## DESIGN ACCEPTED

FOR MONUMENT TO THE NOBLE WOMEN OF THE SOUTH.

Beautiful, Elevating Portrayal of

Self-Sacrificeing Devotion of Noble Women of "Lost Cause." Befitting in nobility of conception

and beauty of execution the subject it is to commemorate, the design for the monument to women of the "lost cause" has been completed. It is the work of a Dixie girl, Miss Belle Kinney, of Nashville, Tenn., and has been accepted by several States. It is probable that all the States which left the union in the Civil War will adopt the design and that repicas of the monument will be placed in

the capitols of each. The design for the proposed monument is very beautiful and elevating. The central figure, of heroic size, is the Goddess of Fame. At her right, the reclining figure, delicately featured, beautiful, but with an expression of exquisite sadness, represents the self-sacrificing Southern woman of the war time. Fame is represented as placing a wreath upon the Southern woman's head, while she supports, at her left, a dying and emaciated Confederate soldier, to whom the Southern woman is extending, even in death, the paim of victory.

The design is such that it readily lends itself to reproduction either of

marble or bronze. A year or more ago the Daughters of the Confederacy and the Sons of Confederate Veterans decided upon the erection of these monuments in every State capitol in Dixie. The work was to have been done by an Italian sculptor. When his design was submitted at the late Confederate reunion in Memphis, it raised a storm of protest. The artist had pictured the Southern woman as a militant and amazonion figure, carrying in one hand a sword-and in the other the banner of the Lost Cause.

This conception was so foreign to the gentle, suffering and patient woman of the Southland as those who loved her had known her, that the design was rejected by an overwhelming vote. The artist declined question of vested interests should was appealed to. Tennessee has appropriated \$2,500 through the Daugheters and Sons of the Confederacy for a bronze cast of the design. and Courier says Emanuel Boland, en so that some one could make Other States are raising funds for the purpose and it is believed by fall each of the former Confederate States will have followed suit.

Miss Kinney, the artist, is but 22 years of age and is already a sculptor of more than national fame. She was recently awarded the contract for a heroic statute of the late Senator Edward W. Carmack, of Tennessee, killed by the Coopers. When but a child she received a prize her education in art at the Art institute at Chicago and later studied the Field Museum and has attracted a great deal of attention in art circles throughout the world.

## WHITE SLAVE TRAFFIC

Carried on by People Who Pretend to Be Honest and Friends of Their

Victims—Shocking Discovery is Made by the Detectives of the Immigration Department.

The crusade against evils in the management of immigrant aid societies in New York, which began Tuesday with the barring of two societies from Ellis Island, has shown conditions which officials declare will be called to the attention of Congress, at next session. In an interview a few days ago Representative S. Rennet, a member of the commission appointed by congress in 1907 to investigate immigration problems says that an inquiry by the commission has shown that 75 per cent of the so-called homes in New Make Your Own Will-Without the York have perverted the purposes for which they were organized.

The most serious charge made by Mr. Bennet is that agents for disreputable resorts have been able to go to the homes and obtain girls, newly arrived from foreign countries, who believed that they were about to find employment in desirable places. The agents have paid from \$10 to \$15 a piece for the girls thus recruited, he says.

The commission in getting at the facts here and in other cities, employed detectives who posed as agents for questionable resorts. They had no difficulty it is said, in obtaining girls from the officials of certain homes.

Similar evils have been found by the commission to exist in other American cities, and the crusade against them s likely to extend to several parts where large numbers of imigrants arrive. The commission will report to congress early next March.

The communication made public by Commissioner of Immigration Williams, in which he called attention to certain evils existing in immigration homes in this city, revoking the privilege which two of them had long enjoyed of sending their representatives to Ellis Island, only scraped the crust of a situation, the details of which are appalling.

The investigation of the immigrant homes is not confined to the immigrant authorities here. President Taft has been informed of the commerce and labor are anxious that the most stringent methods be emmonths the immigrant commission which is separate and distinct from the immigration service, has been investigating these matters and today Representative Bennet told some-
