The World's Largest Producer of Quality Automobiles

TOURING CAR
\$1750
f. o. b. factory

THE Big-Six Touring is a seven-passenger car—not merely a seven-passenger body mounted on a five-passenger chassis.

It was designed and built for seven-passenger service—with a motor of ample power and stamina for seven-passenger satisfaction.

Then, too, with the auxiliary seats folded away, the Big-Six becomes the most desirable five-passenger car in which you have ridden, with room enough for all the luggage you will ever need.

Big-Six appearance is attractive, distinctive, and in good taste. Its performance, acceleration, flexibility and

dependability are known and respected the world over.

No car, regardless of price, surpasses it in quality or completeness of equipment.

If a smaller manufacturer or assembler were to build the Big-Six—of equal quality and workmanship—his price would be \$3,500—perhaps more.

But Big-Six overhead is distributed over six times as many units as are built by any Big-Six competitor, hence Big-Six cost and selling price are surprisingly low.

Don't buy blindfolded. Examine, ride in and drive the Big-Six before you buy any other car.
