

Hooton's Ladies Store and Millinery Parlor

EVERYTHING FOR THE GIRLS AND LADIES FROM HOSE TO HATS

Something new for you almost every day in each department, that's why Hooton's is the Most Popular Exclusive Ladies Store in this section of the State

THE PRICE YOU PAY has little to do with it, its what you get for your money that counts, and how much or how little you pay, it all depends upon the quality of goods you get. At Hooton's you get the best values for the least money. That is why you always find the crowd at Hooton's. Ask your friends, they will tell you it pays to shop here, for we give you values according to the price you pay. Everything just as represented

Millinery Department

Past experience has taught us what you expect in this department, as well as it has taught you what to expect when you come here. Therefore, knowing what you want and expect, we are prepared to fill those many various wants of each individual customer. We never allow our stocks to run low as the season advances, for we want our late customers to be pleased as well as the early ones. Therefore, we can please you at any time it suits you best to come.

Since you were here last we have received many new things, which we invite you to come and inspect.

MILANS—There is nothing better at this time. We have them in medium and large.

HEMPS—Come and see these. We have a shape that will just suit you, and at a price you will be glad to pay.

PANAMAS—These we have in the new shapes. Come and see them. The prices are correct.

FLOWERS—These have grown more prominent as the season has advanced. So if you prefer a flower trimmed hat come and let us show you.

RIBBONS—Of these we have received another large shipment, and we have them in any quality or width, for any purpose you wish.

GIRDLES—These we have ready to wear, or can make them to your order. Let us have the order.

Dry Goods, Dresses and Suits

Come see what we have to show you in these departments. We think it will be interesting as well as pleasing to you, to come and let us show you all of the new things we have at this time. At most places the stocks are badly broken, but here we have many things to show you that you cannot find elsewhere.

LACES—If you have had trouble about these this season, don't be discouraged, for we have even a larger assortment than usual.

VAL LACES—These we are showing in a varied assortment edges and insertings to match at 5c.

BETTER VALS—These we have in a large assortment of both edges and insertings that we are selling at the same old price, 10c.

ORIENTAL LACES—These we have in all of the widths that are good, as well as the All Overs, and they are not expensive.

GEORGETTE CREPE—Do you need any of this popular material for dresses or trimmings? We have it in all that is good. Come and let us show you.

TAFFETAS AND MESSALINES—We know these have been hard to get, but if you want either, don't take a substitute, when you can get the one you want here.

SUITS—Of these we have received several shipments, and at this time can please you in a suit. If you are going away, now is the time to get one. Come and let us show you the line.

COLORED DRESS GOODS—In these lines it would be impossible for us to mention what we have, as the assortment is so complete, therefore we ask that you see these before you buy.

W.B. Elastine-Reduso

COME TO SEE US, YOU ARE ALWAYS WELCOMED. DON'T KNOCK WHEN YOU COME IN OR WHEN YOU GO OUT.

PERSONAL MENTION.

People Visiting in This City and at Other Points.

—Mr. Glenn W. Cope is in Spartanburg attending the music festival.

—Mrs. H. F. Bamberg has gone to Johns Hopkins hospital, Baltimore, for treatment.

—Mr. Thomas Gill, of Savannah, visited his mother, Mrs. G. W. Garland, last week.

—Messrs. G. Frank Bamberg and Francis Bamberg have returned to the city from Baltimore.

—Dr. F. F. Johnson has gone to Baker hospital, Charleston, where he will undergo an operation.

—Mr. J. C. Kearse, of Ehrhardt, was in Orangeburg Friday.—Orangeburg Times and Democrat.

—Mr. and Mrs. J. E. Berry, of Branchville, spent several days last week in the city with relatives.

—Mrs. James Byrd, of Charleston, is spending some time in the city with her sister, Mrs. H. G. Delk.

—Rev. L. E. Wiggins, of Pickens, is spending some time in the city with Mr. and Mrs. Thomas Black.

—Mrs. M. A. Moye has been visiting her parents in Bamberg.—Fairfax Correspondent Hampton Herald.

