HEALING SPRING HIGH SCHOOL.

The Entertainment to be given this Thursday evening at Healing Spring High School, deserves, in our judgment, commendation, for several good reasons.

It shows the interest of both teachers and pupils in the protection and beautifying of the grounds and indicates the existence of good and harmonious relation so essential to successful teaching and learning.

It shows the confidence that the teachers and pupils have in their ability and preparation to entertain an audience competent to appreciate their merits and to discover their demerits. If there be any. It shows the faith of the teachers and pupils in the good will of the community and their willingness to contribute to its enjoyment.

People deserve and desire pleasure at intervals, and especially at the rest time of the year, the commencement of the holidays. And the best pleasures of life are home made. For they are honest and sincere and clean and leave a better taste in memory.

"THE PEOPLE hope to hear that the attendance was so great as to put standing room at a premium, that the programme was carried out as smoothly as the flowing of the crystal waters of the Spring and that the evening will be the bright beginning of a Merry Christmas to all there.

Next year there will be no lack of money for the support of the public schools. If the programme mapped out by the Comptroller General and adopted by the Convention of County Auditors, that all property be assessed for taxation at its true value, is effectively carried out.

A provision of the Constitution requires the levy annually of a tax of three mills on all taxable property for the maintenance of the public schools. The courts may construe and declare the meaning of the Constitution but cannot alter or amend its commands.

Take the livers and heads of two hogs. After the heads are well cleaned put them in a pot and cover with cold water. Boil them until the fat has melted from the bones. Boil the livers until done. Pick them all to pieces and run through the sausage mill or meat chopper, adding some pieces of cold ham if you have them. Put in some of the grease from the top of the water in which the heads were boiled. Season the mass with salt, pepper, a little red pepper, a teaspoon of onion juice and some powdered sage. Knead it well and mold it in your deep pudding dishes. Put a weight on it and let it stand for a day. This should be hard enough to shave into thin slices and will prove an appetizing dish for tea.—Carolina Spartan.

President Roosevelt's last message to Congress contained about 28,000 words. The severest sleet storms known in years prevailed in Virginia and North Carolina on Saturday.

Hiram W. Lawson of Abbeville has a pecan tree planted in 1845 from which he sells every year enough nuts to pay the taxes on his place.

Comptroller General Jones reports 99,547 dogs as returned for taxation, 50 cents each, for school support. Of this total Barnwell has 1,736 barks and Bamberg 1,451.

Chicago has opened its campaign against pneumonia by pointing out that those who eat too much and those who drink too much are in more danger than those who live temperate lives.

By about a hundred majority, Fairfield County voted last week to retain the Dispensary. In elections held last year 15 counties have gone dry and but two, Barnwell and Fairfield, have remained wet.

Are there cracks in your chimney? Pick out the winter. Winter is the time to be burned out of house and home. If not too bad, have the cracks nicely pointed up. If too bad for that, take the chimney down and lay it up new. It is easier and cheaper to do that than to build a new house.

John D. Rockefeller, the richest of all Americans and therefore the greatest captain of industry, predicts that because of over production in the next two or three years there will be ten million men in the United States wanting to be busy. He suggests that the government get ready to give them work on great public improvements.

Whereas the present law providing for a penalty of 1 per cent, on taxes unpaid in January and February and 5 per cent on March 1st, and Whereas such law entails useless complications and much additional work by auditors and treasurers without accomplishing any important results, therefore be it

Resolved, That this convention memorialize the legislature and request them to repeal said law and to make provision for a penalty of 4 per cent, to be placed upon all taxes remaining unpaid on January 1st each year, and to close in March, and in lieu of the penalties provided by the law now in force.

The Jordan is the crookedest river in the world. From its head springs in its mouth is 90 miles in a straight line, while the course the river takes measures 310 miles. And that may be one reason for the old saying that "Jordan is a hard road to travel."

A HOME WEDDING.

Miss Florence Eubanks daughter of Mr. Eljah Eubanks of Talaha was married to Mr. B. M. Greene of Haw- thorne on Thursday evening, Dec. 7th, by Rev. John Wesley of Langley. The wedding was solemnized at the home of the bride's father and was attended by quite a number of relatives and friends.

The house was beautifully decorated with ferns, palms, roses and southern holly. At the hour appointed the wedding march was played by Mrs. Wade of Abbeville.

The bride and groom were attended by two couples Mr. G. T. Greene and Miss Nora Eubanks, Mr. Tiller Eubanks and Miss Lucia Mathews.

The bride was tastefully gowned in white voile with real lace, while the bride's maids wore white chiffon with broad lace. A supper followed the ceremony.

