Bryan's Campaign Speeches.

AT LYNN, MASS.

No Market for the Shoe Factories When the Farmers Are Out of Money.

Mr. Bryan made a short address on Monday morning at Lynn, Mass., as he was returning from the visit to Maine. His remarks were pointed and appropriate as follows:

Mr. Chairman and Fellow-Citizens Our opponents are all the time asserting that the business men ough's to take an interest in this campaign in order to protect their business interests. It has always made me indignant that a few people in each community should assume to be the only business men in it, and should always insist upon thrusting their business interests forward in preference to any-body else's business interests. I have always believed that anyone who contributed to a nation's prosperity, who added to a nation's wealth or to a nation's greatness, was a business man. (Applause.)

The man with small interests has as much right to protect those small inlarge business has the right to protect his interests by his ballot. (Applause.) I want to show you how the money question concerns the various classes

I want to show you that you cannot separate the interests of the wageearning classes from the interests of the farming classes. You don't produce shoes for ornament, but for wear. People cannot wear shoes until they are able to buy them, and they cannot buy shoes unless they have the money to buy with; and they cannot begin to buy shoes until they sell something they have and get the money.

Now, you sell shoes to the people west and south. If you drive down the prices of all those things which the armers produce, so that when they sell their crops they cannot more than praised today as the honest dollar, is pay debts and interests and taxes, what not the honest dollar, and those who money will they have to buy shoes

There can be no demand for the prodnet as long as you drive money up and property down. Failing prices mean ing bimetallism calls attention to the party, although the republican plat-form this year, without directly saying advocates bimetallism and denounces so, promises to continue hard times the gold standard with emphasis which party piedges itself to get rid of it. If standard is not more desir-

If the gold standard is good, we ought to keep it, but when the Repubican party attempts to get rid of it, it But they promise, notwithstanding their desire it get rid of the gold standard, that they will keep it until other nations have helped us to get rid of it. Until then, they say, we must maintain the grid standard. (A voice,

No. I don't tlink we will myself. If we maintain the gold stanfard, we must maigtain bose things which are pecessarily attached to it. We must maintain this system of issuing bonds for gold whenever we want gold. When we issue bonds and buy gold we create a demand for pld and raise its pur-chasing power hroughout the world, but we are contracting our currency by piling it up it the vaults at Washington when it tugit to be out doing

business among the leople. You manufactures and merchants go to the banks for toney. The banks tell you they are vey sorry, but they cannot loan any mor just now. There can be no more mony in this country than people permit. If you make your laws so you draw a prt of your money out of circulation al lock it up, you can't use it in your biness, and have it in the vaults at ashington, both at the same time. 'hat looks plain enough, yet there a financiers who go on the theory thathe more money you take out of circution the more you have left in it.

There are financiers ho actually rejoice at the issue of hds, and said it would restore confidee. They are trying to run businesin this country with a larger per ce, of confidence all the confidence and money. My observation has been hat if a confidence man comes inta community. the man who has the ast confidence has the most money ten the fellow

You say, "I am hung." They say, "I have got a remedyjust have confidence, and if you ha pot had a full meal you will be just well off as if you had." You say youn't get work. They say, "Just have infidence, you will have work and will be all

You say, "We cannoind a market for our shoes." "Just he confidence, the people will buy id they will

AT PROVIDENCE, R. L.

He Advocates Nothing Revolutionary -An Honest Dollar Does Not Change its Purchasing Power. A crowd of 15,000 people greeted

