

UP TO RAILROADS

One Umpire is Offered for All Arbitrations in Georgia.

SUGGESTS JUDGE MILLER

Commissioner Stevens Says Roads Must Accept Proposition or Let Governor Smith Name Two State Arbitrators.

"I offer you Judge A. L. Miller of Macon as umpire in the case of the tax returns of all the steam railroads which have not accepted the comptroller general's assessments. You may accept him or let the matter go up to Governor Smith for the appointment of two arbitrators to represent the state."

Such, in substance, was the proposition put by Georgia Railroad Commissioner O. B. Stevens, appointed to represent the state, to the arbitrators for the three largest railroad systems in the state at their conference held on Thursday in the office of the railroad commission in Atlanta.

There was a howl in camp, of course, but Commissioner Stevens was determined in his purpose, and the railroad arbitrators, after a discussion pro and con, in the course of which they found they were unable to shake the state's representative, retired to think it over and determine in the course of the next two or three weeks just what they will do about it.

Commissioner Stevens told them if they would offer any reasonable and valid reason as to why Judge Miller should not serve in that capacity, he would endeavor to select another man; but, until some good reason was shown he insisted on his original proposition and said he proposed to stand by it.

The three railroad arbitrators who met Commissioner Stevens were Judge S. B. Adams of Savannah, representing the Atlantic Coast Line; Hon. Roland Ellis of Macon, representing the Southern railway, and Hon. Alex W. Smith of Atlanta for the Central of Georgia.

The Seaboard Air Line and the Atlanta and West Point tax assessments are also to be arbitrated, and when they come up to Commissioner Stevens he will also offer Judge Miller as umpire, it being his determination, for the sake of uniformity as near as it is possible to get it, to have the same umpire in all cases. All other steam railroads to be arbitrated, therefore, may count on the same proposition as was made in the foregoing cases.

Commissioner Stevens reached the conclusion to take this position several days ago. First and foremost, it was his desire to have a board whose conclusions would be nearly as possible equalize the values of the various railroad properties of the state. In order to do this, it is necessary to have practically the same board in all cases.

In the next place, it was his determination to select a man who represented the very essence of the Macon platform, and who, he believed, would carry out the wishes of the people as therein expressed. That Judge Miller, who was chairman of the Macon convention and chairman of the state democratic committee, is such a man, there can be no possible question or doubt.

Again, it is well known that an effort has been made to bring about a change in the method of appointing arbitrators, and to have a new law enacted at once, as rumor had it, with the avowed purpose of dispensing with the services of Commissioner Stevens in this connection. The bill in question, which was introduced by Mr. Alexander, of DeKalb, was unfavorably reported by the committee to which it was referred, and thus practically killed.

COLORED KNIGHTS OF PYTHIAS.

Denied Charter in State by Georgia Supreme Court.

The Georgia state supreme court, in a decision handed down Friday, held that the negro Knights of Pythias should not be allowed to secure a charter from the state.

The Georgia Knights of Pythias, although they have no charter from the state, allege that the efforts of the negroes to secure a charter was an infringement upon their name.

"FLARE BACK" CAUSED HORROR.

Board Reports Regarding Powder Explosion on Battleship Georgia.

The naval court of inquiry in the case of the explosion on the battleship Georgia, finds that the accident resulted from a "flare back" meaning that the breach of the eight-inch gun was thrown open after it had been discharged, some shreds of burning cloth or unconsumed gas was driven upon the powder about to be inserted for the next charge.

CAUTION.

AWFUL EFFECT OF ECZEMA.

Covered With Yellow Sores—Grew Worse—Parents Discouraged—Cuticura Drove Sores Away.

"Our little girl, one year and a half old, was taken with eczema and that was what the doctor said it was. We took her to three doctors, but by this time she was nothing but a yellow, greenish sore. One morning we discovered a little yellow pimple on one of her eyes. Doctor no. 3 said that we had better take her to some eye specialist, since it was an ulcer. So we went to Oswego to doctor No. 4, and he said the eyesight was gone. We were nearly discouraged, but I thought we would try the Cuticura Treatment, so I purchased a set of Cuticura Remedies, which cost me \$1, and in three days our daughter, who had been sick about eight months, showed great improvement, and in one week all sores had disappeared. Of course it could not restore the eyesight, but if we had used Cuticura in time, we are confident it would have saved the eye. Mrs. Frank Abbott, R. F. D. No. 9, Fulton, Oswego Co., N. Y., August 17, 1906."

Men enjoy doing anything they don't have to do for a living.

Children's Eyes

Get watery, sore and inflamed. Leonardi's Golden Eye Lotion cures them without pain in one day. It strengthens weak, overworked eyes. Cooling, healing, invigorating. Insist on having "Leonardi's." It makes strong eyes. Guaranteed or money refunded. Druggists sell it at 25c. or forward prepaid on receipt of price by S. B. Leonardi & Co., Tampa, Fla.

Wise men miss a lot of real pleasure because they are not foolish.

Include six cans of Argo Red Salmon in your next grocery list. It will keep for twenty years.

Men enjoy farming — if they have enough money to hire it done.

A FRANK STATEMENT.

From a Prominent Fraternal Man of Rolla, Missouri.

Justice of the Peace A. M. Light, of Rolla, Mo., Major, Uniformed Rank, Knights of Pythias, Third Battalion, Second Regiment, Missouri Brigade, says: "I am pleased to endorse the use of Doan's Kidney Pills, a medicine of great merit. Having had personal experience with many kidney medicines, I am in a position to know whereof I speak and am pleased to add my endorsement and to recommend their use."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

If you want a woman to do a certain thing, get her to say she won't.

