

# SENATORS MEET

## DEBATE ON HARMONY SESSION IS AN IDEAL DREAM

# PLEASE TO START A ROW

The Columbia correspondent of the Augusta Chronicle thinks a "harmony session" is out of the question as the Governor wants a row and is bound to have one.

The Columbia correspondent of the Augusta Chronicle says some people in this State are talking about the harmony session of the general assembly. This is all idle talk, for the very life of the South Carolina general assembly is the talking which develops into hot factional fights. There never has been a "harmony session" of a South Carolina general assembly and there never will be, until all of the loud talking politicians have passed from the arena. The changes are they never will—so there you are.

There are plenty of brainy men in the body, but they are literally smothered when the ranting time comes along. The one definite subject for talk has not been divided upon so far, but some one will find it. That subject is going to bob up, and the mass of legislators will follow it blindly. Whiskey has been the talking subject for many years, and now it is something else. The people in this State just love politics they must have.

The present governor of South Carolina is absolutely dependable in one particular—that is to start something. He would never consent to a "harmony session". Just as sure as twice two is four he will start something and the wise ones here are of the opinion that it will be started with his annual message.

Some one said the other day that this was going to be a quiet session, and that a progressive program of legislation would be carried out. Every South Carolinian, down in his heart, if he has the interest of the State at heart, hopes that the prediction will come true. But if it should come true, then there would be a new day in this State.

The wisest ones will baffle forth with all of their glory, insofar as loud talking goes, when the compulsory education measure is proposed. "Free schools" will be shouted loud and strong, and alleged arguments against the measure put forward. The thinking people of South Carolina realize that the hope of the future of the State lies in the education of the children. They also realize that the education of all children depends on the right kind of compulsory education measure. However, just as in the past, this measure is going to meet defeat.

Taxation is a question that reaches practically every man one way or the other. This question will be one of the most important to be faced by the next legislature. About \$2,000,000 will be necessary for the State government this year. It is estimated that about five and three-fourth mills will be sufficient for the ordinary purposes. Yet the asylum bond issue was defeated, and the funds borrowed must be returned to the sinking fund commission. This will necessarily raise the tax levy, for all realize that the work of relieving the congested condition at the State Hospital for the insane must go on.

The supporters of the governor were elected to his general assembly, are marshaling their forces, and will put up a determined fight to gain every possible inch of ground. They want important committee assignments, which they will not get unless Mendel L. Smith leaves his nerve. He is assured of election as speaker, and the Blease people want George Rembert for chairman of the ways and means committee chairmanship.

There is little interest in the report to be filed by the legislative committee that was appointed to investigate the charge of the governor against Attorney General Lyon, and the members of the Ansel winding-up commission. The commission will very probably exonerate all charged by the governor and let the matter drop at that. There was nothing of an incriminating nature proved against the governor at the Augusta hearing—however the suspicions may have been aroused—so it is supposed that the committee will merely submit the verbatim testimony of the hearing. The committee will very probably touch on the Charleston graft situation.

The Charleston racing situation is causing considerable comment just now, and the general opinion is that nothing will develop to prevent the alleged sport. No one knows just what action Thomas H. Peoples, the next attorney general, will take.

A member of the Charleston County delegation will introduce a measure for a high license liquor law in South Carolina. Under present conditions it does not seem necessary to enact any kind of whiskey legislation for the laws that are on the books are being flagrantly violated from one end of the State to another. It is estimated that there are fully 5,000 places in South Carolina where whiskey may be purchased. Right here in Columbia there are many saloons where whiskey is seldom if ever collected. Every one knows the situation in Charleston.

The general assembly would not waste any time if it gave serious consideration to the progressive measures for the betterment of labor conditions in South Carolina that have been proposed by the Commissioner of Labor. The first few days will see a host of measures introduced. This is a time of legislation and there will be a lot of action.

# NEGRO MURDERER SLAIN

## RELIEVED TO BE MURDERER OF R. N. HANKINSON.

# Another Negro Who Was With the One that Was Killed Makes His Escape But is Being Hunted.

Two negroes believed to be the murderers of E. N. Hankinson, the Barnwell county merchant who was beaten to death Saturday night at his store near Blackville, were apprehended Monday at Hardeeville. One was killed in resisting arrest. The other was captured, but later escaped.

