THE GLAND THAT CAUSES MEN TO GET UP AT NIGHT

The gland that causes getting up at night is known as the prostate and is a notorious trouble maker. It is estimated that 65 out of every 100 men past 40, and many under that age, have prostate trouble, which, if unchecked, often leads to a serious operation. The prostate surrounds the neck of the bladder like a washer. Naturally, when the bladder becomes inflamed by poisons which the kidneys filter out of the blood, the irritation spreads to the prostate. As the gland swells, it closes the neck of the bladder, making urination difficult and painful and causing pains in the back, head and legs.

An easy way to treat these annoying and dangerous conditions is to take one or two renex pills after each meal. The renex formula has been victorious in thousands of such cases. Severe Pains in Side

"I HAD had quite a bad spell and sickness," writes Mrs. Emma Patrick, of Caney, Ky., "and it was an effort for me to go about my home. I had a very severe pain in my left side that almost took my breath at times. I lost my appetite. I grew thin, pale and lifeless. I fell off till I only weighed about 115 pounds. Pain, in certain parts of the body, is a sure indication of female complications. The treatment needed is not the use of narcotic drugs, but—"

Weakening Night Coughing Banished Very Simple Way

It is really astonishing how a persistent, exasperating cough that has kept you awake night after night, and is rapidly wearing you down is usually stopped short by a very simple method. Hundreds have found that they can sleep the whole night through undisturbed often the first time they try it.

The method is based on a remarkable prescription known as Dr. King's New Discovery for Coughs. You simply take a teaspoonful at night before retiring and hold it in your throat for 15 or 20 seconds before swallowing, with-out following with water. The prescription has a double action. It not only soothes and heals soreness and irritation, but it quickly loosens and removes the phlegm and congestion which are the direct cause of the coughing. Getting at the cause like this, in a perfectly simple way, it stops the spasm almost instantly, you get your best night's rest perhaps in weeks, and in a very short time the whole cough condition is gone.

This simple treatment is splendid not only for coughs and chest colds, but also for bronchitis, bronchial asthma, hoarseness and almost every kind of throat irritation, including children's spasmodic croup. Very economical too, as the dose is only one teaspoonful. On sale at all good druggists. Ask for
