WORK OF VETERANS' BUREAU

Improvements for Relief of Soldiers in Accord With Legion Policies, Director Says.

Practically all accomplishments of the United States veterans' bureau, regarded by Director Frank T. Hines as noteworthy improvements for the relief of the soldier, have been advocated, and are in accord with the policies of the American Legion, according to Joseph Sparks, chairman of the national rehabilitation committee of the American Legion.

Among the recent actions of the bureau for the relief of the disabled man have been provisions for a permanent partial status to disabled beneficiaries now receiving compensation on a temporary partial rating, thereby reducing medical examinations, eliminating inconvenience to employed beneficiaries and reducing travel and personnel.

Another forward step of the bureau, strongly advocated by the Legion, was the employment of effective methods of placement of vocational trainees, which has been successful in securing positions for 97 per cent of the trainees.

Internal changes in the operation of the bureau are the elimination of administration overhead expense, by closing 35 subsidiary offices; concentration of bureau supplies in three large central depots and inventory of all these supplies to eliminate further purchases; establishing of a record section in the supply division; consolidation of similar duties in central offices under one head; establishment of an inspection division, contemplated by the law, but never before established; the closing of contracts for institutions where settlements had not been effected and where the institutions were not being used. One of the principal achievements, declares Director Hines, is the placing of the bureau on a strict budget system.

SAVE VETERAN FROM ASYLUM

Ex-Service Man Sent to Hospital for Observation, Through Action of Auxiliary Official.

Carl Huff, a World war veteran of Alex. Okla., was moved from a mad-house because members of the American Legion auxiliary saw to it that he was sent to a hospital for observation rather than to be incarcerated in an asylum for the insane.

Huff was in overseas service for 18 months and returned broken in health. Continued brooding over the condition of a brother who had contracted tuberculosis in service, caused the man to become morbid and extremely nervous.

He was taken to Chickasha before a sanity commission, a judicial insane and lodged in the state asylum at Norman, to be accompanied by a deputy sheriff. When news reached the office of Mrs. Blanche Freeman, national executive committee member of the American Legion auxiliary, Mrs. Freeman, through the aid of county officials, was authorized to overtake the party and direct the officer and his charge to a hospital for observation and treatment. Huff is now receiving care due an ex-service man, and the Legion is fighting his claim for compensation through with the veterans' bureau.

ANXIOUS TO HELP COMRADES

American Legion Ever Ready to Lend Assistance to "Buddies" Needing Protection.

The hand of men of the American Legion is always outstretched to help a former comrade in necessity, according to the many reports reaching national headquarters of the organization. How a disabled man obtained money due him through co-operation of his Legion "buddies," was recently disclosed in a letter from Clearwater, Kansas.

Clarence English, gassed and wounded, was forced to go West to recuperate. A Wichita man owed English \$100 and the boy cashed a check he gave him, in payment of hospital expenses. But the check was returned and went to protest a second time. The debt was then called to the attention of a Legion post commander, who says to it that a delegation of Legionnaires called on the creditor and paid English in full. The former soldier, through his grateful mother, expressed appreciation of the Legion's effort in settling the matter.

Remarkable Is Right.
The commuters' smoking car was filled, mostly with proud young fathers, who had been relating interesting clever anecdotes of the clever remarks made by their offspring. Finally, Mr. Spoffington, seeing a hole in the conversation, burst in by saying: "I don't like to talk, but I honestly think that boy of mine is the most remarkable little fellow I ever saw." Everybody laughed.
"Yes," returned Mr. Spoffington. "He's an heir old son, as far as I'm concerned, in every sense a bright boy, a real little American Legion Whooey."

EDUCATION WEEK IN SCHOOLS

American Legion Will Have Generous Aid in Conducting Program Beginning November 18.

The observance of American Education week, a movement sponsored last year by the American Legion, which received whole-hearted co-operation from school, church and civic authorities, has again been designated, and will begin Sunday, November 18. At the time set, Legion posts throughout the country will unite in an effort from which practically every school child in the United States may profit. The slogan for the 1923 observance is, "Visit the Schools Today," and is aimed to enlist more interest in the institutions of learning on the part of the parents. Garland W. Powell, director of the National Americanism commission of the American Legion, has outlined a definite program for the movement, which is receiving indorsement of school authorities in every section of the country.

Each day of the week has been set aside for some particular consideration, according to the program offered by Mr. Powell. Beginning with Sunday, when pastors of all denominations will deliver sermons on the relationship of the church and the school, all phases and influences of school life will be touched. Monday, according to the program, is to be known as American Constitution day, when it is hoped that a concise idea of citizenship may be obtained by consideration of the instrument which made it possible. The observance of

Garland W. Powell.

This day is especially calculated to reach parents of the students. Patriotic customs and methods will form the basis of the next day's observance. This is to include flag etiquette and similar practices of a patriotic nature which the Legion has played an important part in formulating. The fourth day is to be of particular significance to schools and to the teachers. It is to be known as "School and Teacher day," and topics of training of instructors, adequate pay for teachers and bettered facilities for schools. "End-Of-the-week day" is the title suggested for Thursday. Formulation of plans to bring about study of reading and writing for both children and adults will be the aim for this day. One of the most vital features of the entire school program will be considered on Friday, when community development and its relationship to schools of the nation will be topics. On Saturday efforts will be given over to outlining a program for education of American youth along physical lines. Adequate playground facilities and general physical education will be urged.

