Another Hat in the Ring

dear mr. editor:—

a good many of my con stituents have been begging me here of late to run for govner of my state, but

onner count of being kurriner alre-dy, i do not feel like giving same up to take a chance with a bunch of polly tishions that i know will ass pire to this offis.

i believe i am good timber for the goober natorial race as i stand well in my community all over the county and understand how to vote both pro and con for fool measures as they are fetched up from time to time by the genral ass ssembly who thinks it is their duty to hatch out a bill of some kind and it don't make much difference what kind.

i would like to set in the governer's chair at least 1 term so's i could turn off a few thousand men who have jobs but no work to do. i would pass a law making it a miss (demeanor to graft proceeds which belong to the state, or except bribes from men who sell masheenry for roads and bridges and concrete works. i would allso veto anny bill which taxes the poor man and his dog.

i have had considerable -experients in running a beef bizness as well as a big farm. and i have handled big droves of yearlings all by my self and i therefore know that i could manage the legislature o. k. i have allso helped with a few boss races in my life and that makes me believe that i could hold my own

with the highway commish.

when i was a boy, i played who's got the thimble and tag, and with this knowledge befor me, i am sure that i can take care of the tax com-mission. as to the asylum and pen-entiary, i am fuller aware that i can hold my own with same—as i slept in a room once with 2 con-gress men and an income tax collect-or, and allso shoeed hosses and mules when i lived in georgy.

and the welfare bored will not be over looked in my mercy as i had the 7-yr. each twist and the shingles once and as to the 5,645 investigating committees now investigating, i ass-ure you that i am caperable of meet-ing them and hearing their report—which will be nothing except—"pay us—all jobs is clean"—as i useter raise game roosters for sale and all-so kept 5 bellowing bulls in my barn one summer when beef was cheap. please rite or foam if you think i otter run or keep what i have got.

Relief From Curse of Constipation

A Battle Creek physician says, "Constipation is responsible for more misery than any other cause."

But immediate relief has been found. A tablet called Rexall Orderlies has been discovered. This tablet attracts water from the system into the lazy, dry, evacuating bowell called the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or ever increasing the dose.

Stop suffering from constipation. Chew a Rexall Orderlie at night. Next day bright. Get 24 for 25c today at the nearest Rexall Drug Store.—Zemp & DePass and DeKalb Pharmacy.

Three Lawyers Get Prison Sentences

New York, April 26.—Three law-yers convicted three weeks ago of charges growing out of the investiga-tion of the "hung" jury in the Utah lead mail fraud trial were sentenced to the federal penitentiary at Atlanta today by Federal Judge John C. Knox.

Arthur N. Sager, former circuit attorney of St. Louis and later an assistant United States attorney general, received a two-year term for each of the three counts on which he

was convicted, the first two sen-tences to run concurrently and the third to be suspended during good behavior.

Judge Knox also disqualified him forever for any position of honor or trust in the United States govern-ment.

Joseph Shalleck and Edward H. Reynolds, who were convicted only of conspiracy—Sager was convicted also of bribing a juror—were sen-tenced to two years and 18 months, respectively.

The sentences were stayed for two weeks and bail of \$2,500 each con-tinued, pending appeals.
