Mothers, Do This—
When the Children Cough, Rub Musterole on Throats and Chests

No telling how soon the symptoms may develop into croup, or worse. And then when you're glad you have a jar of Musterole at hand to give prompt relief. It does not blister.

As first aid, Musterole is excellent. Thousands of mothers know it. You should keep a jar ready for instant use. It is the remedy for adults, too. Relieves sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of back or joints, sprains, sore muscles, chilblains, frost-bites and colds of the chest (it may prevent pneumonia).

To Mothers: Musterole is also made in milder form for babies and small children. Ask for Children's Musterole.

35c and 65c, jars and tubes.

Better than a mustard plaster

Kicking against fate doesn't help any in the great moral uplift.

DEMAND "BAYER" ASPIRIN

Aspirin Marked with "Bayer Cross" Has Been Proved Safe by Millions.

Warning! Unless you see the name "Bayer" on package or on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians for 23 years. Say "Bayer" when you buy Aspirin. Imitations may prove dangerous.—Adv.

He who distinguishes well learns well.

DO YOU KNOW

That one-quarter teaspoon of Calumet Baking Powder sifted thoroughly with the flour in making pastry helps produce a fluffy, flaky crust?

Grace finds people who otherwise never would have found grace.

"CASCARETS" FOR LIVER AND BOWELS—10c A BOX

Don't Stay Dizzy, Bilious, Headachy, Sick or Constipated.

Feel fine! Let "Cascarets" clean your bowels and stimulate your liver. No griping or overacting. Millions of men, women, and children take this harmless laxative-cathartic. It doesn't sicken you like pills, oils, calomel and salts. Tastes nice—acts wonderful. Sold at drug stores.

Some girls require a lot of ready cash in order to succeed in the business of looking for a husband.

Well-Merited Success

Honored politically and professionally. Dr. R. V. Pierce, whose picture appears here, made a success few have equalled. His pure herbal remedies which have stood the test for fifty years are still among the "best sellers." Dr. Pierce's Golden Medical Discovery is a blood medicine and stomach alterative. It clears the skin, beautifies it, increases the blood supply and the circulation, and pimples and eruptions vanish quickly. This Discovery of Doctor Pierce's puts you in fine condition, with all the organs active. All dealers have it. Send 10 cents for trial pkg. of tablets to Dr. Pierce, Buffalo, N. Y.

MEN-WOMEN-AGENTS

I will establish you in permanent business selling complete line reliable household remedies and toilet goods—known and used all over the world. TREMENDOUS PROFITS. Only small capital needed to start. All experience needed is that you be wide-awake and enthusiastic. I show you how! Write me today. Established 24 years.

H. P. CLEARWATER
Sales Dept., 1291-B, Water St., Lowell, Ma.

DIES WITH MONEY ON PERSON IN 18 PLACES.

Goldsboro.—Miss Martha Creech, 72 years of age, was found dead in her bed at the home of Mr. J. V. Howell, 307 St. Claire street, where she had been employed for two years. Money was found on her person in eighteen different places, a twenty dollar gold piece in one, 158 one-dollar bills in another, six two-dollar bills in another, 25 five-dollar bills in another, 9 ten-dollar bills in another and 3 twenty-dollar bills in another.

The money was sewed securely in different parts of a garment which she had worn night and day and the total sum found was \$442.

SAND CAVE UNNERVED BEST

WITNESS ASSERTS ALL CAME OUT LIMP AND EXHAUSTED.

Cave City, Ky.—"There was something in Sand Cave that unnerved the best men and all of them were absolutely exhausted when they came out," Wm. Hanson, town marshal, testified before the military court of inquiry at the opening of the session here. He told of early unorganized efforts of volunteers to rescue Floyd Collins, entombed in the cave since January 30.

"Johnnie Gerald, a young man known to have a good nerve and a good reputation, volunteered," he said, "to go into the cave if he would be allowed to pick a crew whom he could trust not to pull out loose rock and make the opening more dangerous. He went into the cave and came out a complete wreck.

"Burdon, of the Louisville fire department, did the same thing. There was something that unnerved the best men and all of them were absolutely exhausted when they came out."

Asked by Captain Alex M. Chaney if there had been any disorder before or after the troops arrived, Hanson replied that there had been some disorder but since the arrival of soldiers everything had been orderly.

He said he considered the shaft the only way the rescue might be effected and that the work was in competent hands.

Samuel H. Matlack of Louisville, was recalled to the stand because a telegram had been received from The Louisville Herald stating that complaint had been made that Matlack had not received proper consideration in his examination by the court.

Matlack said he had made com-

Typhoid Oysters Traced to N. Y. Plant.

