**Methodist Men's Bible Class**

We are glad to announce that next Sunday morning we are going to have the great privilege of hearing Judge Mendel L. Smith address our Bible class at the Lyttleton Street Methodist church. Class will meet at 10 promptly. Let us roll up a big attendance.

Jack Moore, Secretary.

**Midway High School Honor Roll**

Midway high school honor roll for second month:

Grade 1.—Laura Lee Henry, Wilhelmina Horton, Betty West, Demmie Young.

Grade 2.—Myrtle Corbitt, Sarah Davis, Catherine Watkins, Ralph Young.

Grade 3.—Colene Hall, Juanita Teal.

Grade 4.—Troy West.

Grade 5.—Pauline Catoe, Myrtle Horton, Freddie West, Lewis Lee West.

Grade 6.—Ferris Joyner, Richard McNealy, Margaret West, Margaret Yarborough.

Grade 7.—Thelma Brannon, Elizabeth McCoy.

Grade 8.—Gene Cooper, Sadie Corbett, Emily McCoy, Laurie West.

Grade 9.—Ethelene Corbett, Ruth Walters.

Grade 10.—Oralie Brannon, Margaret Holland, Martha Moseley, Thelma Stokes, Blanche Threatt, Ruby Gay West.

**Youth Takes Own Life**

Barrus Rollings, aged 19, son of Mr. and Mrs. Joe M. Rollings, snort and instantly killed himself at the home of his brother, Mr. Cleveland Rollings, two miles south of Page-land Monday afternoon about 4 o'clock. There is no known motive for the deed, and he was a young man of excellent habits and character. Barrus was visiting at the home of his brother, Cleveland, and secured a pistol from its place in the house. Mrs. Rollings sent for help, as his action appeared strange, but before he could be reached the deed was accomplished. He is a member of a prominent and widely connected family of this section, and the tragedy shocked and grieved the entire community.—Pageland Journal.

**Negroes Let Fire Get Out**

Edward Lewis and John Sumter, negro youths, plead guilty in Magistrate W. M. Reynolds' court Tuesday morning on a charge of malicious mischief, in that they did not extinguish a fire which they had built to warm by and allowed it to get out on property and burn off a considerable acreage. The magistrate let them off with fines of \$10.00 each, this being their first offense, upon their promise to be more careful in future statements in their behalf by a number of persons. However, he gave them a severe lecture on such foolishness and promised to send to the upper court any others caught setting fire get out through their foolishness.—Sumter Herald.

W. T. Deese, 53, farmer, Marshfield, N. C., was instantly killed by a dynamite explosion, while blowing stumps.

**Crack Train To Be Air Conditioned**

Norfolk, Va., Nov. 24.—For years the Orange Blossom Special, Florida's famous train, operated over the Pennsylvania, R. F. & P. and Seaboard Air Line Railways, has been recognized as the finest one-night-out winter train between New York and Florida. This year it will be completely air conditioned with the most modern air conditioning system produced by the Pullman Company. It will be the first and only air conditioned train ever operated to Florida and will be the longest distance completely air conditioned train in the world. The first trip of the Orange Blossom Special this season southbound from New York will be at 12:30 p. m. January 2nd.

Air conditioning means the control of temperature and humidity the same in winter as in summer. It completely eliminates dust, dirt, smoke and greatly reduces noise. It changes the air in the cars every few minutes, bringing into them a flow of pure air and taking out impure air. No matter what the temperature may be on the outside, whether hot or cold, inside the air conditioned Orange Blossom Special will always be fresh, pure, without humidity and of the correct temperature for health and comfort.

Passengers to and from Florida by using the Orange Blossom Special will experience the June-like weather which prevails there during the winter season. They will travel on one of the finest and most completely equipped trains in the world. Fresh from the shops of the Pullman Company there will be delivered to the Seaboard Air Line Railway in time for the first train January 2nd forty of the latest all-steel Pullman cars required for service between New York and Florida, all luxuriously equipped, consisting of dining cars, club-library cars, lounge-library cars and section, compartment and drawing room sleeping cars.