Willie Hubbard, marshal of Hardeeville, saw the negroes beating a ride on a freight train. He mounted the car on which they were riding and was about to make the arrest when the two negroes jumped from the car and ran. Hubbard commanded a halt, and shot to frighten them and when no halt was made he shot above their head. One of them announced that it would be necessary to kill him in order to get him, whereupon Hubbard shot again and killed one.

The other escaped, but was later captured, after a long chase. The town authorities of Hardeeville shackled the prisoner securely, placed a heavy guard around the jail. The prisoner was Tuesday morning turned over to the sheriff of Barnwell, who securely manacled him hand and foot and fastened him to the floor. Upon going back about 30 minutes later the sheriff found that the prisoner had escaped.

It is evident that the negro had outside help from others of his color. Bloodhounds on the scene failed to take the trail, and it is thought that the prisoner was taken off in a buggy. The negroes at Hardeeville have been much excited since the arrests, but the town is now quiet.

The following is a description of the negro who escaped: About 28 years old, height 5 feet 9 inches, coal black, with bumps on face, a scar across forehead and a fresh wound on wrist, wearing a dark brown suit with initials on inside coat pocket and tan shoes.

Poses are looking for him all over that section and with all roads well guarded it is hoped that he will soon be apprehended. The sheriff of Barnwell is still on the job with several deputies.

# BEATH FIVE-YEAR AVERAGE.

## Cotton Production Per Acre During the Past Year.

The production of cotton per acre during 1912, while lower than in 1911, was more than 13 pounds greater than the average for the previous five years, the department of agriculture, preliminary estimate announces.

The acreage production in 1912 was 193.2 pounds, against 207.7 pounds in 1911, and 180.1 pounds, the five year average. The highest acre average production was in California, with 430 pounds. North Carolina produced 271 pounds; Missouri, 267; Virginia, 266; South Carolina, 218; Texas, 206; Louisiana, 197; Arkansas, 190; Oklahoma, 184; Mississippi, 177; Alabama, 173; Tennessee, 171; Georgia, 163, and Florida, 119.

# WHISKEY BY PARCELS POST.

## But Smashed Bottle in Post Office Exposes Scheme.

The accidental dropping of a parcels post package in the Savannah post office Sunday disclosed the fact that liquor dealers are trying to use the system. About 25 packages from the same address are now being held at the post office.

One and two quarts of whiskey appear to be in each package. They are fixed up like jewelry packages and only the accident disclosed the nature of the contents. The packages started in steadily Saturday afternoon and the clerks noticed the large number of packages of a similar size.

One was dropped and immediately the odor of liquor permeated the entire office. Postmaster Baker is holding them for the order of the addressee, who loses the amount put on them in parcels post stamps.

# Young Boy Accidentally Shot.

Charles Miller, aged 15, was shot and fatally wounded Wednesday by his cousin, Ralph Johnson, aged 15, when the latter's shotgun was accidentally discharged. The boys were returning from a hunting trip near Mount Airy, N. C. Miller was only a few feet away from Johnson, the entire charge from the shotgun entering the abdomen. He lived a few hours.

# She Worked Old Bachs.

At Des Moines, Ia., Florence Gamble, 32 years old, confessed to federal authorities that she had corresponded with more than 500 backsliders over the country, from some of whom she received amounts ranging from \$15 to \$50.

# Another Negro Paroled.

Gov. Blease has issued a parole to Ben Coleman, colored, serving a six-year term on the Saluda County charge for manslaughter, having been convicted in October, 1910. The parole is conditioned on good behavior.

# BOTH WILL HAVE THEM

## SUPREME COURT RENDERS A RIGHTIOUS VERDICT.

# Mr. R. R. Tillman Jr., Given the Custody of His Little Girls Part of Each Month.

The Supreme Court Monday afternoon filed an order in the Tillman children case designating what times of the year the mother is to have the custody of the children and what time the father is to have them. The children are to be with their father in the months of July and August, from December 26 to January 2, and one week in April. During the time they are with their mother they are to be permitted to see their father every other Saturday, and during the time they are with the father they are to be permitted to see their mother every other Saturday. The question of support is not passed on.