Washington.—Investigation of the recent "excessive prevalence" of typhoid fever in New York, Chicago, Washington and several other cities has led the Public Health Service to conclude that the disease was caused by shell oysters distributed by a company operating within the vicinity of West Sayville, N. Y.

"The preponderance of evidence is that the general supply of no large distributor of oysters was uniformly affected," said a public health statement, "but that oysters infected in one or more beds or part or parts of one or more beds or at one or more floats, and constituting but a small proportion of the total were introduced into and distributed with a large supply of oysters of good sanitary quality."

The period of excess prevalence of typhoid was said to have been between October 25 and December 20, 1924, and there was no reason to believe that oysters distributed since December 20 by the company near West Sayville or any other large distributor, "have been any more of a factor in the spread of typhoid infection than such oysters were in any corresponding period within the last several years.

Edward T. Knott Commits Suicide.

Washington, N. C.—Edward T. Knott, prominent tobaccoist here and for the past two seasons proprietor of Knott's tobacco warehouse, committed suicide at his home by shooting himself in the head with a revolver. Death ensued shortly afterward.

Mr. Knott was about thirty-five years old and had been a resident here for the past seven years engaging in the tobacco business. Several years ago he married Miss Maria Myers of this city.

No cause has so far been assigned for his act only that he had not been feeling well for the past week or two. He was last seen driving his car into his garage and then entering his home. He was one of the most popular warehousemen on the Washington tobacco market, his warehouse last season leading the market. He was a member of the local Rotary club. His sudden and untimely end was shocking to the entire city.

Bullet Squeezed From Heart: Lives.

Chicago.—Although your heart stops functioning, you may still live!

At least this is true in the case of Max Peck. Surgeons at the County Hospital here cut open his chest, took his heart in their hands, used pressure enough to force a home-made bullet from the organ, stopped its beating for a few moments and then restored it to its place.

Peck may recover and once again be just as sound as though he had never attempted to commit suicide.

Earl Holt Returns to Home.

Danville, Va.—Earl Holt, who a few days ago was found in Fremont, Neb., after being missing from his home at Draper, N. C., for several weeks, returned to his home with his brother, C. E. Holt.

A telephone message from the authorities of that place said that Holt still is suffering from a form of aberration and that he did not recognize members of his family. He will remain at home resting in the hope that proper food and rest will restore him, it was said.

Operation For Cancer.

Peking.—Dr. Sun Yat-Sen, south China leader, remained critically ill after an operation on January 26, for cancer. His circulation was weaker, his pulse registered 120 and his temperature was normal, a report from his hospital said.

Wheat Takes Spurt.

Chicago.—Going up as much as 7 cents, May wheat touched as high as 1.84 1-2 a bushel here. Wednesday's close was 1.77 1-2. The rise, which accompanied an excited opening, was largely in sympathy with advances at Liverpool and Buenos Aires and because of a revival of export demand.

Rear Admiral Hawley Retired.

Washington.—Rear Admiral John Mitchell Hawley, retired, died here, aged 79. He was a native of Massachusetts and had served in many important commands extending from the war between the states period. He commanded the U. S. S. Brooklyn when that vessel brought the body of John Paul Jones to this country for entombment at Annapolis.

Born in Northampton in 1846, Admiral Hawley graduated from the naval academy in 1868. He retired in 1907.

THIRTY MILLION NEEDED BY NAVY

THIS AMOUNT IS NECESSARY FOR CONSTRUCTION PURPOSES.

Washington.—Budget proposals to carry out naval construction and other work already authorized by Congress were presented to the house by Director Lord, of the budget bureau, the request totalling \$30,000,000 of which \$1,000,000 would be made available at once for work on the battleship Florida.

Work on the Florida already is in progress at the Boston navy yard and can be completed with the \$1,000,000 carried in the new budget proposals. It will not be ready for service with the fleet until part of the pending work is finished.

A provision of \$2,000,000 is included in the budget proposal for the laying down after July 1 of the first two of the eight 10,000 ton post-treaty cruisers already authorized, and a like amount is asked for beginning construction work on six new gun boats needed chiefly in Chinese waters.

The new cruisers will cost approximately \$16,500,000 when completed, and the navy general board has stated that 22 of these would be required to replace the cruiser strength of the American fleet on the basis of equality contemplated by the Washington naval limitation treaty for the battleship tonnage strength of the American and British navies.

In addition to the provision for construction of cruisers and gunboats the budget request calls for \$14,000,000 to complete the naval aircraft carriers Saratoga and Lexington, in process of conversion from battle cruisers, and \$3,000,000 for procurement of additional naval aircraft.