Through efforts of the Legion and school authorities, who co-operated in the movement last year, many thousands visited the schools daily. The response to the observance was general, and the more ambitious program of 1923 is expected to bring about even a wider recognition of the possibilities of the Legion's program.

Support of the National Education association, state school authorities, and other educational leaders promise to make the Legion's education week of nation-wide import and benefit.

POST WILL CONDUCT SCHOOL

West Palm Beach (Fla.) Organization Is Financing Kindergarten; Extend Program in 1924.

The American Legion is performing a distinct public service in West Palm Beach, Fla., where the local post is financing and standing sponsor for a kindergarten. Seventy-five children will attend the Legion's school during the winter months.

The kindergarten is under supervision of the city school authorities, but could not have been opened except for the participation of some outside agency to furnish necessary funds. Realizing the necessity for the early training of the little folk, the Legion has taken steps to supply the need, and has employed two teachers. It is anticipated that a waiting list will be maintained in order to care for the demands of parents. If the work is successful, the Legion may extend its program in 1924.

LESSON FOR OCTOBER 21

ISRAEL IN THE MIDST OF THE NATIONS

LESSON TEXT—Josh. 1:1-4; Isa. 2:2-4; Isa. 19:23-25; Ezek. 5:5.
GOLDEN TEXT—"Look unto me and be ye saved, all the ends of the earth."
—Isa. 45:22.
PRIMARY TOPIC—The Beautiful Land of Israel.
JUNIOR TOPIC—The Land God Chose for His People.
INTERMEDIATE AND SENIOR TOPIC—Israel in the Midst of the Nations.
YOUNG PEOPLE AND ADULT TOPIC—The Strategic Position of Palestine.

1. Israel's Geographical Position (Josh. 1:1-4, cf. Ezek. 5:5).
Israel, God's chosen and most favored nation, the nation to whom He came nearest and gave most order that it might pass on His goodness to the other nations of the world, was given a most strategic position in the earth. "Palestine was adapted as no other country for God's great purpose of preparing a pure religion and sending it to all the world. To this end a single nation was selected, trained and placed in the center of the world, so that when the time came to publish the true religion all lands could be reached. Palestine was central and isolated, yet accessible, for when the time came for the apostles to go from Palestine by the Mediterranean sea to the lands round about it, and from there to other lands, their way was open."

2. Their Leader (Josh. 1:1). Joshua was Moses' assistant. He led the Israelites to victory over the Amalekites soon after their escape from Egypt. He was with Moses in the Mount when the law was given. He was one of the spies sent into the land of Canaan. When Moses knew that his time of departure was high he appointed Joshua his successor.

3. Condition of the Possession of the Land (v. 2). The land was theirs by God's promise, but it became theirs only as their feet advanced to take possession of it. Because of their lack of faith, courage and obedience they never enjoyed the full possession of it. Christians today lack the riches of the Heavenly Father's blessings because of their want of faith and courage.

4. Its Boundaries (v. 4). On the north it was bounded by the rugged mountains of Lebanon; on the east by the Euphrates river; on the south by the "great and terrible" desert, a barren region through which the children of Israel had wandered for forty years; and on the west by the Mediterranean sea. It included all of Mesopotamia. Israel's lack of faith prevented them from possessing fully this land.

5. Israel's Spiritual and National Position (Isa. 2:2-4; 19:23-25). This pictures the place of influence which shall be exercised by Israel in a future time.
1. When it shall be (v. 2)—"in the last days." By "last days" is usually meant in Scripture the times of the Messiah, for this is the primary subject of all prophecy.
2. What it shall be (v. 3). The restoration of the kingdom of Judah to the place of pre-eminence among the nations of the world. "Mountain" in Scripture symbolizes kingdom (see Dan. 2:35; Rev. 13:1, 17-11). This vision of Zion's glory refers to the millennial age, at which time other nations of the world will learn of the true God through the chosen nation.
3. The Result of (vv. 2-4). The return of God's favor to this chosen people shall be "life from the dead." To the nations of the earth (Rom. 11:15). (1) Nations shall flow into it (v. 2). This pictures the masses of the people moving toward Jerusalem like streams from all parts of the earth. (2) Nations encouraging each other (v. 3). All jealousies are now taken from nations, and with good will to each other they are moving to Jerusalem, the world's capital. They are going there to be taught of God the right ways to walk. They go to be instructed out of His holy Word. There is but one way to peace in the world, that is, back to God through His holy Scriptures. (3) Peace in the earth (v. 4). When Israel shall be in her God-appointed place with Jesus Christ as king, then war will be over. The implements of war will then be destroyed. (4) Friendly communication (Isa. 19:23-25). As soon as wickedness is taken from men's hearts they will establish means of friendly communication.

Gas From Wood Waste.
Utilizing wood waste for generating gas is claimed by a Swedish saw-mill operator to save 75 per cent of the fuel used when the chips and sawdust are burned directly under the boiler. Added to this economy is a large production of valuable by-products, including arbor, wood alcohol and tar.

A FEELING OF SECURITY

Poetic Interpretation.
Poetry interprets in two ways: It interprets by expressing with magnetic fertility the physiognomy and movement of the outer world, and it interprets by expressing, with inspired conviction, the ideas and laws of the inward world of man's moral and spiritual nature. In other words, poetry is interpretive both by having natural magic in it, and by having moral profundity.—Matthew Arnold.

Cuticura Soothes Itching Scalp.
