Your correspondent could listen by the hour to his mimicry He also writes a readable and newsy letter. A word of advice to him from a friend: Don't mar and disfigure your letters by using the sacreligious language of a socalled old woman. It is a great pity and a shame that the "Prince of Life and Lord of Glory" should be spoken of in that way. Those who make no profession of religion said they were surprised that Mr. R. W. D. Our town council has had a great deal of good work done on the streets of Denmark, for which they deserve commendation. Capt. J. B. Guess, chairman of the committee on streets, has taken decided interest in this good work. Recently the street force has been decreased, and the plan is to bore a fine artesian well. We will take off our hat to the "city fathers" whenever that is accomplished. Go ahead, gentlemen of the council; the whole town will back you in this good work.

Patience With Eccentricity. Many of the leading people in English society regarded Thomas Carlyle with a feeling almost akin to reverent delight when he chose to behave like an ignorant boor in their drawing rooms, even taking his seat, it is said, unbidden in the presence of the queen. This generation, however, has little patience with such eccentricities.

It was an English bishop who, when the historian Freeman had worn out his patience with his rudeness, introduced him to a waiting audience as "the distinguished scholar that so admirably describes and illustrates the savagery of our ancestors."