Included in the \$30,000,000 request also is a \$9,000,000 item for changes and repairs on six of the older battleships, including addition of deck armor, alteration to oil burners from coal burning craft, addition of "blister" underwater protection and other improvements permissible under the terms of the Washington treaty.

The budget as presented to Congress was approved by President Coolidge after he had been given an opportunity to examine in detail the report of the navy general board on the study it made at his request of the relative values of aircraft, battleships and submarines as naval weapons. The report still is in the President's hands, but is expected to be made public next week and add fuel to the aircraft controversy now being waged before congressional committees.

Today's request for a considerable appropriation to carry out the projected work on old battleships is construed as confirming the expectation that it will show the conclusion that nothing as yet known warrants abandonment of a naval defense policy based on the battleship as the essential unit of sea warfare, although the board also is expected to urge the value of naval aircraft as essential to auxiliaries of the fighting fleet.

Rights Not Restored.

Austin, Texas.—The Amnesty bill restoring political rights to James E. Ferguson, former governor, passed last week by the state senate, was held unconstitutional in an opinion announced by Attorney General Dan Moody. The opinion was prepared at the request of the house of representatives.

Embezzlement Charged.

West Palm Beach, Fla. O. T. Hill, sergeant of police for the Southern Railway, Valdosta, Ga., left here with O. S. Dukes to return him to Macon, Ga., where Dukes is charged in a warrant for his arrest of having embezzled \$40,000. Dukes was arrested here and held for the Bibb county, Georgia, authorities. He waived extradition.

Operation For Cancer.

Peking.—Dr. Sun Yat-Sen, south China leader, remained critically ill after an operation on January 26, for cancer. His circulation was weaker, his pulse registered 120 and his temperature was normal, a report from his hospital said.

Brooklyn when that vessel brought the body of John Paul Jones to this country for entombment at Annapolis.

Born in Northampton in 1846, Admiral Hawley graduated from the naval academy in 1868. He retired in 1907.

GIRL IN NEWTON DIES IN CRASH.

Newton, N. C.—Miss Evelyn Rowe, 16-year-old daughter of Mr. and Mrs. C. M. Rowe, was instantly killed and Miss Mildred Phillips, daughter of Mayor L. H. Phillips, was seriously injured in an automobile wreck in this city. The young women were riding on the running board of a Ford roadster, driven by Paul Yount, when the car was sideswiped by a Hudson driven by Robert Michael. Michael and Wilfrong Trot, who was also in the Hudson were arrested and placed in jail. Solicitor Huffman, after examining several witnesses in his office in the courthouse, declined bail to the parties arrested. Witnesses said the car driven by Michael was running at a terrific rate of speed. Both cars were demolished.

POSTAL BILL PASSES HOUSE

NEW MEASURE APPROVED WITHOUT OPPOSITION; REVENUES LARGER.

Washington.—Without a record vote, the house passed the Kelly postal pay and rate increase bill and sent it to the senate, which already has passed a somewhat similar measure only to have it turned back by the house as infringing on its exclusive prerogative to originate revenue producing legislation.

Brought up under a special rule which limited debate to less than two hours, barred amendments from the floor and required two-thirds majority for passage, the measure was approved in about two hours. It would raise \$61,000,000 in revenue—about twice as much as the senate bill—and fall short only \$7,000,000 of the sum estimated to be required to meet postal employees salary raises.

Only a few scattered "notes" opposed its passage although 97 members had voted against the method of bringing it up while 245 favored it. As in the bill passed by the senate, the rate section is intended to remain in force only long enough for Congress to act on recommendations to be made by a joint congressional committee which is authorized to study the whole postal rate structure with a view to permanent revision.

Representative Moore, republican, Ohio, who reported the bill, emphasized that the right of full distribution for newspapers and publications in the countries in which they are printed and published is not disturbed by this bill.

Elisha Hanson, Washington representative of the American Newspaper Publishers' association, in a statement reiterated the contention that there was "no sound reason for the present paying users of the mails to be called upon to pay the increased postage provided by the bill which passed the house, unless it be the intention of the administration to make the postoffice department pay a profit on its services to the public."

Reports of the department on the business had during the seven months of the current fiscal year, which have elapsed since July 1, last, he argued, "indicate that there would be for this year a net income revenues of more than \$35,000,000 over the previous year's business. As the department had a deficit of less than \$15,000,000 last year, these reports indicate a profit on this year's operations of more than \$20,000,000."

Pullman Surtax to Be Opposed.

Washington.—Reputation by Congress of recommendation by the interstate commerce commission for retention of the Pullman surcharge was urged in the senate by Senator Smith, democrat, South Carolina, chairman of the interstate commerce committee.

