Stock Market Surges Upward

New York, Feb. 13 .- The stock market surged upward with increased vigor today in the most feverish week end session in nearly two years, to the dissonant accompaniment of cheers from bulls and groans from bears.

The powerful anti-deflation tonic administered by the proposal to liberalize the Federal Reserve system had by no means turned stale over yesterday's market holiday, but rather appeared to have increased in potency.

Net gains in most leading issues ranged from \$2 to \$14.50 a share, and several issues in which bears found themselves painfully pinched, zoomed upward even more spectacularly than they did during the sweep ing upsurge Thursday.

Price averages indicated a gain in quoted values of more than \$5,000,-000,000 during the two sessions of swift recovery, restoring the general level of prices close to the peak of mid-January. Several leading issues, including United States Steel and American Telephone registered new high levels for 1932.

Two bandits in a roadster held up a gasoline station at Lincolnville, got away with \$12. Their car had a North Carolina license and departed toward Carlisle.

How One Woman Lost 10 lbs. in a Week

Mrs. Betty Luedeke, of Dayton, "I am using Kruschen to rewrites: duce weight-I lost 10 pounds in one week and cannot say too much to recommend it." To take off fat easily, SAFELY

and HARMLESSLY-take one hall teaspoonful of Kruschen in a glass of hot water in the morning before breakfast-it is the safe way to lose unsightly fat and one bottle that lasts 4 weeks costs but a trifle. Get it at any drug store in America. If this is the safest way to lose fatmoney back.

But be sure and get Kruschen Salts-imitations are numerous and you must safeguard your health.

Hens, Cows, Hogs Gain in Allendale

Allendale, Feb. 13 .- As promising factors in the trend toward a greater variety of cash returns, poultry raising, farm dairying and feeding of hogs are taking a more important place in this county than heretofore, as shown in facts and figures from V. M. Johnston, county farm agent, who sees unmistakable signs that farmers hereabout are becoming livestock-minded.

Following a poultry short course held in the county last year, new interest was shown in poultry and particularly in home-mixing of feeds, Mr. Johnston reports, and 15 tons of feeds were so handled through the agent's cooperation with a group of farmers at a saving of \$250. With good feed mixtures the White Leghorn flock of S. M. Rice, Allendale, led the state in egg production during three months; and so did John G. Bramlet, Fairfax, whose flock of 445 hens returned a labor income of \$1.58 per hen or \$743.49 for the year.

The cream station, established at Allendale by Summerland Creamery in the fall of 1931, through co-operation of the Extension Service and The Allendale Citizen, an energetic promoter of more livestock, has furnished a direct outlet for sour cream and has thus stimulated greater interest in farm dairy cows and better feeding. As a result Mr. Johnston reports 35 to 40 cream patrons sellfarmers but large farmers are showing sustained interest in this source of revenue. A sale of dairy bulls into the county to improve the qual-

BILIOUSNESS

The Rev. J. J. Wisener, of Draketown, Ga., says he has taken Black-Draught, when needed, since childhood, and he is past fifty years of age. "When I would get bilious," he says, "I would feel like shuffling along instead of walking. My feet felt too heavy to lift. I had such a dull, tired feeling, and I would feel dizzy and nauseated Would leef ulzy and hauseated like I couldn't hold my head up. I found how much the Black-Draught helped me, and I took it. Mexican Treasure

Millions of dollars worth of gold and precious stones were recently discovered in an ancient tomb in the old walled and fortressed city of Monte Alban 6,000 feet up the mountain above the present city of Oaxaca, Mexico. It contained the skeletal remains of six ancient Mixtecan caciques or feudal lords as well as the hundreds of priceless relics. The treasure so far uncovered consists of heavy gold crowns, gold arm bands. gold necklaces, gold vases, gold death masks, necklaces of jade, turquoise, pearls (as large as pigeon eggs) and amber, gold breastplates, etc., etc. According to Alfonso Caso, chief Mexican archaeologist in charge of the excavating, it is the richest ing over 600 pounds of cream weekly and most important discovery made and points out that not only small in the New World .- The Pathfinder.
