Money Makes the Mare Go!

A merry wag of a philosopher once remarked: "Money makes the mare go." The same applies to CAMDEN. It is getting down to first principles when we look toward the development of our town and community from that standpoint. And there is no better time than RIGHT NOW for all of us to clearly see this fact and be governed accordingly.

Heavy taxes may swell and make healthy the city treasury, but unless the citizens also prosper the town cannot grow. Nor can any group or interests profit at the expense of the people and the town thrive.

Money earned at home should be spent at home. Money sent away from home is gone—ultimately to help develop some other town. Those who earn in CAMDEN and spend it elsewhere are slowly but surely undermining their own earning powers, their jobs and their own local investments.

Money earned at home and spent at home divides itself into every avenue of our community activity. Business is better; jobs are more plentiful; salaries are increased; building is resumed; realty values go up; homes are better; people are happy and the town grows.

Spend Your Money in Camden!