Senator Smith also asked the senate to order the commissioner's recommendation set aside through an amendment to be attached to some pending bill.

This course, he said, would get the question into conference with the house without the necessity of waiting on that chamber to act on a bill-ordering elimination of the surcharge which the senate passed at the last session.

Senator Smith described the fifty per cent surcharge as "unusual and, in my opinion, unlawful," and asserted that the report of the interstate commerce commission upholding the rate was "unfair and unjust to the layman."

"The report tried to make out," he continued, "that the handling of Pullman cars was more expensive to the railroad than ordinary cars. As a matter of fact, railroads are relieved of the expense of upkeep of Pullman cars by the Pullman company."

FEAR 230 DEAD IN GERMAN MINE

MANY ARE KILLED OUTRIGHT IN TERRIFIC EXPLOSION; MANY PERISH IN GAS.

Dortmund.—A terrific explosion of fire damp, which occurred in the Steim mine here accused one of the greatest disasters in the history of German mining. The number of dead gradually has mounted, until now it is feared the total deaths will reach the neighborhood of 230.

Very few of the miners engaged in the workings escaped. Many were killed outright, but the majority are believed to have died from poisonous gases. The cages have been ascending and descending unceasingly throughout the day, bringing the bodies to the surface, and most distressing scenes are being enacted around the pithead.

Expert rescuers have been rushed to Dortmund from all over the country.

Urges Federal Marketing Body.

Washington.—Creation of the federal co-operative marketing board, one of the principal recommendations of the President's agricultural conference, was proposed in the senate by Senator Capper, republican, Kansas, while the senate and house agriculture committees both continued examination of members of the conference with a view to proposing other legislation to carry out its findings.

The Capper bill followed exactly the terms of the measure offered in the house by Representative Haugen, republican, Iowa, chairman of the agriculture committee of that chamber, which has the approval, in principle, of Chairman Carey, of the President's conference. The message was sent, in the usual course, to the senate agriculture committee, which plans to continue its hearings this week and begin formulation of a program next week.

The members of the President's conference appearing before both the senate and house and committees continued to stress the importance of broadening the field of co-operative associations. On the house side, Louis J. Taber asserted that, except for the livestock industry, the post-war emergency had passed, and explained that the conference commendations were worked out as permanent relief measures which would become effective in three to five years.

Woman, Three Babies Are Killed.

Pasadena, N. J.—Mrs. Louis Sander and three children were found dead of gas poisoning in bed by her husband when he returned from work. The eldest child was eight years old. Gas was flowing from jets in the kitchen and the living room. The police expressed the opinion that the deaths were not accidental. The police were informed that Mrs. Sander had quarreled with a neighbor.

Virginia Valley Flooded.

Harrisonburg, Va.—All streams in this section of the Shenandoah valley were out of their banks as the result of heavy rains and melting snows during the past few days. Many highways have been made impassable by high waters and some roads are thought to have been considerably damaged.

Attaches Kills Self.

Chicago.—Two weeks after he had been reconciled with his estranged wife, Vaclav Kosner, secretary to Dr. Jaroslav Smetanka, Czechoslovakian consul, killed himself with a pistol he carried through the world war as a liaison officer in the French army. He had been attached to the consulate for five years.

Dry Goods Men Choose Head.

New York.—Herbert J. Tily, of Philadelphia, was elected president of the national Retail Dry Goods association at the fourteenth annual convention held here this week it was announced at the annual banquet.

Explosion Destroys Tenement.

Barre, Vt.—A mysterious explosion demolished a three-story tenement house here. Four persons taken from the ruins were hurried to a hospital. Fire followed the explosion and firemen instituted a hasty search for other possible movement.

Aged W. Va. Geologist Weds.

Morgantown, W. Va.—Dr. I. C. White, 78 years state geologist of West Virginia, and one of the oldest living graduates of West Virginia university, was married here to Mrs. Julia Wildman. The marriage license gave Dr. White's age as 76 and that of the bride 28.

Fliers Reported Lost Land.

Baltimore.—Lieut. William R. Payant and Sergt. E. W. Tweed, Maryland National Guard, reported lost by Logan field officials, when they failed to return home after ascending in an attempt to break the state airplane altitude record of 12,500 feet, landed their plane safely in Hershey, Pa., they wired local officials. Fear for the safety of the men was felt when they failed to return to the field before midnight. A dense fog, has shrouded the city and surrounding territory for the last several days.

YOUR BAKING comes out RIGHT with

DAVIS BAKING POWDER

Cabbage Plants

"Frostproof." All leading varieties, 1,000 to 4,000 at \$1.25 per 1,000; 5,000 and over at \$1.00 per 1,000. Pay postage or express charges on arrival.
