New Cotton Picker Soon To Be Ready

by Ray Tucker in Charlotte Observer)
 Washington, May 24.—Agricultural lobbyists wish that Congress would pass a law declaring a moratorium on labor-saving inventions. They argue for the right to outlaw the new cotton-picking machine which their agents have been observing in the Southland. It can disrupt their program for planned economy and result in permanent and larger relief rolls for the cotton belt.
 Departmental representatives have submitted a black report after watching the exhibition of this modern machine. It passed over a bed of tulips, and it plucked the depth of the flower without even bruising the cups. It picks cotton with the same care and despatch.
 It is estimated that it will throw thousands of hand-pickers out of work soon as it reaches the stage of large-scale commercial production. It will be ready for manufacture, according to confidential reports, as soon as its inventors—two Mississippi farmers—negotiate the kind of contract they want with an international-known manufacturer.

Barney Jeffries is held in jail at Newport, Ark., charged with having caused the death of Bill Rutherford, by forcing him to swim in a lake of intimidation until he was exhausted and drowned.

NOTICE

JOHN WILSON, Receiver of NORTHWESTERN RAILROAD COMPANY OF SOUTH CAROLINA, and NORTHWESTERN RAILROAD COMPANY OF SOUTH CAROLINA, hereby give notice that on the 9th day of May, 1935, they filed with the Interstate Commerce Commission at Washington, D. C., their joint application, and on May 21, 1935, filed amendment thereto, for a certificate that the present and future public convenience and necessity permit abandonment by them (a) of the road of the Northwestern Railroad Company of South Carolina, which extends from Wilson's Mill to Sumter, from Sumter to a point at or near Camden, with branch lines extending from Milliard to St. Paul, and from Milliard Junction to a point at or near Rose Hill, a total distance of 15 miles, all in Clarendon, Sumter, Richland, and Lee Counties; (b) the abandonment of operation under package rights over 0.80 mile of the Atlantic Coast Line Railroad and the facilities of said company at Wilson's Mill, Clarendon County; (c) the abandonment of trackage rights over approximately 1 mile of the Atlantic Coast Line Railroad and the use of latter company's freight and passenger stations, and other joint facilities, at Sumter, Sumter County, and the abandonment of operation over Southern Railway between North Junction and Camden, a distance of 4.03 miles, and over certain tracks at Camden, 1.52 miles, and the abandonment of the terminal of the Northwestern Railroad Company of South Carolina at Camden, including tracks approximately 1 mile long, now used jointly by the Southern Railway, in Kershaw County, all in the State of South Carolina.
 JOHN WILSON, Receiver of NORTHWESTERN RAILROAD COMPANY OF SOUTH CAROLINA, and NORTHWESTERN RAILROAD COMPANY OF SOUTH CAROLINA.

General News Notes

Nearly 100 armed men swept into the town of Soyaltepec, state of Oaxaca, Mexico, killed four persons who resisted, executed a councilman and escaped after plundering a suburb.
 Stanley Baldwin, lord president of the council of England, has informed the house of commons that England will build her air force to 1,500 to make it equal to that of Germany. Today England has 580 airplanes, excluding the navy's arms.
 Prince Frederick, crown prince of Denmark, was on Friday married at Stockholm, Sweden, to Princess Ingrid of Sweden. The ceremony was witnessed by the largest gathering of royalty ever to gather at Stockholm for a state affair and 200,000 people crowded the streets of Stockholm because of the marriage.
 When Mrs. Frances Terry, a nurse, of Hallax, Va., went to give aid to a victim of a road collision, the man who had collided with the car of the hurt man, stuck a pistol in her face, as she stepped out of her car, and he stepped in and sped away.
 A feature of Italy's 20th anniversary celebration of her entrance into the World War was the parade of several thousand "Sons of the Wolf," the newest Fascist organization, made up of children 6 to 8 years of age. Mussolini, in his address on the occasion, said the nation is "now ready for any trial."
 France and England are still working on Italy trying to get Mussolini to arbitrate her differences with Ethiopia, while Germany is taking sides with Italy in an effort to bring the governments of Hitler and Mussolini closer together. Mussolini has issued an order for the mobilization of additional troops, including "experts."