Operated on a one-night-out schedule, faster than ever before in both directions, between New York, Philadelphia, Baltimore, Washington, Richmond and other Eastern Cities to Miami, West Palm Beach, Tampa, Clearwater, St. Petersburg, Sarasota, Venice, West Lake Wales (Mountain Lake), Sebring and other principal Florida resorts on both coasts and in central Florida, passengers arriving at their destinations will not experience the fatigue generally occasioned by a journey of such length but will be thoroughly rested, fresh and clean.

Never before has the tourist visiting Florida been able to have the benefit of such modern service provided at such a low cost. There will be no extra fare, no surcharge and great reductions in one-way and round trip rates. Season tickets, thirty-day tickets and fifteen-day tickets will be sold this winter season from all points to all of the resorts in the Carolinas, Georgia and Florida at very low rates. Passengers will also have the opportunity to enjoy the excellent food, courteous attention and reasonable prices of the Seaboard Air Line Railway's famous dining car service whose reputation has never been excelled.

The Orange Blossom Special will operate daily and will pass through Philadelphia 2:16 p. m., Baltimore 4:05 p. m., Washington 5:20 p. m. with direct connections from Boston, Albany, Atlantic City, Buffalo, Pittsburgh and many other important Eastern cities, arriving at Florida destinations at a convenient hour the following afternoon. Northbound the Orange Blossom Special making its first trip January 4th, with one-night-out schedule leaving Miami, West Palm Beach, Tampa, Clearwater, St. Petersburg, Sarasota, Venice, West Lake Wales (Mountain Lake), Sebring and other Florida resorts during the forenoon and early afternoon arrives Washington, Baltimore, Philadelphia and New York the following afternoon making direct connections to Boston, Albany, Atlantic City, Buffalo, Pittsburgh and many other principal Eastern cities.

Indications point to the largest winter tourist season the south has ever had and there are naturally many reasons why there should be a vast number of tourists going south this winter. A great reduction in railroad fares and elimination of Pullman surcharge, improved train service, reductions in hotel costs, short distances and accessibility from the north make a vacation in Florida or other Southern resorts far less expensive than a trip to California. Revolutions in Cuba and deflation of the dollar make a trip to foreign resorts so costly that people seeking a vacation will undoubtedly go South this winter.

Six prisoners, one white and five colored, escaped from the Darlington county jail and escaped a strenuous hunt for them, by wading in swamp waters to throw bloodhounds off the scent. Seven other prisoners remained in jail.

**Al Smith Breaks With Roosevelt**

New York, Nov. 24.—Alfred E. Smith broke openly today with President Roosevelt's monetary program, declaring he was for sound money and a return to the gold standard.

"I am for gold dollars as against boloney dollars," said the former governor in an editorial to be published in the December issue of the New Outlook.

"I am for experience as against experiment. If I must choose between private management of business and management of a government bureaucracy, I am for private management.

"If I must choose between the leaders of the past, with all the errors they have made and with all the selfishness they have been guilty of, and the inexperienced young college professors who hold no responsible public office but are perfectly ready to turn 130,000,000 Americans into guinea pigs for experimentation, I am going to be for the people who have made the country what it is.

"And I say this with full knowledge of the fact that there are many things in the old order of society which I should like to have changed and which I do not applaud or even condone."

Portions of Smith's editorial were made public at the office of the New Outlook. The former governor, who recently was a guest at tea at the White House, was not present.

The appearance of the statement created a sensation in New York, with afternoon papers displaying it under large headlines. Smith was not in his office, and attendants there declined to say where he could be located.

The statement expressed Smith's personal disbelief that "the Democratic party is fated to be always the party of greenbackers, paper money printers, free silverites, currency managers, rubber dollar manufacturers and crackpots."

"If so, the issue is more than a partisan one," Smith continued, "because we are dealing today with the party which actually holds responsible government office, which is not merely advocating sure-alls in a campaign but which has in its hands the present welfare of 130,000,000 people and the future of our most cherished American institutions.

"I am too old now to be regular just for the sake of regularity.

"What we need in this country is absolute dependability in our money standards. It is the only thing which will restore confidence. The latest fiscal moves of the administration have undermined public confidence. They have created uncertainty.

