

The Bamberg Herald

ESTABLISHED APRIL, 1891.

Thursday, May 30, 1918.

The entire county has responded in a magnificent manner in the campaign for the second Red Cross war fund. The county has doubled its quota, and then some more. The people have not only cast their enthusiasm into the fight, but their money is at the disposal of the government.

Special mention should be made of the manner in which the colored people of the county have responded to the call for the Red Cross war fund. They have responded in a splendid and substantial way, and their contributions have not only been generous but general. Great enthusiasm has been aroused among the colored folks all over the county, and they are to be heartily commended for their patriotic stand.

We don't know whether there is an ordinance in Bamberg regulating motorcycles or not, but if there is not there ought to be. We see quite a few of these motor vehicles in the city frequently, and we notice that they are to be frequently seen on the sidewalks. This appears to us as being very dangerous, and we suggest to the city council the advisability of regulating these vehicles before some fatal accident brings tragedy into the town.

A Washington dispatch a few days ago told of a visit of Congressman Byrnes to President Wilson on a confidential mission, and the writer says that "it is known that Mr. Byrnes enjoys the confidence of the president." This is interesting in view of the fact that from some sources the report that the relations between Mr. Byrnes and the president have not been so cordial. It is a fact that Mr. Byrnes enjoys an intimate friendship with the president, and that the president sends for the congressman on occasion to confer with him on matters of vital importance. Mr. Byrnes occupies a very important position in congress, being a member of the important appropriations committee, upon which the financial conduct of the government rests.

Red Cross Worker Honored By Nurses Association

Miss Jane Van De Vrede Nominated Director For 1919-1920.

Miss Jane Van De Vrede, of Savannah, director of the Bureau of Nursing, Southern Division, American Red Cross, has recently received word from Mrs. Charles D. Lockwood, chairman of the nominating committee of the American Nurses Association, of her nomination as director of the association for the term of 1919-1920. This is one of the highest honors that can be given a member of the nursing profession and comes as a recognition of Miss Van De Vrede's splendid service. The nomination will be confirmed at the association convention the first week in May.

Appropriations For Relief Work In France Announced By Red Cross War Council

The Relief work of the American Red Cross in France is already well under way, and appropriations for this work to the amount of \$30,519,259.60 have been made by the Red Cross War Council to cover the period from the time when the United States entered the war up to April 30, 1918.

Of this amount, \$14,019,889.50 is for military relief, under which head comes everything pertaining to hospitals and hospital supplies, canteen service, and arrangements for the recreation and comfort of the American soldiers when off duty. For civilian relief, including aid to refugees, care and prevention of tuberculosis, care of children, re-education of mutilated and blind soldiers and general relief work in six districts of the devastated area, a total of \$9,556,482.15 has been appropriated.

The bureau of supplies and other administrative bureaus will receive \$3,359,541.75. Under this head come all transportation facilities, the department of engineering, the expenses of 27 warehouses and insurance on goods stored therein, as well as all office expenses in France.

Under the head of miscellaneous activities, for which \$3,583,346.20 has been appropriated, come such things as relief of the families of sick and wounded French soldiers, all emergencies, the American ambulance fund, food for the French people, the Red Cross health center and other similar work.

In addition to this amount, an appropriation of \$7,063,649.12 has been made for the purchase in the United States of supplies for shipment to France.

Of this appropriation, only a very small percentage goes for salaries as more than 3-4 of the Red Cross workers in France are volunteers, a great many of whom even pay their own expenses. It has been estimated by the War Council that for every dollar donated to the war fund, \$1.02 is spent in direct relief, the .02 being interest.

CRALISLE CLOSSES SESSION

SERMON SUNDAY BY REV. MARK L. CARLISLE, D. D.

School Enjoyed Largest Enrollment in History.—No Graduating Class This Year.

The annual commencement sermon of Carlisle school was preached Sunday morning at the Methodist church by Dr. Mark L. Carlisle, of Anderson. Dr. Carlisle delivered one of the finest addresses heard in Bamberg in a long time. The subject of Dr. Carlisle's sermon is found in Hebrews 12:27, "Things which cannot be shaken."

Previous to the sermon, Headmaster J. C. Guilds made a short talk on the work of the school for the past session. Mr. Guilds stated that during the session just ended the enrollment of the school had reached 162, which is some twenty more pupils than ever enrolled at any previous session.

Mr. Guilds announced that for several reasons the annual graduating exercises, usually held on Monday evening, had been called off. Governor Manning had been expected to deliver an address on that occasion, but the press of official business had prevented him from coming. Inasmuch as the raising of the standard of the school had prevented the graduation of the usual class this year, and the prevention of Governor Manning's coming, it was decided not to hold these exercises this year. Mr. Guilds announced, however, that one young lady, Miss Mullinix, had completed the course, and would be awarded a diploma privately. After further announcements, Mr. Guilds introduced Dr. Carlisle.

Dr. Carlisle stated that he was not a stranger here. Fifteen years ago he had preached a sermon on a similar occasion in Bamberg. The discourse was along the lines of the war. The subject was closely allied with many phases of the war, and the discussion of these relations combined to make the address one of the strongest and clearest it has been the good fortune of Bamberg people to hear.

