Midway School News
Friday, September 26, 1930 ended the first month of school work at Midway school for the session of 1930-31. Although the enrollment is not below the average it is expected to increase during the coming months. The Lafayette Literary Society, composed of the entire student body of the high school, met Friday for the first program which was very interesting. The completion of the election of officers was carried out by the president, Myrtle Elliott, and a plan devised whereby the society, divided into two groups and each with a captain, would stimulate more interest in the students and create friendly rivalry among them. The Vocational Agriculture boys met September 30 and formed a Future Palmetto Farmers' Association. The following officers were elected: Elmer Joyner, president; Maurice West, vice-president, and Bill Hunnicutt, secretary and treasurer. It was decided at the meeting that the president would represent the associ-

ation at the State Fair School to be held in Columbia during State Fair week. On the whole the teachers think that the work done so far has been very successful and believe that with the coming of cold weather enthusiasm and school interest will grow throughout the year.