The milk pail is kept free from staleness, sliminess and stickiness if it is washed with borax and water in the following proportions—one tablespoonful to a quart of water.

A Home-Loving Bird.

Direct evidence of the return of the same individual bird of a migrating species to a particular spot season after season is not easily obtainable, but Mr. N. C. Beers believes that he has such evidence concerning a chipping sparrow at Lakewood, New Jersey. A few years ago he heard a little bird concealed in the top of a maple uttering a peculiar song which he could not recognize. The next season he heard the same peculiar song in the tree but a few yards from the original point. This time he identified the bird, which seemed to have a song of its own. The third year he did not visit Lakewood at the proper season to meet his little friend, but the fourth year he heard and saw it again near the same spot. It appeared always to make its summer home in the trees on an area not more than two acres in extent.

Mall for a Grave.

"I had a queer job yesterday," said a letter carrier, as he warned his cold blue hands. "I delivered a wreath to a grave."

"It was a small wreath of immortelles in a pasteboard box. The address was Grave of James Love, Woodlawn Cemetery, First Lot to Right of Smith Monument."

"Thousands of times I had passed that cemetery on my rounds, but I never thought to make a delivery to one of the tombs.

"Going in, I found the Love grave easily. I brushed the snow off the mound with my bag, and taking the wreath from its box, I laid it on the bright green grass.

"I consider that the strangest experience of my fourteen years' service."—Minneapolis Journal.

WOMEN WHO CHARM

Health Is the First Essential Toward Making a Woman Attractive.

MISS HULDA KUGHLER

MISS ELIZABETH WYNN

There is a beauty and attractiveness in health which is far greater than mere regularity of feature.

A sickly, irritable, and complaining woman always carries a cloud of depression with her; she is not only unhappy herself but is a damper to all joy and happiness when with her family and friends.

It is the bright, healthy, vivacious woman who always charms and carries sunshine wherever she goes.

If a woman finds that her energies are flagging and that everything tires her; if her feminine system fails to perform its allotted duties, there is nervousness, sleeplessness, faintness, backache, headache, bearing-down pains, and irregularities, causing constant misery and melancholia, she should remember that Lydia E. Pinkham's Vegetable Compound will dispel all these troubles. By correcting the cause of the trouble it cures where other treatment may have failed.

Miss Elizabeth Wynn, of No. 205 8th Avenue, New York City, writes:

Dear Mrs. Pinkham:—

"For months I suffered with dreadful headaches, pain in the back and severe hemorrhages. I was weak and out of sorts all the time. Lydia E. Pinkham's Vegetable Compound helped me when all other medicine had failed. It seemed to be just what I needed and quickly restored my health."

Dear Mrs. Pinkham:—

"For months I was ill with an internal trouble. I suffered terrible agony, was nervous, irritable, and sick all the time. I took different medicines without benefit. Lydia E. Pinkham's Vegetable Compound was recommended and within six months I was completely restored to health and I want to recommend it to every suffering woman."

Women who are troubled with painful or irregular functions, backache, bloating (or flatulence), displacements, inflammation or ulceration, that bearing-down feeling, dizziness, indigestion, or nervous prostration may be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound.

Mrs. Pinkham's Invitation to Women.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised. Out of her vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that will help your case. Her advice is free and always helpful.

WORST MAMMALIAN PEST.

Department of Agriculture Says It Is the Rat—Methods of Destruction.

It costs American farmers probably \$100,000,000 a year to feed rats. Agricultural department experts compute that the average cost of feeding a rat on grain is about fifty cents a year. If for each cow, horse, sheep and hog on the farms of the United States the farmer supports me rat on grain the cost would reach the enormous total of \$100,000,000 a year. Even if half their food is waste material the tax of feeding rats is still an enormous drain.

The Agricultural Department will soon issue a comprehensive publication on "Methods of Destroying Rats." This will show that the brown rat is the worst mammalian pest in existence, and in the United States destroys more property than all other noxious animals combined.

This government publication will show that the ravages of rats are not confined to food. They enter stores and warehouses and destroy dry goods, lace curtains, carpets, woollens, silks, kid gloves and other leather goods. They gnaw through lead pipes, flooding buildings with water or filling them with gas. They injure furniture and the foundations and doors of buildings. They eat the insulation from electric wires, thus causing fires. The average fire loss in the United States due to defective insulation is placed at \$15,000,000 annually, a considerable part of which is said to be caused by rats.

Rats destroy eggs and young poultry, pigeons, game, birds and wild song birds. They have been known to kill young rabbits, pigs and lambs and even to attack children.

In addition to the direct damage, rats are known to be agents in carrying disease germs from house to house and from city to city. Bubonic plague is usually carried from port to port in this way.—Washington correspondence of the New York World.

Electric R. R. in Prussia. The Prussian authorities are calculating the cost of electrifying the line of railroad between Altona and Kiel, sixty-five miles, with a view, if the plant should not seem too costly, to test electrical working for a heavy track on a first-class railroad. This line is exceptionally straight and level, and has a heavy passenger traffic, and for this reason is chosen for the experiment; but whether it is tried or not will depend on the cost of transportation and equipment.—Engineer.

THE BEST PILLOW SHAM HOLDER

Neat, convenient and just the thing every woman needs if she would have a nice looking bed. Can be used on iron or wood bedsteads. Guaranteed to last ten years. We have thousands of satisfied customers who are using them. Careful instructions with each purchase.