A number of things in this world are unshakable. Among them, he named truth, freedom, faith in God, prayer, and finally, and greatest, God himself. Discussing truth, the speaker related how Germany had at the outbreak of the war endeavored by a net work of untruth attempted to put herself in the position of a mild lamb being attacked by wolves. Truth, however, cannot be downed. It came out, and it came out so strongly that even Germany now does not attempt to justify her position by attempting to prove she was attacked. It has been clearly demonstrated that she and she alone was responsible for the awful conflict. The speaker here digressed long enough to say that he believed as firmly as he believed anything that the power of the devil is behind the German kaiser in this war, and that we are fighting the most powerful earthly ally the devil has. For this reason alone, Dr. Carlisle prophesied that the kaiser would go down into disaster because his cause is not founded on the solid rock of truth and justice.

The question of freedom is exemplified in little Belgium today. By the overrunning and rape of Belgium, and the conquering by overwhelming arms, there now remains only a little strip of territory about 6 by 20 miles, left of Belgium. Although their country has gone, the love of freedom of action and thought still abounds in the little kingdom, and the spirit of the people remains unbroken. Just so long as this spark of love of freedom can be kept alive, no power can wipe this nation off the face of the earth.

In conclusion, Dr. Carlisle pleaded with the people to let their foundation rest upon God who through all the centuries, stands unshaken. Build your reputation upon a solid rock, hitch your ideals to the things that cannot be shaken, is his advice. After the incidents of the past four years, one is likely to question, "Is there anything solid, anything stable?" In Germany where education had been fostered to the highest degree, and religion had supposedly reached a high state of cultivation, things are not stable, because of the absence of God.

Dr. Carlisle was to have made the annual address before the Young People's Christian association at the Baptist church Sunday night, but he was compelled to leave for home. The community was very fortunate in securing for this occasion Dr. E. M. Poteat, former president of Furman university, who was in Bamberg Sunday night, and delivered one of his famous addresses. Dr. Poteat is well known here, having made the commencement address before the Carlisle school a few years ago.

The subject of Dr. Poteat's address was prosperity in the South, and it was founded upon passages from the

FREE FROM ALL TAXES

U. S. War Savings Stamps Are Free From Federal, State Or Local Taxation--Pay Good Interest.

One of the advantages of the war savings stamps as an investment is that they are not subject to taxation. The following statement in reference to this feature has been issued by the war savings committee:

"When preparing for the issuing of Thrift Stamps and War Savings Certificates, the national administration very wisely decided that they would not be subject to any taxes—federal, state or local. In this respect, they are entirely unique, being free when almost everything else of value is subject to impost.

"As the amount that an individual may hold is limited to \$1,000, this concession does not deal unjustly toward other security holders. It is simply an inducement to the small investor to make an unusual effort in his own country's behalf by depositing as much of his surplus with the government as possible. Those who buy these little bonds—and all should do it—should understand in advance of the coming days of taxation return in April that whatever of their earned savings or surplus derived from economics is converted into Thrift Stamps and War Savings Certificates need not be recorded upon the assessor's blank. As the interest and principal are payable in 1923, neither is it necessary to make mention of the investments in the return to the income tax collector.

"They are, as stated, absolutely free and, as they also pay 4 per cent. compound interest, are the best securities that one can buy in these troubled times.

WOODRUFF LEADS STATE

Has Largest Per Capita of Money Invested in War Savings Stamps.

Charleston, S. C. — The town of Woodruff, S. C., has the largest per capita sales up to date of all the towns in the state. The population of Woodruff is 1380 and the sales up to February 16 were \$2,441.28, which represents \$1.30 worth of war savings stamps and thrift stamps for each person in the town. The balance of the state has sold only \$.092 per capita. Woodruff, therefore, has made the best showing in the state up to the present date, and expects to conduct the campaign even more vigorously.

Colored School Makes Record

Seven-Mile School Near Charleston Has 100 Per Cent. War Savings Stamp Enrollment.

Charleston, S. C.—The 7-Mile School at Mt. Pleasant, S. C., has made the leading War Savings Stamp enrollment in the State of South Carolina, according to reports in so far. This is a colored school, and the teacher and every pupil owns at least one thrift stamp, which is considered an excellent showing, and which is taken here as an indication of what can be accomplished in the schools of the state.

— W. S. S. —

HOORAY FOR CHARLOTTE!

Washington, D. C.—Charlotte, Michigan, a town of 5,800, has the distinction of being the first town in the country to make a percentage of 100 on the sale of war thrift stamps. According to reports reaching the national war savings committee here, every man, woman and child in Charlotte owns at least one thrift stamp.

eighth chapter of Deuteronomy. He related how after the civil war conditions were bad in the South, and the people were in sore circumstances, but that a few years ago the economic and industrial resources of the South began to be exploited, and prosperity began pouring into the Southern States. The present war had done much to develop these resources to a highly profitable state, and the placing of the army cantonments had contributed largely to bringing to the South much prosperity.

The marrow of Dr. Poteat's address on this subject was to warn the people of the peril of prosperity. The making of money is a worthy ambition, but it is fraught with many hidden and possibly unseen dangers. He pleaded with the people to use their wealth not only wisely, but for the elevation of mankind and the furtherance of the Kingdom of God on earth. National wealth had imperiled nations in Bible days, and the peril is present today. This wealth can be of untold benefit to the world, or it can sink our own nation into disaster.

He pleaded with the people to give of their means to the worthy causes now presented, and to humble themselves before God.