"Uncertainty paralyzes business, discourages private initiative, drives money into hiding and places the entire burden of sustaining the population on the central government.

"We are told that there is a new theory of government abroad. It is the theory that the executives are quarter backs on a football team who do not know a minute in advance what signal they will call next. They determine the plays on the basis of 'hunches.'

"Of course, this is just another name for opportunism. There is nothing new in it. It never pulled a great modern industrial nation out of a depression."

**Child Seriously Burned**

While engaged in making doll clothes Saturday with little friends at their home before a nice warm fire, little Carolyn McCutcheon, 10-year-old daughter of Mr. and Mrs. M. B. McCutcheon of South Church street, was most seriously burned. It was supposed a spark popped out igniting the clothing and made such headway the child couldn't put the fire out herself. She ran screaming to the kitchen, where the cook grabbed a pan of dish water and put out the enveloping flames. Carolyn's clothing was practically all burned off, her back and right arm being severely blistered. Her hair was singed in the back but the scalp was uninjured. Mercifully the flames didn't touch her face. She is resting as comfortably as could be expected.

Noville Bennett, of the state budget commission, says requests for appropriations made to it amount to \$2,000,000 more than the appropriations at the last session of the legislature, being over \$9,000,000 against \$7,000,000 appropriated for this fiscal year and over \$9,000,000 expended in 1932. The requests include a \$10 a month raise for teachers whose salaries were fixed at \$60 a month from the state at the last session. The abolition of the four-mill tax levy last spring accounts for most of the raise this year in money needed.

Up in Maine, where they hunt foxes with shot guns, there have been eleven hunters killed so far this season. Frederick Schott, 28, of Lewiston, is the latest victim of that method of fox hunting.

**4-H Club Work Is To Be Increased**

In making out the annual plan of work for the Extension Service program in Kershaw county for 1934, the county agent has given a big place in the program to 4-H boys' club work. The importance placed on club work for the coming year was influenced largely by the outstanding results obtained for Kershaw county's development in the past four years by these progressive young farmers and also by the continued interest on the part of the farm boys and their parents who have made many calls on the county agent for not only continuance of this work but its further development.

Due to the many increased demands on the county agent in new fields of service for the farm people of the county it is felt wise to put 4-H activities for the coming year on a slightly different basis than heretofore with the exception that greater service may be rendered and greater success accomplished for the club members and the county's development in general.

Three of the most outstanding accomplishments which have been credited by the public of the county to a large extent to 4-H club boys during the past four years are: Filling the county with a good quality of hogs which has now reached the point of practically supplying the county's pork needs and also enabling a number of club boys and farmers to sell some of their surplus hogs to advantage and at a profit; 4-H club boys of Kershaw county have played a very important part in causing Kershaw county to rise to the point in forestry of now being the premier forestry county of the Southeastern states. It should not be forgotten that 2 years ago 4-H club boys planted 264,000 trees in their demonstration plots. This was the greatest number of trees planted by club boys of any county in the entire United States. 4-H club boys deserve a very large share of the credit for the great forestry accomplishments of Kershaw county to date. 4-H club boys have contributed more probably to the county's farming development by bringing in their development of better farm seeds, especially with respect to corn. They have also been among the leaders in planting legume cover crops such as Austrian peas, vetch, crotalaria and soybeans.

While of course it is not claimed that 4-H club boys have done all of the good work with respect to the above development, but when it is remembered that it was through 4-H club boys that over 300 extra fine registered pure bred gilt pigs were brought into the county with 53 of these placed in the hands of progressive club boys in a single day, it is easy to see how they have contributed very largely to this one phase of the county's development.

Four years ago there was a great shortage of hogs and meat in the county. It was hard for a person to even buy a pair of pigs. Today, however, the county is pretty well supplied with hogs and meat and it is through such accomplishments as these that we believe the people of the county at large have come to recognize the true value of 4-H club work.

