—Mrs. Ruth Bamberg, of South Carolina, is the guest of her sister, Mrs. W. P. Maher on Central avenue.—Asheville, N. C., Gazette-News.

**CAMPAIGN WARMS UP.**

**Tension Increased by Encounter Between Candidates.**

Jackson, Miss., July 9.—The personal encounter at Starkville on Thursday between State Senator Theodore G. Bilbo, candidate for lieutenant governor, and J. J. Henry, former warden of the penitentiary, served to increase the tension in the present United States senatorial campaign.

With the exception of a statement by Senator Percy, in which he referred to the incident as a "purely personal" matter, the candidates for United States senator have refrained from expressing opinions.

The most interesting development expected during the week is the probing of ex-Gov. Vardaman's accounts by Accountant C. J. Moore, who has issued subpoenas to secure the books of the several banking institutions in which deposits of trust funds handled by Vardaman are alleged to have been misused, misapplied or misappropriated, and acting under instructions from the legislature, Accountant Moore is endeavoring to prepare a report showing how these funds were handled. Two of the local banks have declined to give him access to their books without Vardaman's permission. In the event of final refusal Accountant Moore will apply to the courts for assistance.

The Democratic State executive committee will meet here on July 18 to make final arrangements for the primary.

**Former Columbian.**

The fact that a former Columbia business man appears on the scene in the Mississippi senatorial campaign gives a local interest to the exciting events now occurring in the Sunflower State. This person is Charles J. Moore, the well known accountant who removed from Columbia to Jackson, Miss., several years ago. Mr. Moore has been employed to audit ex-Gov. Vardaman's account of trust funds, and interesting developments are expected during this week, so the dispatches say, when Mr. Moore begins his probe, several banks having refused to give Mr. Moore access to their books without Vardaman's permission, according to the dispatches.

Congressman Lever was operated on in Columbia hospital on Friday by Dr. Guerry. He is getting on all right, and will probably be out again in two weeks.

**TO PROBE COAL LAND DEAL.**

**Congress Takes Up Charges About Controller Bay.**

Washington, July 8.—Published charges that the president had been induced by three people, his brother, R. A. Ballinger, then secretary of the interior, and Richard S. Ryan, of New York, a representative of the Guggenheim interests, to restore to the public domain lands surrounding Controller Bay, in Southern Alaska, met with quick action in congress today.

The house committee on expenditures, headed by Representative Graham of Illinois, immediately summoned Fred Dennett, commissioner of the general land office, to appear before the committee Monday to explain what he knows about the matter.

**Asks Taft Why.**

Representative Cox of Indiana, one of the Democratic leaders of the house, introduced a resolution calling on President Taft for all the information he can furnish the house on the subject. This information is to include the reason why he signed the order of restoration after the land had been set aside as a reserve, and whether he knew Ryan was working in the interest of the Guggenheims.

"I am going to push this resolution," said Representative Cox. "If the rules committee fails to act I will bring it up on the floor of the house."

**Something Wrong.**

"There is something radically wrong about this whole transaction. Balked by the refusal of the government to allow the Cunningham coal land claims, this gang in Wall street is evidently determined to secure control of this coal land. They filed on the Controller Bay land, the only available harbor through which the Alaskan coal can be shipped, before the government could even have it surveyed after the president's order withdrawing it from the Chugach reserve. Failing to secure the land, they have now gone after the only means of transporting the coal, and with a railroad from the coal lands to Controller Bay, they could absolutely dictate to the owners of the coal land."

**Ballinger Denies It.**

Seattle, Wash., July 8.—R. A. Ballinger, former secretary of the in-

**NEGRO'S SECOND ATTEMPT.**

**Sam McKinney, of Abbeville, Repeats Attempt at Suicide.**

Abbeville, July 9.—Sam McKinney, a negro porter at the Eureka hotel, was locked up yesterday for beating two negro women. He gave bail and got on a drunk, then attempted suicide by drinking a quantity of carbolic acid. Dr. Lidell pumped the acid out of him, but he is still in a dangerous condition. This is McKinney's second attempt at suicide.

**Impeachment of Judge Suggested.**

Washington, July 8.—Impeachment of Justice Daniel T. Wright of the supreme court of the District of Columbia was suggested today to the senate "third degree" investigating committee by Samuel Gompers, president of the American Federation of Labor. Mr. Gompers' complaint was against Justice Wright's course in the Bucks Stove and Range company contempt proceedings against the federation officials.

Mr. Gompers told the committee that he knew the senate could not begin impeachment proceedings and that he did not mean for the committee to take the initiative. "I do know that if we had the recall in the District of Columbia," said Mr. Gompers, "that Justice Wright would have been recalled before this."

terior, to-day received the Washington dispatch concerning Representative Cox's resolution introduced in the house. Mr. Ballinger said:

"No representation was ever made to the president by me in the interest of Richard S. Ryan or any syndicate in connection with the land at Controller Bay, but I did advise President Taft not to release the lands sought for terminal facilities. I recommended that, if any lands were eliminated from the national forest, they should be eliminated, as far as the entire frontage of Controller Bay was concerned, in a body, leaving to operate the law which reserves every alternate 80 rods of water front to the government."

"So far as Mr. Ryan is concerned, I never had any business dealings with him."

According to the belief that obtains here, and in Alaska, Ryan, in his efforts to obtain railroad terminals at Controller Bay has been working in the interest of an English syndicate.
