CHARGED WITH MURDER.

John M. Wise and M. C. Tidwell Arrested in Laurens.

Laurens, June 11.—The arrest this afternoon of two young white men, John M. Wise and M. C. Tidwell, both of Watts mills, on a warrant charging them with the murder, five months ago, of Clarence L. White, caused quite a sensation. Both men are held without bail and have been committed to jail. The warrant was sworn out to-day, before Magistrate John M. Hudgens, by Virgil A. White, father of C. L. White, deceased, and the arrests were made by Sheriff Owings and Deputy Culberston.

The apprehension of the accused is the result of some clever detective work, which may be the means of clearing up the mysterious circumstances, which at the time surrounded the manner in which Clarence White sustained injuries that caused his death nine days later. It will be recalled that young White, a railroad employee, with headquarters at Laurens, was found in an unconscious condition on Monday morning, January 31, in a ditch beside the railroad near Watts mills. His skull was fractured and there were marks of other injuries on his body. Nine days later he died at his home, near Owings, this county.

While foul play was first considered, the general belief was that he was the victim of an accident. Now it appears that he told his father a few days before his death that two young unknown white men attacked him as he was walking along the railroad track towards the city Sunday night, January 30, and, after knocking him in the head with a heavy stick or blunt instrument, they robbed him and threw him down the deep embankment into the ditch, where he remained all night.

Children's Day at Trinity.

Interesting visitors, fond parents, faithful pupils and beaming countenances throughout, made children's day at Trinity Sunday school a delightful occasion last Sunday afternoon. The auditorium was well filled and the friends of the school were well pleased with the splendid manner in which the children carried out their parts of the program. Nothing seemed to worry the children as they took their places following the beautiful procession, and they each arose to their part in the program with a zeal and earnestness so pleasing to see. From the time when the organist started the march for the procession until the end when the congregation all joined in that old hymn, "Around the Throne of God in Heaven," the exercises were most pleasing. The teachers of the school who trained the participants deserve much credit and were congratulated on every side by the visitors.

Such occasions as this children's day are events in the life of the pupils and in the history of the school. They may have various purposes and lead to various ends, but the chief aim is to impress the beautiful lessons on the children themselves, and on the others attending. The occasion marks a time when the spring months have passed and the summer is just about to open. In most schools there is always the "summer slump"; Trinity is endeavoring to ward off this and special plans are being laid looking to this end. This was one of the purposes of the children's day exercises. The hope was expressed last Sunday that many of those attending as visitors would become permanent members of the school.

The announcement was made from the platform that the school is being reorganized, the classes being re-enrolled. A complete reclassification will be undertaken in July. The Bible Class is growing rapidly and will continue to do so for some time there being a great many of the church members of Trinity who are not in the school at present but who will likely join. All residents of the town, either permanent or temporary, who are not connected with some school are urged to come out and very likely join. All residents of the school. The Herbert Bible Class is for all persons sixteen years or over; for those under this age there are special classes.

Mr. Featherstone Here.

Hon. C. C. Featherstone, of Laurens, candidate for governor, spent last Saturday in the city, shaking hands with his friends, of whom he has a number in Bamberg, he having visited here before and made an address at the Methodist Church. He came down from Blackville, where he had come from his home on account of the illness of his son. He has a son ill at Blackville. The boy came down on a visit to his grand-parents and was taken sick with typhoid fever the day after his arrival, so his father came down because of his illness. Mr. Featherstone was a caller at the Herald office, but he did not discuss politics, in fact, he did not seem disposed to discuss political matters.

FIVE AWAITED DEATH.

Speeding Locomotive Crashed into Funeral Coach.

Haverstraw, N. Y., June 9.—Three mourners their pastor and their driver, sat in a funeral coach here this afternoon and watched certain death come rushing on them at 50 miles an hour. With a screech of grinding brakes, a heavy West Shore freight engine, hurrying south to pick up a train at Weehawken, crashed into the coach, scattering its occupants along the right of way and came to a stop 150 yards beyond the crossing. All the occupants were either killed outright or fatally injured. The dead:

Romath, the Rev. A., pastor of the New City Methodist Episcopal church; Seifred, E. V., New City, N. Y.; Seifred, Mrs. E. V., New City, N. Y.; Beebe, William, Haverstraw; Kesslers, Mrs. Parry, William, Haverstraw; Kesslers, Mrs. Parry, Haverstraw. Mrs. Kesslers died several hours after the accident.

Dramatic and Horrifying.

The accident was not only unusual but dramatic and horrifying to a degree. It happened at the foot of Graveyard Hill, in full sight of the returning funeral procession, of which the wrecked coach was the first, and of the terrified and helpless watchman.

The watchman was eating a bite of luncheon, in his little cabin, when the tinkle of an electric bell warned him of an approaching train. Mechanically he pulled the lever that set the heavy, balanced gates in motion. Then glancing from the open door, he saw a sight that will not be out of his dreams for many a night.

