Some cotton sold in Barnwell last week for a fraction over 10 cents. The same day some sold a fraction below 12 cents. The reason was that the cheap cotton was ginned when wet, the cheap cotton was made a bad sample, while the dry cotton was all right.

AT ELLENTON. About fifty farmers attended the meeting on Saturday of the Four Mile Agricultural Club. Wheat from the sowing to the cutting was the subject of thought and talk. Speeches were made by State Commissioner of Agriculture E. J. Watson, Secretary J. H. Rice of the Association (Birds preceding) and A. G. Smith of the government agricultural service. Col. Watson gathered facts to show that three thousand acres will be sown in wheat in the Savannah Valley.

A NEW ENEMY. Senator George H. Bates will be at the head of his ocean expedition at gathering time. A new enemy has attacked one of his prettiest trees and ruined the crop. Last Spring he noticed small black spots on the nuts but paid no attention to them. Later he discovered that the nuts had ceased growing and were being covered with whitish colonies of small insects. He sent some of the fruit to Mr. Berkman of Augusta, from whom he had bought the trees. Mr. Berkman replied that the "Pecan Scale" had done the damage, but that spraying with the Bordeaux Mixture when the trees are in bud in the Spring and a couple of times later would kill the scales and save the nuts.

Senator Bates reports that mischievous oak trees are spoiling a fine and favorite oak tree near his barn, by gnawing the bark from the trunk. The oak was one planted by Col. Joseph D. Allen before the war on the wood lot on which he expected to build a magnificent residence.

ABOUT WHEAT. We had a pleasant chat with Capt. M. O. Wall of Dunbarton on Friday. After discussing other matters we beguiled him into talking about wheat. To use an old expression Capt. Wall is "a good wheat grower." Here is the substance of what he said:

According to the old Dutch sign wheat should be sown during the dark of the moon in October or November. Select for planting the highest and driest land you have, on top of a hill, as it will be likelier to escape rust there than on low, flat or bottom land. If you can plant wherever have grown the best wheat, Cotton seed has always been considered a first class fertilizer for wheat and all small grain.

To prevent smut dissolve blue stone in a tub or barrel of water until the water is a good blue color. Put the seed wheat in the blue stone water overnight and let it dry in the morning. It will be better than any other treatment. The seed wheat will be better than any other treatment. The seed wheat will be better than any other treatment.

MR. W. T. HARLEY. In the death on the 21st inst. of Mr. W. T. Harley, aged 73 years, of Synamore, the County has lost a good and true citizen, his community a member whose example and influence were all uplifting and his family and friends one who found his highest happiness in their unselfish service; without a fear he has passed through the valley of the shadow into the light eternal beyond. His body was laid to rest in Mt. Arden church yard, Rev. H. R. Brown conducting the funeral services.

MR. W. B. BURCKHALTER. Mr. W. B. Burckhalter departed this life on the 22nd inst. at his home in Fairfax aged 34 years. After funeral services conducted by Rev. Mr. Gross-cloak his body was laid to rest in the cemetery at Bethlehem church. He survived by his devoted wife, two little loving children, his sorrowing father and three affectionate sisters, who in their grief and bereavement have the warmest sympathy of his and their multitude of friends. He has been called away in the summer of his years from the companionship of those he so truly dearly loved, but he has left memories that shall be cherished in their faithful hearts of the good son and the loving husband, the affectionate father and true friend who has entered into rest.

CENTENNIAL OF THE DISCIPLINE OF CHRIST. Sept. 7th, 1899 a pamphlet of 56 pages was published at Washington Pa., under the title of "A Declaration and Address." The Secretary, Presbyterian Minister who wrote it was an Irish immigrant of marked scholarship, piety and grace, whose name, Thomas Campbell, indicates that before he was an Irishman he was a Scotchman. It was a plea for the reunion of all churches by a return to the doctrines, ordinances and life of the Apostolic church. It called for the abolition of all creeds and confessions of faith as tests of fellowship, and the reinstatement of the Word of God, and particularly the scriptures of the New Testament, as the united churches' only norm and practice. It pleaded for the complete union of all human beings in the recognition of Christ as the only Saviour of the world.
