FIRST FEDERAL SAVINGS

LOUVE seen it happen with the family down the street, the friends across town, the folks you went to school with.

They started out, as most folks do, with a car of modest size - and still more modest price.

Maybe they moved themselves up a bit, step by step, to the top-bracket models in that particular price range.

Then they discovered something.

It doesn't cost much more - sometimes no more - to really blossom out in a Buick.

It's not such a long stretch to take command of a great-hearted valve-in-head straight-eight - to move into the room and restfulness and steady going of a Buick - to cloak yourself in styling that's today's height of highway fashions.

You can know the good, satisfying feel of a Buick wheel in your hand - you can have the gentleness of soft coil springs on all four wheels-you can revel in the handiness of cars that are big in room and big in repute, yet traffic-sized and easy to park and put away.

Maybe-who knows till you inquire?-you can manage the magic silkiness of Dynaflow Drive\* in all its 1950 perfection - of a certainty you'll find the model that's twin to your heart's desire among the many choices Buick gives you for 1950.

So why not make this your year to blossom out in a Buick, as so many have before you? Why not find out the dollars and cents story of Buick - it even includes some very happy figures on gas economy - from your own Buick dealer?

See him now, will you - and help yourself to some real fun this season!
