ELECTRIC LIGHTS TO BE

TURNED ON NEXT WEEK That Part of City's New Plant Is Fast Nearing Completion.

When seen by a representative of The People Tuesday, Mr. Ben Downes, who is in charge of the electric light plant here, stated that the current will dle of next week. The plant is practically finished, only about one day's work remains to be done on the switch- and C. S. Wilson. board and the contractor who is to do that is expected the first of the week. It is very gratifying to note the large number of stores and residences that have already been wired, while the electricians still have their hands full to keep up with the wiring that they are called upon to do. The electric light fever seems to have hit the town hard. It is expected that those who are waiting until the plant is in operation will fall over themselves to have their houses wired after next week.