Wm. J. Bryan when he reached Providence, R. I., where he spoke as fol-

"I do not come to preach to you a new gospel. The position which we take on the money question is an old position, not a new one. We are not lying in the face of natural laws as our opponents sometimes assert, nor are we trying to overturn the principles of political economy. Those who advocate bimetallism are the only ones in this campaign who are telling economic truths and defending the natural laws of trade. When I define an honest dollar as an honest dollar which does not change in its purchasing power it may give to you a definition which has been a sound definition among all writers on political economy. When I give you that definition, I am simply giving you a definition which has been given to the world by that distinguished educator who lives in this city and who is an honor not only to the city and to this State, but to the nation. (Applause.) Professor Andrews in a recent work

entitled: "An honest dollar," commonces the first chaper with the words which I shall quote: "It is always assumed or admitted that the ideal sort of money would be money with a unit having a steadfast general pur-chasing power." When Professor Andrews describes the ideal money as a money whose unit is the steadfast general or average of purchasing power, he planted himself upon the soild rock and all the financiers of this and other countries cannot prevail against the character of this definition. (Applause ) The poet has told us that as hopest man is the noblest work We may supplement this statement by adding that an honest dollar wherever it is found or made will be the soblest work of man, but my friends, the gold dollar which is love it most, love it because of its own with? Are you going to jade to the dishonesty as a dollar. (Applause.) The wage-carners of Lynn will be in the dollar which rises in purchasing power if low and interpretation of the factories of Lynn. The factories of Lynn which falls in purchasing power is just as dishonest as products of the factories of Lynn.

ard times and hard those hare never injustice of the gold standard they say ting the merchant under the complete been advocated in a platform by any that he lacks education and when a make them harder. Do you deny cannot be surpassed, what do they say that proposition? I want you to look of it? Much learning hath made (Applause.) I want to lay down this at that platform. It declars a gold him mad." We say that anybody who proposition, that when you borrow standard is not desirable, because that has a piece of gold sufficient to make money of a bank the banker has no one dollar can have that dollar coined into a dollar. And the fact that any able than the gold standard, shy does holder of gold builion can at any time the Republican party want & make convert that bullion into money enables him to charge for that gold bullion the mist price. The mist price for silver would be established the same as the mint price for gold has been established. Under free coinage at 16 to 1 a man who owne silver bullion knows that he can tage it to the mint and have it converted into dollars of 100 cents of United States money. Some of our opponents applause.)
have been calculating as to how much A yoicemoney they could make under free coinage in buying eliver at 50 cents and having it coined into 100 cents. If any of you held silver bullion would you sell it to anybody for baif the market price and let the purchaser make the profit? The Republican party does not present any financial policy and say that they propose that the policy will benefit the people. The Republican party simply proposes to maintain the policy of their platform and that platform professes to be that you can convert bullion into a bad when it promises to maintain that policy until foreign nations come to our relief. But my friends, if you believe the United States government should have a financial policy of its own, suited to its own needs, its own people, administered by the hands of those who love her, then you can only express yourselves when you act with those who advocate bimetallism at 16 to 1 without the aid or consent of any other nation upon the earth. If the financiers who want the government to issue bonds so they can buy bonds, have the right to keep the government issuing bonds all the time, putting a debt upon the people, then you, the people, have to be taxed to pay these

AT NEW LONDON, CONN. than the amount of oney on hand.

And if they go on, theeople will have No Part of the Country Excluded from the Benefits of Bimetallism.

A stand had been erected at the soldiers and sailors monument adjacent to the railway station, and from this Mr. Bryan made an address an hour long to an audience of about 3,000 people. He was cheered frequently and asked several questions by people in the crowd: He said:

Mr. Chairman, Ladies and Gentlemen-I am informed that I am speak. ing today in the county in which Lyman Trumbutl was born. When went to Chicago as a law student I found a place in his office, and for nearly two years was associated with him as a student is associated with an There is only one placehere I think instructor. And it is one of the frienda confidence game won'tork. You go to one of those men who all the time talking about confiden and ask to borrow money. He say 'What security have you?' Yotay, 'I will think instructor. And it is one of the friend-ships which I prize, because the acquaintance formed then grew into attachment, and when he was called from earth no one mourned his departure was given by the prize of the friend-ships which I prize, because the acquaintance formed then grew into attachment, and when he was called from earth no one mourned his departure was given by the prize of the friend-ships which I prize, because the acquaintance formed then grew into attachment, and when he was called from earth no one mourned his departure was given by the prize of the friend-ships which I prize, because the acquaintance formed then grew into attachment, and when he was called from earth no one mourned his departure was given by the prize of the friend-ships which I prize, because the acquaintance formed then grew into attachment, and when he was called from earth no one mourned his departure was given by the prize of the friend-ships which I prize the prize of the priz give you all the confide you want.' to stand, therefore, among the people He will tell you he is I loaning on confidence this year. We is it these his life I believe that he gave evidence financiers are so anxic for you to of ability, of courage and of patriotism have confidence in the when they —those three characteristics which

natter unworthy of study, even if they have not insulted the intelligence of the Eastern States have not only dea man who is opposed to the discussion of a public question I find a man who would feel more at home under a

