It is now known that the negotiations which have terminated so successfully, so far as broad lines are concerned for only details remain to be adjusted, were practically brought to their present phase by Secretary Hay and Count Cassini, at a meeting at the Russian embassy on June 28, the day the secretary departed for Newport, for the ambassador then had in hand the necessary authorization from his own government to make the pledges which are now in process of redemption. These pledges were reduced to writing by Mr. Hansen, the Russian charge, during his call at the state department Tuesday.