Just what happened will probably never be known, but some eye-witnesses say that the arrangements of the crossing gates, late in descending, blocked the coach after it had crossed the first of two tracks and held it a prisoner on the rails, while the terrified occupants sat paralyzed, gazing at the on-rushing locomotive.

Hopeless Effort to Escape.

The driver lashed his horses in a futile attempt to force the vehicle from the track, until, with a sharp crack, the picture dissipated and it seemed as if the coach literally blew up. Fragments of splintered wood and mutilated shreds of humanity were flung far and wide. The engine stopped. There was absolute silence, save for the hiss of escaping steam.

A search for the dead followed. The bodies of Mr. and Mrs. Seifred were found, side-by-side, fifty yards down the track. The wife was just returning from the burial of her father, by whose death she had come into a tidy fortune.

Young Beebe, the driver, was the son of a wealthy livery owner. He lay twenty yards nearer, stone dead. The Rev. Mr. Romath was the clergyman who had officiated at the funeral.

An inquest has been deferred, pending fuller investigation of the facts.

Cremated in Jail.

Garfield, Ga., June 12.—Two negroes ended their lives here last night in an extraordinary manner. They were arrested by the town marshal for being drunk and creating a disturbance and locked up in the calaboose. In the first part of the night the officer discovered a fire in their cells just in time to save the little structure. The negroes undaunted, however, were determined on self-destruction and in the latter part of the night started another fire which ended in the calaboose being consumed and they being cremated.

HOTEL ROW IN SPARTANBURG.

Alleged Attempt to Throw Young Woman from Second Story.

Spartanburg, June 13.—With her hair hanging down and her person bloody from an encounter with two men in the hotel, Evelyn Jones, a young woman of about 20, was rescued from a second story window of the Oregon Hotel this morning, where she had luckily caught a hold, after being thrown from the building, as she claimed, by L. D. Crews, one of the proprietors of the house. Men across the street, who saw the woman clinging for her life, secured a ladder and, running it up, took her down in safety.

The young woman was a guest at the hotel. Cases of disorderly conduct were made out against Harry Cutter and L. D. Crews, proprietors of the hotel, and, upon investigation before Mayor Lee, they were each fined \$50. Evelyn Jones, who claimed she was on her way to Jacksonville, Fla., and had only stopped over in Spartanburg on business, was detained at the police station till the arrival of her train to-night and placed upon it by Chief of Police Hill.

It was alleged in the trial that Evelyn Jones was conducting herself improperly at the Oregon and that Crews and Cutter were trying to put her out.

HEROIC DEED SAVES CHILD.

Thrilling Occurrences on Railroad Near Salters.

Kingstree, June 10.—Information has just been received here that the two-year-old child of Mr. Albert R. Moseley, of Salters, while playing on the railroad track, directly in front of its home, at that place, had been struck by an extra freight train, south, knocking it from the track and some distance away. Drs. Gamble and Jacobs, of this place, went hurriedly to render medical assistance, but very little hopes are entertained for the child's recovery. Besides internal injuries, which are serious, the back of the child appears to be broken.

Injuries Not so Serious.

Later developments at Salters show the child was not seriously injured as first reported. The act of the engineer reads like fiction, in that he saw the child on the track ahead; putting on emergency brakes, he rushed out of his cab, reached for the child, and threw it off the track, seeing he could not stop the train. The injuries, therefore, that the child received were slight, resulting from the fall after having been thrown by the engineer. Had it not been for the heroic act on the part of the engineer, the child would doubtless have been mangled to death under the train. The first report was that obtained from a person coming for the doctor.

Account from Salters.

Salters, June 10.—Innocent of an almost certain death, James, the 2-year-old son of Mr. Albert R. Moseley, of this place, toddled out in the middle of the main track of the Atlantic Coast Line, only a few yards from his home, directly in front of a fast running freight train, at 1 o'clock to-day, and was knocked off by the monster freight engine.

The engineer saw the child too late to bring his train to a dead stop before hitting the child, although he applied the emergency brakes as soon as possible, coming to a stop about three cars' length past where the child was struck.

A physician was called in immediately, and is reported to have said that the child will recover.

Cotton Crop Report.

New Orleans, June 12.—In summarizing its initial reports of the cotton crop of 1910, the Times-Democrat will say to-morrow:

"The reports indicate a favorable, though somewhat late start throughout the major portion of the belt. Much replanting was found necessary. Weather extremes form the basis of most of the complaints.

"An appreciable increase in acreage is reported from the States west of the Mississippi river.

"As a rule the fields are clean and well worked.

"Boll weevils have appeared in the sections infested last year where crop diversification has been resorted to more than ever before. Thus far the plant seems to be free of other insect pests.

"The labor supply is ample in most sections, but complaints of scarcity in this respect come from others."

Moonshine Destroyed.

Spartanburg, June 11.—Revenue officers accompanied by special constables left Spartanburg early this morning to make a raid on a moonshine distillery 20 miles above the city on the line of the Carolina Clinchfield & Ohio. They found an 85-gallon still in operation. "The pot was boiling" but the moonshiners had gone off to a cabin to get meal to make mash.

