

CALL FOR NEGROES PUT OFF.

South Carolina's Colored Troops Will Be Trained Later at Columbia.

Washington, Sept. 10.—Negro troops of the National Army will be organized in separate units as in done in the regular army, and as far as possible, will be trained in the State where they are raised.

The call for negroes to mobilize at their camps will be postponed to allow the officers at the camp to arrange for the organization of these separate units. Both white men and negroes of the selective draft forces will be given an opportunity to volunteer for service in the battalions of troops for service on the lines of communication, their work being military, but not combatant. However, there will be negro fighting regiments for the National Army as there are of the regulars and the National Guard.

Baker Outlines Policy.
Secretary Baker outlined this policy of the war department today in a statement dealing with the method to be followed in the organization and training of negroes liable to draft under the National Army act. Presumably the negro regiments of the regular army and the National Guard will be retained as they are as fighting units. The statement follows:

"The rule of the regular army governing the training and organization of colored troops will be followed in the National Army and they will be assembled and trained as separate organizations.

"This call for the colored men to mobilize will be postponed until one of the latter calls, so that they will be called to camp at a separate time, giving an opportunity for the officers at the camp to assemble the organizations of which they are a part at one time. They will not be called last, although they will be included in one of the latter calls.

Go to Cantonments.
"All colored troops called in a State which has a cantonment in it will be trained there. Provisions will be made, but has not yet been made, for the assembling from those States which have no cantonments of their quotas of colored soldiers for training.

"Opportunity will be given to both the white and colored troops of the selective draft forces to volunteer in certain lines of communication forces, which it will be necessary to organize and it is hoped that an adequate number will volunteer for this military, but noncombatant service. But there will be both combatant and non combatant colored regiments."

A REAL SENSATION.
Postmaster and Chief of Police, of Hickory Grove, Arrested.

York, Sept. 7.—York county experienced a real shock today, as was predicted in the News and Courier, when it was learned that J. Meek McGill and W. Carson Lattimore had been arrested on the charge of complicity in the lynching of Rev. Watson Sims, a negro preacher, which tragedy occurred in the Locust Hill section of York county early on the morning of August 24.

Mr. McGill is postmaster at Hickory Grove and is well known in Western York county, where he has many relatives and friends. Mr. Lattimore is chief of police of Hickory Grove and also has numerous friends.

Both Refuse to Talk.
The two men were arrested at Hickory Grove this morning by Sheriff Quinn. They expressed no surprise when informed by the sheriff that he held warrants for their arrest. The sheriff allowed both men to go to their homes in order to change their clothes. Then they were brought to the jail here in automobiles. Neither had any comment to make.

Mr. McGill told the sheriff that he had heard several days ago that he was under suspicion in connection with the lynching, and Mr. Lattimore said that he had learned early this morning that he was suspected. Chief Lattimore has a wife and three children. Mr. McGill is unmarried. Eleven arrests have been made in this case and whether any more will be made before the grand jury meets Monday remains to be seen. Almost anything is likely to happen now. Dick Norman, who turned State's evidence, has been released on bond in the sum of \$1,000, signed by Dr. J. H. Saye.

The Difficult Task.
The all important place that industry holds in modern warfare has been clearly outlined—and the facts need no reiteration here. But the imperative necessity of establishing the highest possible degree of cooperation in industry is not so widely appreciated nor has it been so often stated. In undertaking to keep our great army and navy supplied with everything that they need to carry on the field against the foe. American is undertaking the "next to impossible."—Industrial Management.

Government Crop Report.

Washington, D. C., Sept. 18.—summary of the September crop report for the State of South Carolina, and for the United States, as compiled by the Bureau of Crop Estimates (and transmitted through the Weather Bureau), U. S. Department of Agriculture, is as follows:

Corn.—September 1 forecast, 44,800,000 bushels; production last year, December estimate, 32,008,000 bushels.

All wheat.—September 1 forecast, 1,870,000 bushels; production last year, December estimate, 2,226,000 bushels.

Oats.—September 1 forecast, 5,100,000 bushels; production last year, December estimate, 9,000,000 bushels.

Tobacco.—September 1 forecast, 56,400,000 pounds; production last year, December estimate, 20,280,000 pounds.

Potatoes.—September 1 forecast, 1,122,000 bushels; production last year, December estimate, 750,000 bushels.

Sweet potatoes.—September 1 forecast, 1,724,000 bushels; production last year, December estimate, 5,676,000 bushels.

All hay.—Preliminary estimate, 292,000 tons, production last year, December estimate, 340,000 tons.

Apples (agricultural crop).—September 1 forecast, 283,000 barrels of 3 bushels; production last year, December estimate, 196,000 barrels.

Peaches.—Estimated production 1917, 1,130,000 bushels; production last year, December estimate, 545,000 bushels.

Cotton.—August 25 forecast, 1,377,000 bales; production last year, census, 931,830 bales.

Prices.—The first price given below is the average on September 1, this year, and the second the average on September last year.

