HAMER AND MANNING SPEAK.

The first speaker introduced was the Hon. B. P. Hamer, who felt high- the limit on their cotton if it was ly complimented in being asked by his home people to speak on such an important subject. Mr. Hamer said that this is distinctively a commercial age and every class of people was or frequently interrupted with applause ganized except the farmer and particularly the "cotton tot." He held that thorough organizition would enable the strong to help the weak and that there should be a fixed price at which to sell cotton, that is, a price for those with obligations and a price for those in urgent need of money. Mr. Hamer strongly advccated the ware house system and pointed out that with the cooperation of the cotton and oil mills, ware houses could be successfully and economically run. Mr. . Hamer is a practical man and his talk being along practical lines was well received. His remarks were greeted with prolonged applause. The Hon. R. I. Manning, who was next introduced, urged the necessity. of thorough organization among the farmers. Mr. Manning's speech was spirited and at times eloquent. His earnestness appealed to the audience and he was frequently interrupted with applause. He believed in the bonded ware house and urged the farmer to hold his cotton and borrow money whenever the price was so low that it did not pay him to sell. Mr. Manning made a good impression on his audience and at the conclusion of his remarks was followed by the Hon. John L. McLsurin. Just here a genuine sensation was sprung, which created a furor in the audience.

THE DISPENSARY INTRODUCED. Mr. McLaurin had been speaking but a few minutes and had paused after an eloquent and touching description of the horrors of the reconstruction period, when a young man walked rapidly across the front of the Cotton Association. He informed the stage and handed him the following audience and the committee that they note:

"Senator: At our committee meet-"Senator: At our committee meet to grant any privileges they might of one second on the cotton question, baving read much on the subject and having read much on the subject and of Southern farmers, and as your the tragedy is not known. Mrs. tistican in the department of agriculof the hour with us is, and will be for sary."

the immediate future, dispensary or Just here a curious phase of "meetno dispensary, and if you have no while Mr. McLaurin was speaking, he made is: "He has ruined my home ment about his case. He returned to happy to contribute in any way his your views on the subject. What do that the splendily representative auyou think of the dispensary law as it dience was entirely in sympathy with the same thing again." is written on the statue books of this him. and loudly cheered at the conclusion situation and the work done, was to gratis. of his talk. arrange to borrow additional money. Mr. F. H. Hyatt caught the audi ence with a series of original anecdotes. He begged pardon for branching off on good roads, but just coulda't talk before such an audience without telling his hearers of the manifold advantages of good roads. He advised sponge or borrow money with which planters to make their farms attracto push the work and pay the expentive and keep the boys at home and wound up with a strong argument for the diversification of crops.

Congressman J. E. Ellerbe was introduced and briefly reviewed the ranted in arranging for additional money on the ground that it is necwork of the Association thus far. He said he felt that a great deal had been essary and that what money has thus accomplished, but that the work had far been spent has been conservately only begun. He referred to the recent rise in the price of cotton as an indication that the South had at last caught the ear of Wall street speculy done. lators. If so much had been accomplished in such a short time the possibilities of success could not be eraggerated.