The following is the order: "B. R. Tillman Jr., petitioner, vs. Mrs. Lucy Dugas Tillman, alias Mrs. Lucy Dugas, respondent. Per curiam order: The parties to this controversy being unable to agree as to the details referred to in the order dated December 9, 1912, the Court orders as follows:

"The children, Douschka Pickens Tillman and Sarah Stark Tillman, are to be in the custody of their father, B. R. Tillman Jr., every year during the months of July and August, subject to the right of the mother to have them at all times when ill. They are to go to their father every year on December 26 and remain until January 2, following, and to spend with him any week in April of every year that the mother or may duly indicate to him as most convenient.

"The children are to spend every other Saturday with their father when in their mother's custody and in their father's custody in July and August. The duty is imposed on the mother to provide that the father shall have reasonable access to the children in case of serious illness. The children may be taken temporarily out of the State by either parent for their health or pleasure, but the undertaking, mentioned in the former order, shall provide that they shall not be removed permanently from the State, and that they shall at all times be subject to the order of this Court.

"The Court adjudges nothing as to the duty of the father to support the children, because that question is not before it in this proceeding, and because there is no evidence that the father has refused to support them."

# HOUSES ARE BLOWN DOWN.

## Heavy Wind Does Some Damage in Lancaster County.

One of the worst wind storms that has ever visited in these parts, assuming at times cyclonic proportions, struck Lancaster between 1 and 2 o'clock Thursday night, and continuing with unabated fury throughout the night, caused considerable damage in many sections of the community. Numerous outhouses, small barns and fences were blown down, and in some instances carried several hundred yards away. A number of chimneys and stove flues have been tossed to the ground as if from an earthquake shock. Numbers of shingles, signs and other pieces of lumber were to be seen scattered here and there along Main street, Friday morning. No reports of damages in the rural districts have yet reached here, but it is thought that considerable damage, especially in some sections, was done. The velocity of the wind during the day, though somewhat abated, is still so great as to cause anxiety.

# TWINS BOUND TOGETHER.

## Baby Girls Attached at Hips Like the Siamese Pair.

Mr. and Mrs. John R. Gibbs, of Holyoke, Mass., are the parents of two girls which in many ways are like the famous Siamese twins. They are attached to each other at the hips, but in every other way are perfectly normal. The twins are seven months old and have developed splendidly since their birth. Experts say it will be impossible ever to separate them. The Gibbs twins are different in a great many ways. Often when one desires to sleep the other is wide awake and shows a strong desire to be playful. They never seem to agree on the eating hours, for while one cries for her food the other one pushes the bottle away.

# Eight People Rescued.

After being imprisoned behind a fall of coal, rock and other mine refuse, eight of the nine men entombed Wednesday in the colliery of the East Leigh Coal company near Tamaqua, Pa., were rescued alive Thursday night. The other man, Joseph Walter, is missing and is believed to have been killed. The men were imprisoned nearly 40 hours.

# Took His Own Life.

Because he wanted to move back to town and his wife would not let him, is the reason given for the suicide of Edward McLendon, a prominent nurseryman of Concord, Ga., who shot and killed himself at his palatial country home, near Jolly, Saturday. There is no other reason for his self destruction given.

# Regular Blind Tiger Mixture.

Earl Dean, 31 years old, of Shefford Del., nearly died from convulsions after drinking a half pint of liquor obtained from a negro. The solution, when analyzed, was found to contain whiskey, concentrated lye and Jamaica ginger.

# PROTECT PRIMARY

## SENATOR TILLMAN URGES SOME REFORM BY LAW

# STATE IS IN JEOPARDY

The Senator Fears That Good Government is Doomed Unless Legislation is Enacted to Put the Primary Substantially Under the Same Regulations as the General Election.

"We must either reform the primary system by law or see it die," warns Senator Benjamin Ryan Tillman, in an open letter to the South Carolina General Assembly, soon to meet, in which it is urged that legislation be enacted to safeguard the primary system of election in this State. "If we do not safeguard the primary system," writes Senator Tillman, "and make it above suspicion, good government in the State is doomed." The senator again warns the people against the negro being used in politics under white leadership; if the black population be thus mobilized, he thinks, officers of trust and power will become mere pawns in the game of politics, to be bought by the highest bidder.

"I dislike the statement," following is the statement: "I dislike to have the appearance even of assuming the right to dictate to the General Assembly, and such is not my purpose now. But for reasons unnecessary to enumerate I feel that I have a duty to perform in the present instance.