Quite a number of handsome gifts were received with the best wishes from all. Among the out of neighborhood guests were Mr. and Mrs. Riley Brockhalter of Louisville, Ga., Mr. and Mrs. Brooker Eubanks of Blythe, Ga., Mr. L. M. Eubanks of Blythe, Ga., Mr. Isaac Rountree of Williston, Miss Daisy Greene of Greenland, Miss Mattie Brockhalter and sister of Aiken, Mr. Wade Eubanks of Govan, Mr. Clinton Eubanks of Hilda, Mr. Clayton Greene of Greenland, Mr. Perry Greene and sister of Greenland, Mr. Tom Bruce of Augusta, Mr. Earle Meyer and sister of Silverton, Miss Lucia Mathews of Williston, Mr. Joe Baxley and daughters of Seeling, Mr. and Mrs. Will Eubanks of North Augusta, and Mr. J. M. Smith of Langley.

On Friday the many guests assembled at the home of the groom's parents and enjoyed a most sumptuous feast. The bride and groom will be in the neighborhood a few days, after which they will go to their new home at Edie, Ga.

While out collecting taxes in 1897 Treasurer Robert Copps of Orangeburg was shot dead from ambush and robbed of \$33 in coin pieces.

Dan Murphy, white, was found guilty of the crime and sentenced to be hanged. Gov. R. B. McRae commuted the death sentence to life imprisonment.

Murphy and Collins, white, escaped from the penitentiary in 1903. His relatives claimed that he had joined the army and gone to the Philippines. Recently he was caught horse stealing in Emanuel County, Ga., and put on the chain gang. There he was identified after some mistakes and on Saturday was returned to the Penitentiary to finish serving his sentence.

LIVER AND HEAD CHEESE.

Take the livers and heads of two hogs. After the heads are well cleaned put them in a pot and cover with cold water. Boil them until the fat has melted from the bones. Boil the livers until done. Pick them all to pieces and run through the sausage mill or meat chopper, adding some pieces of cold ham if you have them. Knead it well and mold it in your deep pudding dishes. Put a weight on it and let it stand for a day. This should be hard enough to shave into thin slices and will prove an appetizing dish for tea.—Carolina Spartan.

A CURE FOR COLDS.

We see it stated that a tablespoonful of kerosine oil taken inwardly is a sure and sovereign cure for cold in the head or chest.

That reminds us of the personal practice of the late "Sage of Clark's Hill," the Hon. George D. Tillman, who traveled the winter climate of Washington without wearing flannel or over coat; whenever he found himself catching a cold he bathed his head with alcohol. If the cold extended to the throat and chest he took the kerosine dose. For biliousness he used the juice of lemons. As well as remembering the winter climate of Washington he used to keep himself in good health.

President Roosevelt's last message to Congress contained about 28,000 words. The severest sleet storms known in years prevailed in Virginia and North Carolina on Saturday.

THE WINTER REAPER.

Mrs. Sallie M. Ogilvie, widow of the late Dr. J. W. Ogilvie, died very suddenly at her home near Allendale on Friday night.

She was a daughter of the late Col. George W. Moxe of Buford's Brigade. Two daughters survive her. For many years she had been a consistent member of the Methodist Church.

Sapt. A. M. Ruth died at his home in Varnville on Friday night, aged 95 years. He was a gallant Confederate soldier, serving in the Hampton Legion. For 20 years he was sheriff of Hampton County.

TRIBUTE OF RESPECT.

Whereas, it has pleased Almighty God to remove from us our beloved brother and deacon, W. W. Greene, therefore be it

Resolved 1st. That in the death of our beloved brother the community has lost a true friend and our church a faithful member and deacon; one who was ever ready to advance pure and undefiled religion, we will also miss his earnest and devoted prayers, to which we have so often listened.

2nd. That we deeply sympathize with his family and feel that their loss is his gain.

3rd. That we bow in humble submission to the will of our Heavenly Father, who doeth all things well.

4th. That his name, date of his birth and death be inscribed upon our minute book and a copy of these resolutions be furnished the family of the deceased, and request the BARNWELL PEOPLE and Baptist Courier, to publish the same.

W. R. Owens, M. O. Wall, Committee. Dec. 9th, 1906.

The Italian minister to the United States believes that the poor people of his over-crowded country can better their conditions by emigrating to the Southern States. Of course they could. But the coming of a people so cheap living, so steadily working, so contented as the Negroes are would make times harder here for the hero hands and hearts that have conquered the past and brought the South into "the splendid morning of a better age," and who are just beginning to gather for themselves and their children the ripening fruits of their service and sacrifice.

In 1865 the world had not a single steamship on the ocean, a single mile of railway on land, a single span of telegraph upon the continents or a single foot of cable laid on the ocean. In 1905 it has 18,000 steam vessels, 500,000 miles of railway, and more than 1,000,000 miles of telegraph, while the very continents are bound together in instantaneous communication by more than 200,000 miles of ocean cables, and the number of telephone messages sent aggregates 6,000,000 annually, and one-half of them in the United States alone.