In an effort to hold down the number of work projects whose entire cost must be borne by the federal government, President Roosevelt has reduced to 55 per cent the amount that states and communities must pay back on public allotments, and further liberalized old PWA requirements by reducing the interest rate from 4 to 3 per cent.
 Henry F. Baker, of Baltimore, Md., at the Louisville, Ky., convention, was elected president general of the Sons of the American Revolution, succeeding Arthur M. McCrillis of Providence, R. I. The convention adopted resolutions advocating an increase in the nation's armed forces, and state laws requiring teachers to subscribe to an oath of allegiance to the United States.
 All convicts now in the penitentiary, in jail, or on chain gangs by sentence for six months or more by a sessions court, may now apply for a discount of 20 per cent on their terms, and they will get it. If their behavior has been good, by virtue of an act passed by the legislature. Governor Johnston heartily approves the act and sent a letter to all county jails and chain gangs to see how many prisoners come under the law and apply it to them. An audit of penitentiary convicts is being made for the same purpose. It will release a good many longtimers.

Phil B. West died on a train between Columbia and Chester, of a heart attack, while on his way from Florida, where he was in forestry survey work, to Lenoir, N. C., where he formerly was managing editor of a newspaper and two of his four sons live now. He was 46 years old.

JOHN WILSON, Receiver of NORTHWESTERN RAILROAD COMPANY OF SOUTH CAROLINA, and NORTHWESTERN RAILROAD COMPANY OF SOUTH CAROLINA.

PROTECT YOUR LIFE AND THE LIVES OF OTHERS!

THERE are three questions you should ask yourself about the tires you buy:

- 1—"Will the non-skid tread give me the greatest traction and protection against skidding?"
- 2—"Are they built to give me the greatest blowout protection?"
- 3—"Without sacrificing these two important safety features will they give me longer mileage, thus making them the most economical tires I can buy?"

Answer No. 1—Harvey S. Firestone early realized the value of tire traction and safety and was the first to design an All Rubber Non-Skid Tire. Through the years Firestone has led the way in the design and development of tires with most effective non-skid treads.

Firestone does not depend solely on traction and non-skid tests made by its own engineers—it employs a leading University to make impartial tests for non-skid efficiency of its tires, and their most recent report shows that Firestone High Speed Tires stop the car 15% quicker than the best of all popular makes of tires.

Answer No. 2—Blowout protection must be built into a tire. Friction and heat within the tire is the greatest cause of blowouts. Firestone protects its tires from friction and heat by a patented process which soaks every cord and insulates every strand with pure liquid

rubber. This is an additional process known as Gum-Dipping, by which every 100 pounds of cotton cords absorb eight pounds of rubber. This extra process costs more and is not used in any other make of tire.

Leading race drivers investigate the inbuilt qualities of the tires they use, because their very lives depend upon their tires, and they always select Firestone Tires for their daring speed runs. In fact, Firestone Tires have been on the winning cars in the gruelling Indianapolis 500-mile race for fifteen consecutive years, and they were on the 5,000-pound car that Ab Jenkins drove 3,000 miles in 23½ hours on the hot salt beds at Lake Bonneville, Utah, at an average speed of 127.2 miles per hour, without tire trouble of any kind. These amazing performance records are proof of the greatest blowout protection ever known.

Answer No. 3—Thousands of car owners reporting mileage records of 40,000 to 75,000 miles, is proof of the long mileage and greater economy by equipping with Firestone High Speed Tires. Let these unequalled performance records be your buying guide.

Go to the Firestone Auto Supply and Service Store or Firestone Tire Dealer and let him equip your car with Firestone Tires, the safest and most economical tires built.

Volume—Direct Purchasing—Straight Line Manufacturing and Efficient and Economical System of Distributing to our 500 Stores and to 30,000 Dealers, enables Firestone to give you greater values at lowest prices

HIGH SPEED TYPE

We select from our enormous stocks of raw materials the best and highest grade rubber and cotton for the High Speed Tire. In our factory we select the most experienced and skilled tire makers to build this tire. It is accurately balanced and rigidly inspected and we know it is as perfect as human ingenuity can make it.