Applause.) Agitation is nothing but discussion Applause and cries of "That's so." And discussion is the only means by which the people can find out what is best and remedy a wrong. (Applause.) A man who denounces agitation, a man who opposes public discussion of public questions, would have you suffer and not permit you to secure the only means by which relief can come. My friends, our opponents think that they can destroy agitation by commanding it to keep stil. They might as well try to sweep back the waves of the ocean. (Applause.) You cannot speak agitation into silence. You cannot command it to be still and expect it to obey. Agitation is a result, not a cause. It is a result of a condition, and that result must remain while the condition remains. You have a condition; agitation follows as a consequence and reform comes as a conclusion, and that is the only way that agitation can be stopped, my friends. What does the gold standard do for standard has multiplied the number of fallures and the gold standard is putdomination of the man who holds his as he wishes on the money question business interfering with your politiought not to be permitted to engage in the banking business. (Applause.) Is there a banker who will dispute that? If there is, then he must be a man who believes that the right of voting goes not with the citizens, but with the money loased; and the man who asseris that seemed that this is not a Democracy, not a Republic, but is plutocracy in which money, and not brains

or heart, rule in this country. (Great A yoice-Where will we be when we got free silver? Mr. Bryan-Are you in favor of gold standard?

wrong on this question, there is nobody more anxious to and it out than em. But if I am right and my friend s wrong, I hope he will be as anxious to get right as I am. (Great applause.) Questions do not hurt, my friends. We are glad to answer questions, because there is not a question that can be asked by an advocate of the gold standard that cannot be answered by advocates of free coinage. (Applause and cries of "Why don't McKinley come out and answer some of them? A voice: People here have the impression that when the free coinage of silver is brought into effect they can take their silver teapots and coin them

into money." Mr. Bryan-The gentleman savs that the people have the impression here that under free coinage the people can take silver teapots and their silverware and have it converted into money. It is true that under free coinage that any man can melt up a dollar and haif's worth of spoons and have the silver coined into one dollar and twenty-nine cents, if you have a

There is no part of this country which is excluded from the benefits of bimetallism; there is no part of this 53 cents. (Applause.) Now, my friends, country which we are willing to concede to the gold standard. (Applause their heads this one proposition, and and cheers.) There is no State in without knowing that proposition, this Union which will be benefitted by the maintenance of the present financial policy, and if in some portions of the Union the silver sentiment is not a saltrong as in other portions. It is because the property and described the proposition of the Union the silver sentiment is not a saltrong as in other portions.

as strong as in other portions, it is because those portions where the silver sentiment is weakest are the portions where there has been the least agitawhere there has been the least agita-tion and discussion and study of the money questien. (Applause and cries of "You're right.") You not only have lacked the opportunity of investigating this question which some other to whom they sell goods. (Applause. portions of the country have had, but And if the people cannot buy goods your papers have denounced it as a the merchants cannot sell goods, and people cannot buy goods until they have the money to buy goods with. the voters by telling them that only a (Applause.) And the way the people few people were able to understand get money to buy goods with is by the question anyhow. (Applause.) selling something which they them-Some of the Republican platforms of selves produce. If the farmer cannot straw that showed which way the get money for what he produces, how clared against silver, but have de- is he going to have the money to buy clared against agitation. AN INTERVIEW WITH GOVERNOR NORTHEN.

THE POLITICAL SITUATION IN THE NORTHWESTERN STATES.

