THE NEW JAIL. Messrs P. M. Buckingham, S. G. Matthews and W. I. Johns, appointed right position. by an Act of the last session of the egislature to superintend the erection of a new jail at Barnwell, have gone to work in a painstaking thoroughgoing manner. They are not hurrying, for they put the public service before their own personal business.

On Thursday a number of architects from several States submitted plans and specifications of jail buildings to the commissioners, after careful consideration the commissioners selected those of the Pauly Jail Building Company of St. Louis, Missouri. In a couple of weeks the Board will advertise for bids from contractors, and it s safe to predict a lively competition.

The commissioners have bough

from the Town Council of Barnwell as the site for the new jail, the lot ex-tending from the rear of the Opera House property to Turkey Creek stream, containing between two and a half and three acres. For this location the purchase price is 400. Consequently the present juil property will be sold at a later date Outsiders estimate its