While the officers were busy cutting to pieces the still the owners appeared on the brow of the hill, but when they saw what was going on they fled. Over 2,000 gallons of beer and mash were destroyed.

Shooting in Yorkville.

Yorkville, June 11.—George Webb, while sitting on the driver's seat of a mowing machine, on a farm about four miles east of Yorkville, this morning, was shot in the back, it is stated by Abe Seigel. The weapon used was a shot gun, loaded with slugs. Webb is said to be seriously wounded, but the attending physician expresses the opinion that he will recover.

Seigel surrendered to the sheriff and is in jail. He was standing about ten feet from his victim when the shot was fired, and assigns as his reason the alienation of his wife's affections by Webb.

WEST KNIGHT MAY DIE.

Perhaps Fatally Wounded by Tully Babb, Prominent Farmer.

Greenville, June 12.—Tully Babb to-day shot and perhaps fatally wounded West Knight on Laurens road, near here. Both men are prominent white farmers of that section. The shooting grew out of continued illfeeling between the two.

Babb with his wife was driving in a buggy on the Laurens road. As they were passing Knight's home, Knight came out in the road and stopped them. He then, it is said, attempted to pick a fight with Babb. Babb got out of his buggy and Knight advanced on him with a knife. Babb drew his pistol and fired four times. The bullets took effect in Knight's abdomen perforating the intestines.

Knight was brought to a hospital here, where he is now. Physicians say that his recovery is doubtful.

Babb was lodged in jail. He claims self-defense.

Babb is a well-known character in this section. At one time he was a distiller in this county before the enactment of the dispensary law.

The salaries of postmasters in a number of South Carolina towns will be raised the 1st of July. The salary of the Bamberg post office will be raised from \$1,500 to \$1,600 a year. The salary of the Blackville office will be increased from \$1,400 to \$1,500.

HIDDEN DANGERS

Nature Gives Timely Warnings That No Bamberg Citizen Can Afford to Ignore.

DANGER SIGNAL NO. 1 comes from the kidney secretions. They will warn you when the kidneys are sick. Well kidneys excrete a clear, amber fluid. Sick kidneys send out a thin, pale and foamy, or a thick, red, ill-smelling urine, full of sediment and irregular of passage.

DANGER SIGNAL NO. 2 comes from the back. Back pains, dull and heavy, or sharp and acute, tell you of sick kidneys and warn you of the approach of dropsy, diabetes and Bright's disease. Doan's Kidney Pills cure sick kidneys, and cure them permanently. Here's Bamberg proof:

N. B. Adams, Main street, Bamberg, S. C., says:

"I most heartily recommend Doan's Kidney Pills, as I used them and obtained great benefit. I suffered for more than a year from attacks of backache and pains in the small of my back. The kidney secretions were unnatural and gave me no end of trouble on account of their frequency in passage. Having Doan's Kidney Pills brought to my attention, I procured a supply at the Peoples Drug Co. and began using them. They gave prompt relief. In a few weeks the pains in my back were entirely disposed of and my kidneys were again performing their work properly."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Home Industry

Did you ever stop and think what kind of business judgment you exercised when you let those globe trotting, so-called opticians and eye specialists pull a veil over your face and stuff wool in your eyes and sell you a pair of glasses with a guarantee strong enough to see Halley's comet at noon and tell the time of day? And you had just as well believe that as anything else they tell you, for he has collected your money and gone.

Suppose the glasses don't fit, where can you find him? or suppose they give you perfect satisfaction and you recommend him to your friends, where is he? You don't know. He is gone, and your friend has missed the great man that sells medicated glasses that restores sight and cures all diseases from a sprained ankle to a deranged mind.

Now you wear the glasses, if satisfactory, and swear by that bunch of fakirs; that they are the best on earth. But I find many people that are swearing off from such vendors and are patronizing home industry, enabling an honest man to stay at home and do the work as it should be and add a profession to our community greatly needed. Don't be a drawback to our homes and country, keep as many people and as much money here as you possibly can, then we will be proud of ourselves and others.

If these people come here and live as one of us I for one extend to them a hand of welcome, but for them to come through and carry thousands of dollars away, leaving in most cases nothing in return, I feel duty bound to rise up against them in behalf of my people and myself. You may think and say I have a selfish motive in view by taking this stand. I don't care if you do. I am in a position to substantiate every word of it, and if you don't believe it look on your mantels and mantles of your neighbors, and if you don't find enough junk in the way of old spectacles to convince you, I will stop writing and we will go fishing. I am making a living and I want you to live, and to do so you must patronize home industry. Buy from whom you may, but try and get value received for your money.

Written for the benefit of the public.

I will be at Ehrhardt Thursday, June 30th and Friday July 1st; I will render service to anyone suffering with eye trouble in the way of refractive errors. Can fit the most difficult cases with proper lenses, relieving the eye strain and producing comfort. Special attention given to chronic cases. All work guaranteed.
