VACCINATION HELPS SOME.

Anti-Typhoid Treatment Decreases Mortality by Half.

Washington, Oct. 8.—The prevalence of typhoid fever in every section of the United States has inspired the public health and marine hospital service to express publicly its belief in the artificial immunity, with certain limitations, afforded by anti-typhoid vaccination, already compulsory in the American army for soldiers under 45 years old.
 In a report just issued the public health service reproduces the summary of the findings of a commission of the Academy of Medicine, of Paris, which investigated the subject.
 "Anti-typhoid vaccination," does not accomplish the complete disappearance of this infectious disease in the communities where it is practiced, but it diminishes very notably its frequency. Moreover, such of the vaccinated who contract typhoid fever notwithstanding have much milder attacks than non-vaccinated. The percentage of deaths supervening among the former is one-half of the non-vaccinated typhoid patients.
 In the judgment of the commission the vaccination should be practiced only on healthy subjects, free from all organic or other defects and from local affections, no matter what their nature.

CHASED BY MOB.

Indian Charged with Heinous Crime, is Spirited Away.

Asheville, N. C., Oct. 8.—Ross French, 21, a Cherokee Indian, living on the Bird Town, Swain county, reservation, was safely locked in the county jail here to-night, charged with the murder of the 14-year-old daughter of a Bird Town farmer after having attempted to assault her. His arrival here was effected after an exciting escape from a mob of 100 men bent on lynching the prisoner. The body of the dead girl was found Friday in the woods near the town with her throat cut. This morning Deputy Sheriff Beck, of Swain county, arrested French on the strength of blood stained finger prints on the Indian's hat.
 The news of French's capture spread quickly to the neighboring towns, and a mob of 100 men followed the deputy sheriff to Wayneville, where French was lodged in jail. As the mob continued to grow the sheriff called out the militia, and the crowd was dispersed. Beck then took the prisoner through the back door of the jail to a waiting automobile at Clyde, 20 miles from this city, arriving here at 6:30 to-night. Telephone messages from Waynesville to-night stated that threats of lynching were being freely made there.
 When captured this morning, French claimed that the blood stains on his hat were those of an owl which he had shot in the woods.
 To-night he is alleged to have stated that the girl made a desperate fight and that she had hit him in the head with a rock. He said he did not intend to harm her but had asked her to accompany him into the woods.

GOV. BLEASE WON'T INTERFERE.

Declares Sentence of Hyde, Anderson Wife Slayer, will Stand.

Columbia, Oct. 9.—Gov. Blease said positively to-day that he had no idea of interfering with the sentence of death imposed on Samuel N. Hyde, of Anderson, for the murder of his wife and his father-in-law, and that unless some action effecting a stay of execution is taken in the meantime by the supreme court, Hyde will certainly be hanged at Anderson on October 20.
 Numbers of petition and letters regarding the case are being received at the governor's office. An urgent plea that the death sentence be allowed to stand has come from the mother of the murdered woman, Mrs. Emma Beasley Hyde. It is understood that petitions are in the mail asking that Hyde's sentence be commuted to life imprisonment. Most of those who seek clemency for Hyde appear to doubt his sanity. Hyde was baptized into the First Baptist church of Anderson Friday by the pastor, the Rev. John F. Vines, D. D.
 Hyde was a mill engineer. Some months ago he entered the home of his father-in-law, in the Orr Mill village at Anderson, killed his wife, from whom he had been separated, and then killed his father-in-law, when the latter suddenly confronted him. A young sister of Mrs. Hyde, sleeping with her, was also wounded.

WISE GIVEN EIGHT YEARS.

Slayer of John Duncan Sentenced to Aiken County Chain Gang.

Aiken, Oct. 6.—Lawrence Wise, who was convicted of manslaughter for the killing of John Duncan, at Graniteville, was to-day sentenced by Judge Shipp to serve a term of eight years on the Aiken county chain gang. It is recalled that Wise entered the sub-station on the Aiken-Augusta trolley line at Graniteville, while in an intoxicated condition, and after quarrelling with Duncan shot him, killing him instantly.

TEXAS TAKES THE LEAD.

Gov. Colquitt Proposes Conference to Boost Cotton Prices.

