

Hooton's Ladies Store and Millinery Parlor

\$5.00 FIVE DOLLAR BILLS FOR FOUR SILVER DOLLARS \$4.00

At Hooton's For the Remainder of This Month

At a glance this seems unreasonable, however it is true, and you will agree with us when you have read these few lines. We want our CASH SALES to be larger this June than any previous June in our history. In order to do that, we have to make it both INTERESTING and PROFITABLE to our customers. We intend to give you more for your money, than you can get here or elsewhere at other times. Don't get this confused with the so called sales; it is entirely different. If you are accustomed to shopping here, you know the quality of goods we sell and the usual prices we get. There will be nothing changed from one price to another, you simply buy what you want, at regular prices, and pay us \$4.00 when you get \$5.00 worth. If you only have \$1.00 to spend, bring it here, and we will give you 20c change. Isn't this fair? Then come, we shall expect you. This is your opportunity to do your summer shopping, for you will find all of our lines complete, in the most wanted articles, for these hot days. We mention only a few of the many things you will find here.

A NEW STORY.

When Henry Irving's Wife Saw Good Acting.

Booth told me one story of Irving that revealed a tragedy in that gifted man's life, says Edwin Milton Royle, in Harper's. One day, as they were sitting in Booth's room in the theatre, the latter was handed a letter. Irving casually remarked that he recognized the handwriting. Booth offered it to him, and asked him if he cared to read it. Fortunately the Englishman declined. Mr. Booth opened it and read the following from Mrs. Henry Irving:

Dear Mr. Booth: Can you spare me a box? I should like to have my sons see what good acting is.

During my first season with Booth, quite by accident I found myself in a boarding house in San Francisco kept by a very sweet, quaint, old English lady, who was an aunt of Henry Irving, and she told me that Mrs. Irving had been known to occupy a box at her husband's performances and ostentatiously read a newspaper during the performance.

In the lexicon of health there is no such word as "neutrality" against disease.

PEPPER AT MULLINS.

Marion County Farmers Trying Out New Crop.

Very few people around Mullins know that pepper to the extent of more than fifty acres has been planted in this section. Such is the case, however, and it is said that the crop is looking fine. Pepper was introduced here last year, and then only on a very moderate scale. The crop was said to have turned out well and this year the acreage was greatly increased. Gradually the farmers are turning their attention to products other than cotton and tobacco.

The secretary of State Monday issued a charter to the Carolina Pepper association, of Ebenezer, with a capital stock of \$15,000. The officers are: E. E. McGill, president; H. E. Yarborough, vice president; R. S. Hepburn, secretary and treasurer.

In addition to the pepper several have planted hemp—an entirely new industry for this section, though known in other parts of the State.

Mullins should be a live place this fall, with plenty of money stirring. With 12 cents cotton, 60 cents for seed, high priced tobacco, a good pepper crop, with other sides lines, the farmers seem to be coming into their own, and when the farmers are prosperous all classes of trade are affected in due proportion.

While the tobacco crop will be short it is expected that the advance in prices will make it average up or possibly pay better than the crop of last year.

Cotton seed lay in the ground so long that when they came up the grass did likewise, and now the farmers are having a time trying to clean it out. However, with the good growing weather it will not be long before everything will be put in order.—Mullins Enterprise.