—Mr. and Mrs. F. F. Carroll are at home again after a visit of several weeks to Charleston and Savannah.

—Miss Louise Wilson has returned to the city from Blackville, her school having closed for the session.

—Prof. J. C. Guilds attended the meeting of the Columbia district conference at Ridge Spring last Friday and Saturday.

—Mr. E. D. Bessinger and family, of Olar, were the week-end guests of Mr. and Mrs. F. M. Mobley.—Barnwell Sentinel.

—Mr. Charles Chitty and Mr. Morris, of Olar, were in town Monday and Tuesday.—Fairfax Correspondent Hampton Herald.

—Mrs. Lizzie Wright, of Bamberg, is visiting at the home of her son, Mr. H. A. Wright, on Lovell street.—Orangeburg Times and Democrat.

—Dr. Hartzog and Mr. Bessinger, of Olar, were among those who attended the memorial services here Sunday afternoon.—Barnwell People.

—Dr. and Mrs. Robert Black and Miss Urma Black left Tuesday night for Asheville, N. C., to attend the sessions of the Southern Baptist convention.

—Mr. and Mrs. F. C. Chitty spent the week-end with relatives in Olar.—Fairfax Correspondent Hampton Herald.

—Mrs. Barr, of Bamberg, spent several days last week with her sister, Mrs. E. J. Wannamaker, on Elliott street.—Orangeburg Times and Democrat.

—Mrs. R. L. Gaffney has returned to her home at Shreveport, La., after spending several weeks in the city with her parents, Mr. and Mrs. A. S. Easterling.

—Mr. and Mrs. G. J. Wescoat and Mrs. Robt. Kearse, of Olar, spent Sunday in town as the guests of Mr. and Mrs. G. C. Brown.—Walterboro Press and Standard.

—Misses Addys Hays and Moselle Copeland, Mrs. C. J. S. Brooker, Col. J. R. Owens, Messrs. Calvin Rentz and D. F. Hooton, Mrs. J. W. Price, Miss Pearl Counts, and Mr. and Mrs. A. McB. Speaks have gone to Birmingham, Ala., to attend the reunion of the Confederate veterans.

—Mr. and Mrs. Jake Rentz, of the Hunter's Chapel section, returned to their home Monday after spending a week or two with relatives in the city. Mr. and Mrs. Rentz are nearing ninety years of age, and have been married more than 65 years. They are both in moderately good health.

Conforming to Profession.

A man went to order a wedding cake the other day.

"I'm getting married," he said, "and I want a cake."

"Well, it's the latest thing," said the shopgirl, "to have wedding cakes in harmony with the bridegroom's calling or profession. Thus, a journalist has a spice cake, a musician an oat cake, an athlete a cup cake, a man who loafs on his friends a sponge cake, and so forth and so on. What is your calling please?"

"I am a pianist."

"Then, of course," said the girl, "you'll want a pound cake."

Reason for Cyclones.

"Of course I want my daughter to have some kind of artistic education. I think I'll let her study singing," said Mrs. Neighbor.

"Why not art or literature?" suggested Mrs. Highbrow.

"Art spoils everything and literature wastes reams of papers. Singing merely produces a temporary disturbance of the atmosphere," was the reply.

CLIMATE'S EFFECT ON GROWTH.

Scientist Concludes Maturity of Child Not Reached Earlier in Tropics.

Children do not reach maturity in tropical climate any quicker than in temperate climates. This remarkable conclusion, which runs contrary to a widely held belief, has been reached by Prof. Franz Boas, professor of anthropology at Columbia University, says the New York Evening Post. Prof. Boas, fresh from participation in a scientific survey of Porto Rico, made his report to the New York Academy of Sciences, which undertook the investigation.

"The first of our anthropological inquiries had for its object the study of conditions of growth of the body in a tropical environment," says Prof. Boas. "It is generally assumed that heat has the effect of accelerating the physiological development so that in warm climates children reach maturity earlier than in temperate zones. Our inquiries do not substantiate this view. The material has not yet been collated, but from the general character of the data I venture to say that they will be of the very greatest importance for practical measures relating to the hygiene of childhood and for the management of schools.