"The angry passions aroused last summer in the State campaign for Governor have in a measure subsided, and the people have cooled on. To my mind there was great danger to white supremacy and Democratic unity which is now happily passed. But unless every possible safeguard is thrown around the primary system, by law, rules and regulations made so plain and of such a just and reasonable nature as to compel honesty and fair play in the primary—the system is doomed and the people of the State will settle their political differences at the polls in November just as they do now in all border and Northern States.

"There are many people in South Carolina who would be glad to see two white parties in the State. Were conditions different I myself would like to have two white parties, but as things are now it would mean the mobilization of the negro and his active and aggressive return to State politics under white leadership. "I know of no calamity greater than this that could overtake our people. I speak advisedly, for I went through the reconstruction period and know the degradation to which our people sank, the rottenness and corruption that were in our politics, and made our Government a byword and a hissing, and I know how hard it was to get the white man to line up shoulder to shoulder and throw out the vote. From 1868 to 1876 we had the vilest and most corrupt Government in South Carolina that has ever existed in any State of the Union, except Louisiana.

"The negroes outnumber us in South Carolina by more than one hundred and fifty thousand, and a large number of them are either registered or eligible for registration. If they should ever be mobilized and led to the polls by white men, in the struggle for mastery and control, then we can never save the State from a repetition of even greater corruption than we were already endured. The State corporations and Standard Oil, to say nothing of the railroads, would use money lavishly, and the Governorship and the United States Senatorships, to say nothing of the Congressional delegation, would become pawns in the game of politics to be bought by the highest bidder.

"The Democratic party of South Carolina, when it meets again in Convention, will no doubt deal with this question, but the Legislature ought to deal with it now, at this coming session, while the memory is fresh and knowledge of intensity of feeling has not faded away. "I cannot and will not indicate just what sort of a law the Legislature ought to pass. The details must be worked out in committee, but I can and will outline the general policy which should govern us in this crisis:

"First: The primary ought to be honest and fair and above all suspicion.

"Second: No man ought to object to whatever expense and trouble are necessary to secure such registration and preparation of the Democratic club rolls as will insure honesty and fair play. It must not be left to hazard and guess work.

"Third: Stringent rules and regulations are required. No man should participate in the primary to nominate who is not willing and able to stand the test of registration to participate in the general election.

"The rules should be few, plain and simple, but they must be enacted into law in order to compel compliance with them. A rigid punishment ought to be provided for any man who neglects to comply with all conditions and rules or he ought to lose his vote. An honest and fairly conducted primary can and will command the endorsement and support of all right-thinking white people; a dishonest one will command the support of nobody.

"We must either reform the primary system by law or see it die. No decent man will object or resist the rule of the majority fairly expressed. Let us see to it that none but duly qualified citizens vote at the Democratic primary, and danger of trouble will disappear. If we do not safeguard the primary system and

# VESSEL WENT TO BOTTOM

## THIRTY-THREE PEOPLE LOST ON A HOODOO SHIP.

# Burned to the Water in August, Wrecked on the Rocks in March, Her Record Full of Disaster.

Leaving marine records strewn with tales of death and disaster, connected with her career, the Rosecrans, once a United States Army transport, was lost on Peacock Spit, just beyond the bar at Astoria, Oregon, Tuesday, in a furious gale that drove her on the rocks.

Thirty-three of her crew of thirty-six perished when the ship went under, it is believed. Three others clung to a topmast and their death seemed certain.

The Rosecrans, owned by the Associated Oil company, has been an ill-fated vessel. While loading oil at Gaviota on August 27, 1912, she caught fire and was burned to the water's edge. In March of the same year she was driven on the rocks at Gaviota and two of her crew were lost.

Built at Glasgow in 1883, the Rosecrans was 325 feet long and registered 2,976 tons gross. She formerly was an army transport. At the offices of the Associated Oil company it was said the vessel carried a crew of thirty-six men and was valued at about \$200,000.

# THE COTTON CORNER CASE.

## It Must Go to Trial on the Facts Before a Jury.

By upholding certain disputed counts against James A. Patten and others charged with violation of the Sherman law in running a so-called cotton corner, the supreme court Monday sent the case against the Monday to trial in the lower courts.

