## Money in Bank: Check Book in Pocket.

It is dangerous to carry money in your pocket any time; especially so just now when cotton is moving freely. The highway robber, the firebug, and the fakir avoid people known to bank their money. Because you may not have suffered losses at the hands of any of these three is no reason why your time may not come next. If in town come and see us and we will start you right with a checking account. If more convenient mail us all checks you get and we will collect them without cost to you.
