be on the old pond. The scouts have recently installed electric lights which is a very good improvement. This work was done by Lawrence Manning and John Richardson and it is a good job. Scoutmaster DeLoache told us that we were asked to parade Tuesday at the Memorial exercises and that we were expected to do our part in the coming Near East campaign. Then we retired to the streets where the real fun began. First came the antelope race followed by the tug of war, relay race, leap frog race, then last and best of all came the paper chase. Everybody enjoyed this meeting and we expect to have many more like it.

Scout Elmer Watts.

After Pietro Mascagni had written "Cavalleria Rusticana," he is said to have thrown it into the fire, from which his wife rescued it.

CONFEDERATE REUNION

To Be Held at Dallas, Texas, May 19th to 22nd, 1925

The Southern Railway has been selected as the official route for the Veterans, Sons of Veterans and others who expect to attend the United Confederate Reunion, and special through Pullman sleeping cars and day coaches will be operated from Columbia on Sunday, May 17th, via Atlanta, Birmingham, Frisco System to Memphis, Cotton Belt Route. Three cars will leave Columbia at

4:30 p. m. Sunday, 17th, arriving Dallas, Tuesday morning May 19th. The Veterans from the eastern part of the state will assemble at Columbia and those in the upper part of the state will join the movement at Greenville.

Very low round trip excursion fares have been authorized on account of this occasion.

For further information, Pullman reservation, etc., apply to ticket agents or address S. H. McLean, District Passenger Agent, Columbia, S. C.

FINAL DISCHARGE

Notice is hereby given that one month from this date, on Monday, June 8th, 1925, I will make to the Probate Court of Kershaw County my final return as Administrator with the Will Annexed of the estate of Eugene A. Brown, deceased, and on the same date I will apply to the said court for a final discharge as said Administrator.

PAUL BROWN. Camden, S. C., May 6th, 1925.

FINAL DISCHARGE

Notice is hereby given that one month from this date, on Monday, June 8th, 1925, I will make to the Probate Court of Kershaw County my final return as Administrator with the Will Annexed of the estate of Margaret E. Brown, deceased, and on the same date I will apply to the said court for a final discharge as said Administrator.

PAUL BROWN. Camden, S. C., May 6th, 1925.

ADMINISTRATOR'S NOTICE

All persons having claims against the estate of Mrs. Mary E. Schrock, deceased, are requested to present them duly attested, and all persons owing the estate of Mrs. Schrock are requested to make immediate payment to the undersigned.

T. B. BRUCE, Administrator. Camden, S. C., May 5, 1925.

To The Farmers

The fertilizer season is about over. In our advertisement of the past few weeks, we have been showing you the advisability of using good Congaree Fertilizers. The next thing is the planting and working of your crop. We want to remind you that we have in our large stock everything that you need for the cultivation of your crop. This is going to be an expensive farming year and the one way you can make it less expensive is to buy your requirements where you can get them cheapest. If you will see us before buying we will save you money. We have on hand now a large and varied stock of Spring Tooth Cultivators, Little Joe Harrows, Cotton and Corn Planters, Distributors, Orangeburg and Blue Steel Sweeps, Plow Repairs, Hoes, Rakes, Shovels, etc.

BESIDES WE CARRY THE BIGGEST STOCK OF HAY, CORN, OATS AND COW FEED IN CAMDEN