# WORST STORM IN YEARS.

## Great Damage Done by Storm of Thursday Night.

A New York dispatch says belated returns of the damage done by the storm revealed that a clean sweep of the wires had been made from Jacksonville to Maine and that the storm was the most severe of the recent years. Thousands of men are at work repairing the damage. Like winds prevailed Saturday along the northern Atlantic seaboard, but the wire trouble, it was reported, was slightly compared to that of Friday. The most serious instance Saturday was the break near Philadelphia or more than 60 through wires between New York and Washington. Daybreak Friday found the coast from Florida to Maine dotted with camps of linemen, many of whom had worked all night in the darkness.

# Wanted to Go Back to His Post.

Senator and Mrs. Tillman have returned to Washington and the senator's office presented a scene of great activity Monday. The senator says that he has not yet made up his mind which of the big Senate committees at his disposal he will choose for his chairmanship in the next Congress. The impression is going, however, that it will be appropriations, the biggest of them all.

# Crazed Men Battle With Axes.

Crazed by drinking wood alcohol, a camp of lumber jacks in the vicinity of Brainard, Minn., participated in a bloody massacre. Armed with axes the crew attacked each other. When the carnage was over, the camp was transformed into a shambles and 14 men lay dead or wounded.

make it above suspicion good government in the State is doomed. We want no man in the Democratic primary who votes the Republican or other national ticket in the general election.

"I write the above believing that I will never ask the people to vote for me in another primary, because I believe I will be dead before another Senator to succeed me is elected. Therefore, no charge of selfish or personal motive can be just made against me taking the position I do. It is solely because I know the danger, having passed through the crisis once, that I make bold to write this way."

# W. H. MIXSON SEED CO.

## Best for Truck or Garden.

Mixson's High grade seeds grow largest crops and make more profits for you. Actual tests show they are best for Southern soils. Our large stock includes all varieties of Beans, Cucumbers, Cabbage, Corn, Sorghum, Cotton, etc. Special prices on large orders. Low freight rates. Don't fail to write for catalog and prices on MIXSON'S HIGH GRADE SEEDS to-day, before you forget it.

Frost Proof Cabbage Plants. Strictly first class, hardy and toughened by the snows and frosts. Only best of seed used. Send 75c for 500; \$1.25 for 1,000; \$3.25 for 3,000; \$5 for 5,000; \$9 for 10,000. Cultivation suggestions and price list free. Wakefield Farms, Charlotte, N. C.

Delicious Home Made Candies—Sent you by parcels post. Write us for prices on any of the following: Walnut creams, Cream Coconut,

cream Walnuts, Almond, Filbert, Walnut, 14 different Bars, Nut Cream Caramels, Cream Mints—all colors, Buttercreams, Brilliants, Peanut Brittle, Butter Toffee, Molasses Candy or anything that suits your fancy. No trouble to answer inquiries. Hahn and Co., Charleston, S. C., Makers of the "Purity Ice Creams and Candies."

With a swish of his tail he turned over on his back, shot towards the slowly sinking piece of dynamite, opened his great jaws and swallowed it. That was his death warrant. He hardly had gotten down the stick before it exploded. There wasn't even a struggle or a gasp. As a sailor would say, "he was ripped from stem to stern," and his great bulk of a body floated on top of the water.

The explosion that speedily followed caused a cushion that stinned the fish and caused them to float on top of the water as though dead. Then it was an easy matter to put off from the vessel in a small boat and with a net dip as many as desired. Of course, this was not sportsmanlike, but it was highly satisfactory to a lot of hungry sailors.

At the time Joe died the snappers were there—so was the captain, so was the dynamite and so were the sailors. It was soon after breakfast. The explosive had been thrown overboard and all hands were waiting for the result. Suddenly there was a great commotion in the water, a scurrying of the snappers in every direction, and directly off the port kangaroo appeared Joe, his little eyes hungrily watching the sailors lining the rail.

With a swish of his tail he turned over on his back, shot towards the slowly sinking piece of dynamite, opened his great jaws and swallowed it. That was his death warrant. He hardly had gotten down the stick before it exploded. There wasn't even a struggle or a gasp. As a sailor would say, "he was ripped from stem to stern," and his great bulk of a body floated on top of the water.