Iowa and Illinois-Interesting Fea- are mostly good natured. There is tures of the Campaign. head cracking sometimes, but generaltures of the Campaign."

immigration business, but took advan- manner, the time between bulletins have stood by the farmers in their immigration business, but took advantage of the opportunity to study the political situation. In order that he might get at the facts better, he went about the political headquarters and mixed with the crowds incognito, heard their street discussions, sounded men manner, the time between bulletins have stood by the larmers in their sight; they have ordered the wire ties for them and have aided us all in their power, and you must stand by them. Say to them that you will not allow their street discussions, sounded men or an armans meeting.

I found the newspapers very liberal continued the Governor. "Sil-son of Wilmington to dock your cotton or some points of the street and a gold or story." of every class and every shade of powind blew. He has had some interesting experiences and comes back probably the best posted Georgian who has been West. He tells what he found and relates some of his experiences in the following interview: "The West is not solid by any manner of means," said he. "I have never seen such political conditions. Party lines are obliterated. If you address a

man as a Republican he says : "'Don't speak to me as a Republicate we are not known as Republicans or Democrats any more, but as advocates of the gold standard or the silver stan-

dard. "Old landmarks are gone. You have to seek new means of measuring forces. and when you do it is so mixed that you can't tell anything about it. Noth-ing short of a count of heads will reveal the result. They are constantly polling the trains and the people who travel are usually gold standard advo-cates. The best result I saw was four votes for Bryan out of 22 on a sleeper. A laboring man said, 'That's pretty

pation separately and question the most infelligent men in that pursuit as to the sentiment of his associates. In this way I tried to get at the sentiment of business men, farmers, mechanics and all the same parties. It was impossite the same parties. It was impossite the same parties. When I got through the evidence i had collected was so conflicting that I could not form any conclusion."

State which some Democrate and Populists conceded to the Republicans, the Governor said: "On the contrary, I can give you just as strong evidence on the other aids. At Codar Rapids I talked with just as strong evidence on the other south Carolina. These same ties were for some of the contracts are signs aide. At Cedar Rapids I talked with sold last season at from 65 cents to 72 men in the prime of life, who are a the clerk of the court, a very intelligent man. 'I know this State will go there was no business reason why the sittions. They have amply provider Bryan,' said he, 'and I will show exerbitant advance should have been for their funerals to make the first some of the contracts are signs and the sold last season at from 65 cents to 72 men in the prime of life, who are a forther their cheerfulness and good described the contracts are signs of mind. Age seems to cut no first some of the contracts are signs of mind. Age seems to cut no first sold last season at from 65 cents to 72 men in the prime of life, who are a forther their cheerfulness and good described to the contracts are signs of mind. Age seems to cut no first sold last season at from 65 cents to 72 men in the prime of life, who are a forther their cheerfulness and good described to the court, a very intelligence and good described to the court, a very intelligence and good described to the court, a very intelligence and good described to the court, a very intelligence and good described to the court, a very intelligence and good described to the court, a very intelligence and good described to the court, a very intelligence and good described to the court and the court are the court and the court and the court are the court and you why I think so. There is Clarence, s town of 647 population, with a voting simply a well devised scheme to rob the undertakers think it soth the cotton farmer out of a certain of the way, but look upon it as the publicans who will vote for Bryan."

Besides him sat a dealer in hats. 'I ties. regiment of Tennessee volunteers. Chatham's brigade. Winfrey is a well-known young man of good family.

The Drought in Texas.—The Atlanta Journal has interviewed Dr. J. Harvey Moore, who has lately returned from an extended tour in the Southwest, and he says there is only one section out there where good crops have been made and that is from Helens, Ark, up to southern Missouri. There the seems of the court continued: "In the Atlanta I and they went to this robbeen for their arrangements with the substitute. As their business agent. I was instructed to see what could be done. Now, I am well aware that there are certainfules and regulations, also dustoms of all trades, that have to be respected. I knew the matter of compressing the exported courter are a few personal knowledge, Bryan will easily get the 5,000 or 6,000 Republicans necoustant factor in the marketing of the cotton crop and must be "Yes, I have a good many contracts" "Yes, I have a good many contracts." am a Republicae,' said he, 'and I shall