Wheat, 247 and 150 cents per bushel. Corn, 2.28 and 108. Oats, 121 and 69. Potatoes, 230 and 146. Hay \$19.50 and \$15.50 per ton. Cotton 22.9 and 14.7 cents per pound. Eggs, 30 and 22 cents per dozen.

UNITED STATES.
Corn.—September 1 forecast, 3,250,000,000; production last year, December estimate, 2,583,241,000 bushels.

All wheat.—September 1 forecast, 668,000,000 bushels; production last year, December estimate, 639,886,000 bushels.

Oats.—September 1 forecast, 1,530,000,000 bushels; production last year, December estimate, 1,251,992,000 bushels.

Tobacco.—September 1 forecast, 1,220,000,000 pounds; production last year, December estimate, 1,150,622,000 pounds.

Potatoes.—September 1 forecast, 462,000,000 bushels; production last year, December estimate, 285,437,000 bushels.

Sweet potatoes.—September 1 forecast, 88,200,000 bushels; production last year, December estimate, 70,955,000 bushels.

All hay.—Preliminary estimate, 92,000,000 tons; production last year, December estimate, 109,786,000 tons.

Apples (agricultural crop).—September 1 forecast, 59,100,000 barrels of 3 bushels, production last year, December estimate, 67,415,000 barrels.

Peaches.—Estimated production 1917, 42,600,000 bushels; production last year, December estimate, 36,939,000 bushels.

Oranges.—September 1 condition 49.7, compared with the 10-year condition of 86.0.

Cotton.—August 25 forecast, 12,500,000 bales; production last year, census, 11,449,930 bales.

Prices.—The first price given below is the average on September 1 this year, and the second the average on September 1 last year.

Wheat, 209.7 and 131.2 cents per bushel. Corn, 175.5 and 83.6 cents. Oats, 61.7 and 43.1 cents. Potatoes, 139.1 and 109.3 cents. Hay, \$13.68 and \$10.42 per ton. Cotton, 23.4 and 14.6 cents per pound. Eggs, 33.2 and 23.3 cents per dozen.

Transplanted Bone.
Ten inches of bone that supported his leg between the knee and ankle now is filling that amount of space in the forearm of Jim Herring, stockman, of Grady, having been transplanted there by a surgeon as the only remedy that would save the arm.

The leg, now bearing a silver plate, has healed, and the arm promises to be as good as new before long.

Ten months ago Herring sprained his arm. Not having ready access to a surgeon, and thinking the injury slight, he set the member himself. At length a bone trouble developed and continued to grow more and more malignant for eight months. Taking out the impaired bone was the surgical cure decided upon, and the space was filled with bone from his leg.—Ringling (Okla.) Cor. New York World.

MAXWELL
Most Miles per Gallon Most Miles on tires

We have not deviated from our fixed one-chassis-model policy.

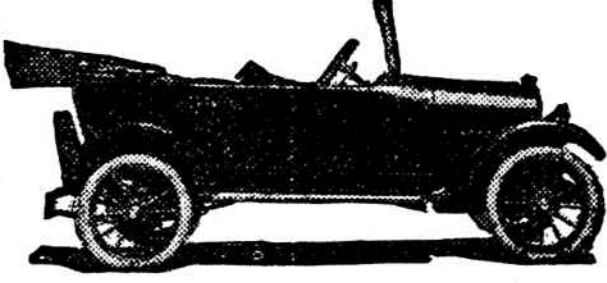

But we have refined and developed the Maxwell.

The new compensating under-slung rear springs mean comfort for you and preservation of your car.

This is the type of spring used in the newest models of many of the highest priced cars.

The wheel base is six inches longer—the frame has been strengthened—the windshield sloped, the body lines made more graceful, and the body made roomier.

But the Maxwell price stands at a figure which still makes it "the world's greatest motor car value."

Help the Operators Serve You Better

Telephone subscribers are urged to call by number and not by name. In a community of this size the operators cannot possibly remember the names of all subscribers; when you call by name you delay your service and hamper its efficiency.

All telephones are known to the operators by numbers which are on the switchboard directly in front of them. The directory is your index to the switchboard and should be consulted before making a call.

Call by number and help the operator serve you better.

No. 666
This is a prescription prepared especially for **MALARIA or CHILLS or FEVER.** Five or six doses will break any case, and if taken then as a tonic the Fever will not return. It acts on the liver better than Calomel and does not gripe or sicken. 25c

Auto-Intoxication Causes Death

Do you know why you have sick headache, diabetes, neuralgia, rheumatism or liver or kidney troubles? It's because you are being poisoned by products of your own body. Your organs of elimination are not working properly. Waste material that should be thrown out is being retained to poison and intoxicate your system. That could not happen if the bowels were kept open with Granger Liver Regulator. This splendid preparation is purely vegetable and non-alcoholic. Demand Granger Liver Regulator at your drug store—25c a box—and take no other. There is nothing "just as good."