Under the new arrangement which is made necessary by directly increased demands for the county agent's time, it becomes necessary that 4-H club work be organized on a somewhat different basis than heretofore. Six new community 4-H clubs are now contemplated and all other farm boys in the county who are interested in becoming 4-H club members are requested to notify the county agent at once and they will be placed on the county-wide club roll. As many meetings and personal visits will be held as possible, but a great deal of the work will be done by correspondence, the county agent furnishing necessary envelopes. Also bulletins and up-to-date information will be furnished each club member on each project as the need arises. Those who are interested in becoming members are requested to notify the county agent at once. Complete information will then be furnished a new member, advises Henry D. Green, the county agent.

Leopold Strauss, who died at Bennettsville and was buried in the Jewish cemetery in Darlington, was 86 years old and the oldest man in Bennettsville, where he moved in 1872, to become a leading merchant of that city. The entire community celebrated his golden wedding in 1928, and his wife died two years ago. He was the oldest living member of the Masonic lodge and was its treasurer for 40 years, being its trustee until his death. He was born in Germany.

The farm administration has sent out checks totaling \$729,955 to 15,072 farmers participating in the government's wheat reduction acreage campaign.

**Bandits Rob Truck With Machine Guns**

The combined forces of the federal government, state, county and city joined hands last night in attempting to solve the daring mail truck robbery yesterday morning near the intersection of Third and Graham streets in Charlotte by bandits armed with sub-machine guns.

Postal officials were making every effort to check the contents of several sacks of registered mail and a registered pouch taken by two of the robbers while two others trained machine guns on Tink Honeycutt, driver of a truck of the local post office, and G. F. Koontz, of Lexington, railway mail clerk, in charge of the mail.

The robbery was staged with perfect precision after an automobile was driven from an alley into the street and blocked the truck's path. After taking the sacks, the bandits escaped in another automobile. The car left at the scene was stolen from Rock Hill, S. C., November 8. Police believed the robbers escaped in a stolen automobile.

Last night department of justice agents, secret service agents, postal officials, state, county and city police were following every clue in the almost clueless case.

J. B. Earle, fingerprint expert with the city police department, obtained eight fingerprints from the abandoned automobile. They were enlarged to be compared with the prints of any persons suspected.

News of the robbery was relayed to cities in Georgia, South Carolina and Tennessee by Detective Chief Frank N. Littlejohn, with the request that all roads be guarded. The four robbers escaped in a black Plymouth sedan or coach, he said.

The robbery was executed so quickly and quietly that eye witnesses did not realize what was taking place until the robbers were speeding away. While two of the bandits covered the truck with the sub-machine guns, two others tore the lock from the back door of the truck, seized sacks of mail, jumped into the automobile and sped away.

Immediately after the departure of the robbers, police arrived. Roads leading from the city were immediately watched, while calls were made to neighboring cities to assist in the search.

Judge W. H. Townsend took sick at Gaffney on the eve of the opening of the court term there last week, and T. C. Graydon, of Columbia, was appointed a special judge to hold the court. Judge Townsend went home to Columbia, as soon as he was able to travel, seriously, but not dangerously ill.

Forest fires in the mountain timberlands of western North Carolina raged for a week along a five county front doing damage estimated at \$800,000 until partially quenched by rain Tuesday night.

Sheriff Tate, of Orangeburg, is under charge of "failing to safely keep" liquor in his possession. The sheriff had 125 gallons of seized liquors in his charge, and it is charged the liquor was removed and the same amount of water substituted.

**SPECIAL TAX NOTICE**

An Act was passed at last session of Legislature allowing taxpayers in this county ten (10) years to pay their 1932 and back taxes in installments of one-fifth each year provided they pay current year's taxes each year before books close March 15 of each year. This applies to real estate and personal property only when listed with real estate. Personal property taxes are in hands of Sheriff for collection as heretofore.

Yours respectfully,  
S. W. HOGUE,  
Treasurer Kershaw County.

**YOUR BRAKES MAY GRIP But Will Your Tires?**

On the slippery and darker roads of winter, you need the deep-treading, sure-holding grip of new Goodyear tires — and you need protection from tire changes in the cold.

You can get that protection about as cheaply as a year ago — and still have tires almost like new next Spring because new rubber lasts longer on cool roads.

Be wise — invest now in new Goodyear tires, ride safely, save money. This will be the 18th winter that more people rely on Goodyears than on any other tire. Let us show you why!

**GOODYEAR SAFETY TREAD**
