

WHY IT PAYS IN MANY WAYS TO TRY Camden-Owned Stores First

Many factors are involved in the statement as to "Why It Pays in Many Ways to Try Camden-Owned Stores First." Among them we list comfort, convenience, the large number of stores and shops and plenty of parking space.

In Camden you will find the Camden-Owned Stores carry an unusually large stock of merchandise that permits of a wide choice of patterns, designs and makes, coupled with a service that is unexcelled.

The trained sales people in our stores serve you gladly and willingly and it is a fixed policy to create a friendly atmosphere that makes your shopping day one of pleasure.

The Camden-Owned Stores deposit their money locally where it is available for your farm, position or business in case you need it. This is a service which cannot be overlooked in justice to the community.

The Camden-Owned Stores, in the long years of their existence, have been instrumental in making Camden what it is today—on the patronage which you have shown them for value received. A town is what its citizens make it. It takes money to make a live town—therefore trade where a part of this money is returned to the community in the way of improvements.

The Camden-Owned Stores employ local help thereby assuring quite a number of employment the year round.

The Camden-Owned Stores many times buy your produce at market prices and you do not have to write to New York for your money and wait thirty days.

A few cents saved apparently here and there is really no saving at all especially should you have children in school—which are supported by the local merchant.

If you think you are saving by spending where your money does not help pay taxes, support schools, churches, public improvements and making jobs plentiful—upon second thought you see the fallacy.

If the dollars say for example, that were spent in this community twenty-five years ago, had been marked at that time, one could still see some of these same dollars rolling around from one hand to another in the local community—and doing good.

If your dollar goes through many channels as prevalent today—its circulation, locally, is limited by a week at the most—and from here it goes to New York or elsewhere—leaving local circulation forever.

Credit is obtainable to those deserving at the Camden-Owned Stores. If you are sick or out of a job it sometimes is a real service to be able to obtain food or clothing in such an emergency. Think this over.

This is not an appeal for business regardless of the price or the quality to be given to the local-owned stores. They want you to try the local-owned stores first—for your own future protection.

As a rule most anything desired can be found in the local Camden-Owned Stores at prices comparing favorably with those of other stores or towns if you will judge fairly the price, quality, service, delivery charges, credit and
