Meantime do not think that the Republican party is completely rent asunder by this temporary triumph of the "insurgents" and Democrats. It is true that this is one of the very few times that "Uncle Joe" has been flatly turned down in the house. And the really remarkable part of this is that the Democrats voted solidly against him. If there had been anything much at stake the old man would have bought up a few Democrats from Georgia and one or two other States to have carried the day. There are always a few Georgia statesmen for sale for a few committee assignments or other measly crumbs from the rich man's table. And always a few from Tammany Hall and such places. But it is no great matter this, so your Uncle Joe let it go by. But !t does one thing-and that Mr. Cannon is not so very sorry about either-it has lined up these "insurgents" with the Democrats. It was really a Democratic victory the other day, the Democrats winning with the assistance of the few Republibe set up in these insurgents' disand with their usual vigor the or- shot at a dance given by an East