Austin, Tex., Oct. 9.—Suggesting that the depreciation in the price of cotton is not justified by the supply, and proposing a conference between governors and commissioners of agriculture of Southern States, with a view to prevent price depreciation, Gov. Colquitt to-day sent telegrams to governors of Southern States recommending the plan.
 Gov. Colquitt believes, he says, that Texas, as the chief cotton-producing State, should take the lead in the matter.

FAKE MAGAZINE AGENTS ARE SWINDLING PUBLIC.

Remedy Lies in Placing Orders with Newsdealers.

The attention of the public is again called to the numerous agents working throughout California and the Pacific coast, soliciting orders for magazines and collecting money in advance. A bulletin of discharged or criminal agents, published by the Periodical Publishers' Association of America, contains a list of about 500 names of persons who have been operating in various States, and a reward of \$25 each is offered for their arrest and conviction. A number of local people have been victimized, and the remedy lies wholly in the hands of the public by placing their orders with their nearest newsdealer, who will make delivery to the home or office on the date the magazines are published, or will take their subscriptions for any magazine desired, so that it is not necessary to patronize strangers who are usually frauds.
 One of the advantages in ordering through a newsdealer is that instead of a subscriber paying for a year in advance to strangers, he can pay his newsdealer weekly or monthly, as the magazine is delivered and the order may be changed with the newsdealer as often as desired, whereas if supplied by subscription the same publication must come for the entire year.—San Francisco Chronicle.

Little Oliver Barnes of Hickory Grove is Dead.

On October 2, our little friend Oliver Barnes, died suddenly, only having been sick three days.
 Though young, his life had begun to shed abroad in the hearts of those around him, a warm ray of sunshine and happiness, because of his loving ways and friend-forming habits.
 The earnestness of the little fellow's life is best shown in the words that he spoke to his father only a few hours before he died. His father came to the bedside and told him he must take the doctor's medicine or he would be obliged to put him into a deep hole in the church yard; with child-like innocence and simplicity he answered, "Papa, I am not afraid to die and be put into the grave." Oh! what a lesson to be learned of the older ones.
 Oliver was the son of Mr. Hastings Barnes; whose father and mother were old landmarks of Hickory Grove church, Mr. Oliver and Mrs. Adeline Barnes. Mrs. Sadie Barnes, the mother, was the daughter of Mr. George and Mrs. Lucia Beard.
 "On the bosom of Jesus leaning Sleeping and only dreaming of rest Of that glorious happier day When Jesus shall open the way To the blessed."

After months of discussions and negotiations, the Spartanburg city council granted a franchise on Tuesday night to the Greenville, Spartanburg and Anderson trolley line.
 A fire destroyed six wooden buildings in the town of Saluda on Tuesday morning, starting in L. L. Burkhalter's store. The buildings were of wood. The loss is estimated at \$6,000 on buildings and \$3,000 on stock, with only \$2,000 insurance.

THE COLORED FAIR.

The fourth Annual Fair of the Colored Farmers of Bamberg County will begin, November 15th, 16th, and 17th. This will take place at the old fair ground at the Vorhees Industrial School, under the auspices of the Negro Farmers Fair Association.

The object of this fair is to show our progress along industrial lines and stimulate our people to a greater effort.

The demonstrations of the farmers' co-operative demonstration work are to make a great display of the products grown on their special acres. They are planning to have a great corn show. Members of the Boys' Corn Club will make a display of their corn.
 We want this to be "booster" fair, to boost our great county by showing the products grown on its soil and the great prospects for the future.

We want all the farmers, ministers, teachers, and all who desire the progress of all the people to come and help make this fair a success.

Space will be given to any of our white friends who may desire to make a display of any of their products. We cannot afford for them to be better to us than we are to them. We also make a special appeal to them to help us in this great "boosting" and uplifting movement.

South Carolina stands third in the average yield of corn and cotton. We want our State to take the first rank. County fairs will go a long way to solve that problem. With the aid of our white friends, we are going to have one of the greatest industrial fairs ever held in this county.

ATTRACTIONS.

While we shall make our agricultural and industrial exhibits of the fair the main feature, driving and speeding spirited horses around our quarter mile track will be a specialty among other attractions. We shall have a merry-go-round and a splendid brass band. A match game of ball will be played each afternoon, followed by a concert at night. Rev. Richard Carroll will speak to the people on the last day, November 17th, 1911.

E. D. JENKINS, President.
 R. W. WROTON, Secretary.
 W. J. BANKS, Treasurer.
