SHOOK FIST AT JUDGE Says Sease in Passing Sentence on **Prohibition Violator**

Spartanburg, June 15 .- "You have as good as flaunted your fist in the face of the judge and Wilton H. Earle told him to go to hell, when you disregarded his remarks made at the fall term of court when he sentenced you to serve twelve months. at hard labor or a fine of \$500 and suspended it upon good behavior, by turning around and violating the prohibition law again," said Judge T. S. Sease of Spartanburg, presiding at the court of general sessions, when he sentenced Carl Wall of near Boiling Springs on a charge of violating the prohibition law, in which he had pleaded guilty.

"A suspended sentence is not a scrap of paper to be disregarded, although some people seem to think it such. You were sentenced last fall to serve 12 months at hard labor or pay a fine of \$500, all of which was suspended upon the payment of a fine of \$100. Since that time, you have been caught again with half a gallon and 24 pint bottles of whiskey.

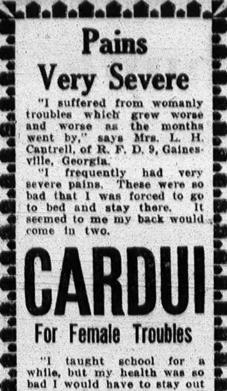

"You have trampled upon the majesty of the law and have as good as spat upon its counsel. The arm of the law is strong and will reach you eventually, even though it is sometimes slow in overtaking you. Judge Earle was lenient with you moral." says the Fountain Inn (S. C.) and you have had your chance. am going to impose the sentence that he suspended of 12 months at hard

labor or a fine of \$500, and in addition a sentence of six months and a fine of \$1,000 to be served concurrently with the first one, this sentence to go into effect immediately," said Judge Sease.

Blowing Florida Bubbles

The human biped is a natural born gambler. He believes in taking a chance. He craves something for nothing. The thorny and rocky path to success has no charms for the majority. Speculating has drawn its heavy toll from the gamesters but much heavier indirectly, from the innocent. It would amaze the public to know how much bogus stock, for instance, was bought at flush times on the other peoples money and which the latter had to pay in the long run. Now, the clarion call is to Florida. Marvelous tales are being broadcasted about the huge fortunes that are piled up by buying Florida real estate. A lot of this is true, but most John A. 800,000 Wild Horses

Frank R. Kent, of the Baltimore Sun, tells his readers that the state of Montana is taking measures to kill 800,000 outlaw horses now running wild in the prairie lands of that commonwealth. He says that three years ago the cattle business "blew up" and ranchers sold their cattle. turning horses loose on the range. It is now estimated that these wild horses number 800,000.

This condition will be hard to picture in many eyes. So vast is the United States and so varied her states that the average citizen has only a hazy idea of the different economic conditions existing. That 800,000 horses should be running wild in any state is a thing that most easterners will attribute to a good imagination.

Pay Cash

Saw a sign reading as follows in a York county man's place of business a few days ago:

"We'll nurse your baby.

We'll water your horse.

"We'll crank your flivver," "But darned if we will cash your neck."-Yorkville Enquirer.

The tax on cosmetics was placed on the people of the State by the last Legislature.

The special relief commission consisting of only six men has reduced this tax from 20 per cent to 4 per cent.

This tax should never have been put on and those in authority now have tried to correct the evil.

We congratulate them on their admission of the mistake.

Does anyone think for one moment that Soft Drinks are more of a luxury than cosmetics?

You, the consumers of Soft Drinks are now paying one-fifth of the entire tax for general state purposes.

Total tax for general purposes, exclusive of education, is \$6,500,000.00. Estimate from Soft Drinks tax \$1,500,000.00.

Who pays the tax on Soft Drinks? 70 per cent is paid by working people and children. As a matter of fact they are not a luxury, but if they are, do you want to tax the working people and children 20 per cent on one of the few luxuries they have?

A \$10,000.00 piece of real estate or farm land is usually assessed at \$1,000.00, on which the State tax for general purposes is \$5.50.

If you drink two Soft Drinks per day you pay \$7.30 tax, which is \$1.80 more than a man pays who owns \$10,000.00 worth of property. This does not include tax you are paying on cosmetics and tobacco.