"The data thus obtained give also valuable information on the type of Porto Ricans, and necessitated studies among the adults. Material for these has been obtained particularly among the soldiers of the Porto Rican regiment, and the success of this work is entirely due to the liberal assistance of Major Basil H. Dutchem. It is not possible yet to speak of the results of this work with certainty, but it would seem that a remarkably strong environmental influence upon the racial type of man may be observed. If this should prove to be the case, we should have succeeded in establishing a fact of great scientific importance."

Prof. Boas's report also covers an inquiry into the folk-lore of the Porto Ricans, and researches into the antiquities of the island. Of this work he says:

"The collection of folk-lore in Porto Rico was entrusted to Dr. J. Alden Mason, who solved his task with great skill and success. He has accumulated many hundreds of folk-tales, riddles, rhymes, ballads, and songs which will give us a clear insight into the traditional literature of the island. I think the material,

when worked out and published, will have not only great value for the study of romance philology and comparative literature, but will also furnish reading matter for the rural schools, attractive and interesting to the children, because based on their own historic environment. It should have an influence similar to that of the European fairy tales collected a century ago, which have been a source of pleasure and instruction for millions.

"The archaeological work has been carried on by Dr. H. K. Haeblerin, Robert T. Aitken, and Dr. J. Alden Mason. Dr. Haeblerin investigated with great care one stone enclosure (juego di bolas) in the Jobo district and a cave near by. The latter contained some ceremonial objects and a small number of buria. In the cave were found large numbers of bones of an extinct rodent that may have been used for food. Messrs. Mason and Aitken excavated a large cave in Caguana, Utuado, which proved to be the burial ground of an ancient community. Here also a large number of bones of extinct rodents were found. At the foot of the hill in which the cave is situated were found terraces and enclosures, evidence of the existence of an ancient village, to which undoubtedly the cave belonged.

"After the cave had been cleared out completely, Messrs. Aitken and Mason took up a preliminary investigation of a village site at Capa, located by the writer, that seemed of particular interest. For the present half-year the committee has contributed considerable funds for research at this site, which proves to be by far the most important of all archaeological localities so far investigated in Porto Rico. Dr. Mason has been carrying on work there throughout this half-year, with the exception of a period of about four weeks. He closed his field work on the 15th of December, although not more than about one-third of the whole site has been excavated. An accurate survey of the site is being made.

"The locality seems to be so important that it ought to be preserved, and I trust that the government of Porto Rico may find it possible to protect it temporarily by detailing a policeman to watch it, and permanently by acquiring the site as a national monument."

A scientific survey of Porto Rico was inaugurated by the council of the academy at its regular meeting in November, 1913. The undertak-

ing was made possible by an offer of Emerson McMillan, at that time president of the academy, to contribute \$1,000 a year for a period of five years, and an appropriation of \$500 a year by the council from the academy's funds for a similar period. The endeavor received the cooperation of the American Museum of Natural History, the New York Botanical Garden, and the scientific departments of Columbia University, New York University, and other institutions. The Insular government of Porto Rico included an item of \$5,000 for the survey in its budget for 1914-15 and again in the budget for 1915-16, and it has been requested to continue this subsidy for three years longer.

The committee of the council charged with the direction of the survey consisted of Profs. Britton, Crampton, Kemp, Boas, and Poor. The preliminary reconnaissances were made by Profs. Britton and Crampton during the winter and early spring of 1914, and the work has since progressed continuously, in the field and in the laboratory. Collections of geological palaeontological, botanical, zoological and archaeological specimens, aggregating many thousands, have already been brought together, and, after being studied, are being divided among the cooperating institutions and sets of duplicates are being returned to Porto Rico to form a natural history museum there.

Sons of Satan

A Masterly Drama
Based on a Man's
Dual Personality

Directed by George L. Tucker who produced "Traffic in Souls."

FRIDAY, MAY 19th

Thielen Theatre

Moseley's Weekly Bulletin

These warm weather specials will be of real interest to every economical buyer.
