Orangeburg vs. Bamberg.

Though it rained most of the day there was a large and enthusiastic crowd to witness the game of ball played here between the local team and that of Orangeburg on Thursday last. A more exciting game has not been seen here for many years, inasmuch as they were in much better practice than the home team, having, it is understood, won several games this season.

Things began to look blue for the locals when in the first inning the visitors pushed three men across the rubber, but in the opening of the second the home team caught the spirit and secured three runs, thus leveling the score.

Bamberg scored another in the third, the visitors failing in this. Neither side scored in the fourth, while the Orangeburgers piled up three runs in the fifth, making the score 6 to 0.

After this the visitors failed to cross the coveted spot, but the home team chalked up three more runs in the sixth and still another in the ninth, thus winning for Bamberg one of the most hotly contested games that has been played here in several seasons.

The features of the game were: for Bamberg, F. Dukes' two running catches and H. Bamberg's work behind the bat. For Orangeburg, Jefford's batting, Sorentru's good steady pitching, and Glaze's pretty work at first base.

There was one most pleasant feature that is well worth noting, that is the absence of kicking. The Orangeburg team is composed of gentlemanly young fellows, and made a good impression here.

The following is the line-up and batting order of the teams:

Table with 2 columns: Team (BAMBERG, ORANGEBURG) and Player Name. Includes names like Webber, Glaze, Fairy, etc.

Wofford College Notes.

WOPFORD COLLEGE, SPARTANBURG, May 9.—Last week witnessed Spartanburg's week of gaiety. The great annual Music Festival was the means of drawing many visitors to the city. The Wofford boys had their share of the fun and all were sorry when the week had passed.

The faculty granted a holiday to the students on Friday that they might have a rest from their work, and take part in the Festival. The base ball team of the college furnished entertainment during the afternoons of last Wednesday, Thursday and Friday.

Go West, Go West, in defeat, after having put up a very pretty game. Thursday Wofford defeated Charleston College 8 to 6. On Friday Clemson came off victorious, winning by skillful playing and good body work. The result was ten to four. These games, together with the entertainments at Converse College, made the Festival week pass off very pleasantly.

The primary college boys succeeded in "rubbing it into" the Wofford team on last Wednesday by piling up eight runs while the home team could only push four men across the rubber. For Trinity's pitcher did the work for his side in the fielding game put up by Wofford out shone by far that of the winning team.

The Wofford team leaves on Monday for Clemson, from there for Spartanburg and Knoxville via Atlanta. The games on this trip will be played in the following order: Monday, Clemson College at the Clemson; Wednesday, University of the South at Seawater; Friday, University of Georgia at Athens; Saturday, University of Tennessee at Knoxville. The team will come back by Asheville and get to Spartanburg on the night of Monday, the 18th. Those who will take the trip have a great treat in store for them besides the joy of the victory, a California chance to see some of the most beautiful parts of the South. After this trip the ball season will probably be at an end and the team will disband on their return home.

Great interest is being manifested in tennis now, as the ball season draws to a close. The contests for the Moore trophy cup will come off in a few weeks, and there are many who desire to have the honor of holding the cup during the next year.

At a meeting of the Preston Society on last Saturday night the following officers were elected: President, W. C. Herbert; vice president, E. K. Hays; secretary, Ernest L. Smith; treasurer, T. L. Cely; secretary, A. D. Betts; corresponding secretary, J. R. Lyles; treasurer, L. A. Duncan; 1st censor, M. K. Meadows; 2nd censor, R. Webster.

The election of an anniversary and editor of the Journal from the Preston Society resulted in the election of the following men: Anniversary, E. K. Hardin, Jr.; alternate, C. L. Smith; literary editor, Ernest L. Smith; 1st editor, E. F. McWhirter. The other officers of the Journal will be elected from the Calhoun Society on next Saturday night.

Work has begun on the Cleveland science hall. The foundation is being laid, and the indications are that the building will be ready for occupation by the first of September.

When college reopens in September, there were many old students who visited friends on the campus last week and enjoyed the festivities of the Music Festival.

Mrs. E. M. Erwin and Miss E. L. Sams made a trip to Allendale one day last week.

An Appeal in Behalf of the Militia.

"Breathes there a man with soul so dead, Who never to himself hath said, 'This is my own, my native land?'"

Well may the youth of our day and time, who are so generally held in trust the well-being of our country, read the foregoing lines and reflect upon their meaning. How many times, young man, have you thought seriously of the meaning with which these words are so pregnant?

Learned men tell us that there will be a great crisis in the near future; how shall we be prepared to receive this? With folded arms and drooping head, and with our hands idly by and suffer our homes to be overrun by brutes, as they were in the seventies? If this is not to be, then let us awake to-day and prepare ourselves for the inevitable!

How many true Southern lads are there who can listen to the stories of privation, shame, brutal treatment and unbearable outrages that came with the negro rule in blood and a desire to avenge these wrongs, especially when told by those whose actual experiences they were. Let me say right here that there is one way to be prepared for what must surely come, and that is organization and unity of purpose. The efficiency of a well-organized and disciplined few has been demonstrated time after time in sections where there is more thought and attention on the part of the militia, especially throughout the Northern States. Go back if you will to all the strikes and labor uprisings in the coal districts of Pennsylvania and see how rapidly they were put down by the militia, simply because they were organized and disciplined.

Sad it is indeed to see what little weight the militia of our State carries in the minds of the majority of its citizens, and more deplorable still is the fact that many of our young men seem to have their oaths to 'faithfully serve the State of South Carolina and the United States against all their enemies.'

In conclusion, allow me to say that whatever may be the exact condition of affairs, let each and every one of us strive to remember that we have a charge to keep and strive to make the militia of South Carolina really 'the right arm of the law.'

BUDS AND FLOWERS OF HOME LIFE.

Paine's Celery Compound Makes and Keeps the Children Well and Strong.

Mothers Make It the Home Medicine For the Little Ones.

The children, God bless them, are the buds and flowers of our homes. Without their prattle and hearty laughter, our homes would be desolate. They should ever be carefully tended in childhood and youth, if we expect them to ripen into perfect men and women.

In the home and at school, the children have their times of ill health and suffering. We often note the pallid and bloodless cheeks, heavy eyes, nervous movements, and twitches of limbs and muscles. They complain of headache, drowsiness, weariness, dyspepsia, and indigestion. All such symptoms and ailments mean that the seeds of disease will have a fast and firm hold, unless proper measures are taken to restore a perfect condition of health.

Thousands of wise and prudent parents have made their children happy, healthy, and vigorous by giving them nature's medicine, Paine's Celery Compound. In many severe and complicated cases, Paine's Celery Compound has restored health when the little ones were given up by physicians.

If your dear ones are not as hearty, strong, and rugged as they should be, try the health giving virtues of Paine's Celery Compound. It makes and keeps the children well.
