the Barrowell People LEBOURT CHERTY COURTS AND A

THURSDAY, JULY, 18, 1801.

Compaign Bay at Barawell.

Tuesday was just as pretty a day as heart could wish. It was warm enough was decided in favor of Atlanta, &c., so had under consideration the report form shocing; the care of the brood of the College surgeon, Ir. Redfearn, mare, diseases of domestic animals reception in 1938. The third day, the In soldition to the light thus thrown fertilizers, drinking water; dairying; by comparison with city weather to be comfortable. So with the soil too wet to be cultivated at this stage and with all crops growing their prettiest a goodly crowd came to Barnwell, Special trains were run from Allendale and Blackville which were well patronized, while many from thterior sections came in their own conveyances.

The Senatorial candidates came by special train from Allendale, Judge Witherspoon kindly had the Court adfourned from noon until 3 o'clock in the afternoon.

The Opera House, which has a seating capacity of 350, was comfortably filled. From our stand point every chair appeared to be occupied, and standing room at a premium.

The audience was a thoroughly representative one. There were men grown gray in the service of the State. In war and peace, in whose breasts the fires of patriotism glow with undimin-Ished brightness, and with them were young men who have just put on the full armor of lite and who are ready to serve as well and bravely as their, sires had done in stormier times. For nearly four solid hours the closest and most Intelligent attention was given to the sidresses of the candidates, who appeared to recognize the plain fact that they were campaigning in a better county than they had previously entered, and each of them did his very heat to win the good graces of the four

May finish, and a constants of fittingly frame proposally and by letter represented are a stighted for the office, I though the times has opine when I obserted speak definition by any other authorest. I remotive that first arms time I was strongly inclined to and enter the race. After giving the subject much throught and excepting is from every standportal, I have reachad the conclusion and to run for the of fire Long ago I arencered to the sabile that I never expected to run for a political office again. I am no politicles and am not vetuciwith the ways of political muaccurating. I could not prartice the arts of a politician if I would, and would not if I could. But beyond that, my business engagements are such that I could not discharge the duties of sacrifices which I am unable to bear. As a patriotic citizen I am willing to make any reasonable sacrifice for the good of my fellow citizens, if the occasion required it, but as I now see it no such emergency exists. I have no doubt that other good citizens who have a greater fondness for political life than I, and who perhaps are easting "anchors to the windward" for something higher, will solicit your votes for the office, so that you will have the opportunity of making a good selection.

To those of my friends who have so licited me to make the race and were so kind as to give me flattering assurances of their support, I desire to express my heartfelt thanks and grateful remembrances. On their account I would have been glad if I could have seen my way clear to run. but I am only a lawyer and after so long a time devoted to that profession, I feel sure that the best results of my labor can only be wrought out in that field, and as I believe that every man ought to do the very best work that his environments will permit, I have reached the conclusion above announced.

Very Truly Yours,