All Dogs Must Be Vaccinated

Every person in the City who owns a dog or dogs must have them vaccinated, if they have not been vaccinated this year, or suffer the consequences. A complete list of all dogs in the city has been made by the Health Officer, therefore none may expect to escape. There will be a veterinarian here from the State Board of Health at the reel house MONDAY and TUESDAY, JUNE 3 and 4. No dogs will be permitted to remain in the City unless they are vaccinated. Be sure to bring your dog the first day, if possible. The fee will be 65c for each dog. This notice is final.
DON'T FORGET THE DATE
JNO. W. WILSON,
 Health Officer.

General News Notes

Applications for 40 new veterans' administration developments, involving \$15,000,000, have been made public by the applications division of the work relief machinery. Additional construction is asked for the veterans hospital in Columbia, S. C., to cost \$430,000.
 The Roger W. Babson statistical organization, Wellesley, Mass., has issued a statement following a nationwide survey, in which it says that Roosevelt will be re-elected next year, despite the fact that nearly half the people of the country have lost confidence in the New Deal.
 William J. Hall, 34, a bus driver, was found murdered beside his bus on the old Great Bridge highway, near Carolina Junction, Va. He had been previously threatened after a negro had been arrested last Sunday, charged with having stolen Hall's bus the previous Thursday night.
 After scores of police, Boy Scouts and others had hunted for hours for Shirley Evans, aged 8 years, who disappeared from her New York home, her little body was found on a lot near her home covered by a ton of earth that caved in a cave she and her playmates had dug in a building excavation.
 Six navy aviators were killed during the maneuvers in the Pacific, when their big patrol plane struck the ocean at terrific speed, when something went wrong, while it was circling over another plane, forced down on the heavy waves, and reporting

the condition of it. Search for over 24 hours found only a cushion, a wing tip, and a gasoline tank.
 Thirteen nationally known women, among them Amelia Earhart, aviator, will receive honorary degrees from Oglethorpe university, Atlanta, Ga., next Sunday.
 During the five years ending with 1933 over \$4,500,000,000 was paid as fire insurance premiums in the United States.
 Taxes paid in the United States now amount to more than \$9,500,000,000 or one-fifth of the national income annually.
 Still more than 94 per cent of the persons of working age in this country in the year 1933 did not pay any income tax to the federal government.
 Figuring on the basis of the 1930 census there are now approximately 47,000,000 people in the United States 18 years old or over who are able to work.
 The first Methodist church in the United States was established near Westminster, Md.
 Collection of state gasoline taxes costs the petroleum industry something like \$22,500,000 annually.
 The average American uses his weight in paper each year, while the average Russian uses less than 10 pounds.
 Auto accidents in 1934 added one cent a mile to each auto driver's operating costs, with total accident costs being put at \$1,500,000,000.
 Leonard Belongia, 24, is asking for his execution in Colorado on May 31 instead of June 16, so "I may die with my pals." His pals number two.

A long official investigation into the disaster in which the naval dirigible, the Macon, was lost, failed to develop much more than the fact that the big air ship was destroyed.
 Will Quenn, 39, was killed Tuesday night when struck by a Southern railway train as he sat on the tracks between Kings Mountain and Bessemer City, N. C.
 Arthur G. Dutcher, 55, well known lawyer of Rochester, N. Y., was murdered in his office by a negro, who afterwards committed suicide.
 Doris Faria, 15, trundled her baby sister in a carriage from Fall River to New Bedford, Mass., 15 miles after a family quarrel.
 A decree has been issued in Germany calling for army service for all men between the ages of 18 and 45 for a period of one year. Persons over 45 will form reserves and "during war every man and woman will be required to serve the fatherland."

More than one-third of the population of Hawaii is Japanese.
 Jane Adams, noted social worker of Chicago, champion of world peace, died in a Chicago hospital Tuesday afternoon, aged 75 years. She was the founder of Hull House, famous social institution of Chicago, and a winner of one of the Nobel prizes.
 Mrs. Anna James, 62, has been arrested at Wichita, Kan., charged with shooting two children who paddled about in her yard after a heavy rain. The children were wounded in the legs by bullets from a small calibre rifle.
 President Roosevelt has assured congressmen from cotton states that he would again move to continue the 12-cent loan on the 1935 cotton crop as soon as congress extends the Bankhead law to cover the 1935 crop. Senator Smith feels certain that the senate will pass the AAA amendments now before that body.
