

THAT CAIRO MOB

"Northward the 'Criminal Negro' Problem Makes Its Way."

CONTEMPT FOR THE LAW

The Only Novelty Was the Active Participation of Women in the Affair, a Thing That Has Never Yet Occurred in the South and Never Will.

In discussing that Cairo lynching in its editorial columns the Augusta Chronicle says apart from one novelty, hereafter to be mentioned, the recent exhibition of mob violence in Illinois was the same old typical American lynching.

The only novelty was the active participation of women in the affair—a thing that has never yet occurred in the South and never will.

The excuse for the lynching itself is the same old excuse—distrust of the law. But the real underlying cause is contempt for the law.

And, yet, it would not be entirely fair to say that the courts, as a whole, administer justice as certainly and with as even a hand as they should.

We have seen something of this in this very community within the past few weeks, where more than one prisoner, charged with a heinous crime—and as guilty as any that ever faced a court—were summarily turned loose by the jury.

TRAIN WRECKERS REMOVE RAILS AND WRECK TRAIN

Near Denmark, Killing a Colored Fireman and a White Tramp, Who Was Stealing a Ride.

A special dispatch to The News and Courier from Denmark says train wreckers are responsible for the derailment of the south bound mail train on the Seaboard Air Line Railway, which passed Denmark at 1:45 o'clock Thursday morning.

The train was in charge of Conductor Harry Butler and Engineer Potat. While going down grade just before reaching a curve, two miles south of this place, Thursday morning, the engineer saw just ahead the end of a rail turned in toward the middle of the track.

The engine was hurled through the top of his cab for quite a distance. In his fall he sustained a broken nose and several bruises.

Besides the engine, the mail, baggage and one passenger coach left the rails and were thrown across the track. The other coaches were loose from the trucks but did not leave the rails.

Two women and four little children were seen in the wreckage. One of the women was a widow with ten children.

CLAIMS SCALED

The Dispensary Winding Up Commission Makes Its Final Report

STATE SAVED BIG MONEY

Reductions in Amounts Claimed by the Whiskey Houses, and the Counter Claims if Collected, Will Save the State Nearly Five Hundred Thousand Dollars.

Nearly a half million dollars represents the saving to the State of South Carolina by scalings from dispensary claims and over-judgments against firms doing business with the old State dispensary, according to the report of the winding up commission, which practically concluded its work Wednesday night.

The firms that fought the State in the litigation in the Federal Court are taxed costs amounting to \$21,526.

The amount claimed to be owed this firm by the State was \$23,913.75, which is completely wiped out by the commission's findings.

MAY MEAN WAR

Two Americans Captured and Executed by the Nicaraguans.

TWO WAR SHIPS ARE SENT

President Taft Greatly Incensed on Hearing the News, and Declines to Have Any Communication with the New Nicaraguan Minister, Who Just Reached Washington.

A Washington dispatch says two American war ships have been ordered to proceed to Nicaragua waters, and President Taft has postponed indefinitely his meeting of Isidore Haza, the new minister from Nicaragua to this country.

The brutality of the Nicaraguan Government in ordering the execution of these two Americans, who happened to be found in the revolutionists' army without trial of any sort, is likely to result in this Government taking drastic measures to prevent a repetition of it.

Nothing is known at the State department of the antecedents of Leonard Grace, who is reported to have been shot by order of President Zelaya, but the other American, LeRoy Cannon, captured while serving with the revolutionists' army in Nicaragua, have been sentenced to death by President Zelaya's orders.

A dispatch received Friday at the State department is to the effect that the men have undoubtedly been executed. Upon this information the Secretary of State asked the Sec. of the Navy to order the Vicksburg to proceed in all haste to Corinto for the purpose of protecting Americans and American interests.

FINDING THE DEAD

FIRST BODIES BROUGHT UP FRI-DAY OUT OF THE MINES.

Gas Explosions Continue, Which Alarm the Rescuers and Impede Their Work of Lore.

A dispatch from Cherry, Ill., says the dark tomb of the Cherry mines has been conquered. After an all-night battle in clearing the shafts of the burning mine, three bodies, the first recovered through the main shaft, were brought to the surface at 8 o'clock Saturday morning.

The east portion of the gallery, where the fire originated, is badly caved in. The west portion of the gallery is still a fire, but firemen with hose got within 50 feet of the vein.

Fireman O'Connor and many other firemen from Chicago, fighting the underground flames, emerged from the main shaft declaring that they believed that the fire would be extinguished before many hours.

Another body of volunteers was sent later today into the mine. On the second trip of the cage, four other bodies, one that of a boy, were brought to the surface.

Here scores of grief-stricken, sobbing widows sought to identify the bodies as their own husbands, but the condition of the bodies rendered identification difficult.

A MANLY SPEECH

John Mitchell Says Dramatically That He Endorses Boycott.

AROUSES ENTHUSIASM

He Rightfully Declares That No Concern Has a Property Right to His Patronage, and Charges That Washington is Watching Proceedings of the Convention.

Endorsing a report of the committee on boycott, John Mitchell, one of the three officers of the American Federation of Labor, who are under sentence for contempt of court, made a dramatic speech to the convention of that organization now in session at Toronto, at Wednesday's session.

The report which drew forth Mitchell's speech, and which was adopted by the convention among other things declared:

"We say that when our cause is just and every other remedy has been employed without result, boycott we say that when the employer has determined to exploit not only adult male labor, but our women and children, and our resources and our appeal to his fairness, and his conscience will not sway him, boycott; we say that when labor has been oppressed, browbeaten and tyrannized, boycott; we say that when social and political conditions become so bad that ordinary remedial measures are fruitless, boycott, and finally we say, we have a right to boycott and we propose to exercise this right. In the application of this right of boycott, to paraphrase the president (Gompers), we propose to strive on and on."

Mr. Mitchell said he realized that every statement made by those on the convention floor, especially by those who on next Monday will have to deliver themselves to the courts, is being closely scrutinized.

"I want the people of the United States to know my position," he said. "I shall speak definitely, but be the consequences what they will, I shall not surrender any right guaranteed to me by the constitution of our country. I am not sure how much mental and physical suffering will be necessary to make me submit, but if I know myself, not any amount of suffering will persuade me that I have not the right to spend my money where I please or that I have not the right to write and speak as I please; being responsible under the law for my acts."

"Whether the boycott be a benefit or a detriment each man must decide where he will bestow his patronage. I maintain that my patronage is my own and no merchant has a property right to it. I understand that cognizance is being taken at Washington of the utterances of men on the floor of this convention, and I want clearly to state my position. I propose in the future, as I have in the past, to conduct my business as I see fit."
