

THE FOURTEEN POINTS.

Essential to Peace as Set Forth by the President Last January.

The terms set forth by President Wilson as essential to peace in his address to congress on January 8 last, referred to in the note of inquiry to Germany sent last week, are as follows:

1. Open covenants of peace, openly arrived at, after which there shall be no private international understandings of any kind, but diplomacy shall proceed always frankly and in the public view.
2. Absolute freedom of navigation upon the seas, outside territorial waters, alike in peace and in war, except as the seas may be closed in whole or in part by international action for the enforcement of international covenants.
3. The removal, so far as possible, of all economic barriers and the establishment of an equality of trade conditions among all the nations consenting to the peace and associating themselves for its maintenance.

4. Adequate guarantees given and taken that national armaments will reduce to the lowest point consistent with domestic safety.

5. Free, open-minded, and absolutely impartial adjustment of all colonial claims, based upon a strict observance of the principle that in determining all such questions of sovereignty the interest of the population concerned must have equal weight with the equitable claims of the government whose title is to be determined.

6. The evacuation of all Russian territory and such a settlement of all questions affecting Russia as will secure the best and freest cooperation of the other nations of the world in obtaining for her an unhampered and unembarrassed opportunity of her new political development and national policy, and assure her of a sincere welcome into the society of free nations under institutions of her own choosing; and, more than a welcome, assistance also of every kind that she may need and may herself desire. The treatment accorded Russia by her sister nations in the months to come will be the acid test of their goodwill, of their comprehension of her needs as distinguished from their own interests, and of their intelligent and unselfish sympathy.

7. Belgium, the whole world will agree, must be evacuated and restored without any attempt to limit the sovereignty which she enjoys in common with all other free nations. No other single act will serve as this will serve to restore confidence among the nations in the laws which they have themselves set and determined for the government of their relations with one another. Without this healing act the whole structure and validity of international law is forever impaired.

8. All French territory should be freed and the invaded portions restored, and the wrong done to France by Prussia in 1871 in the matter of Alsace-Lorraine which has unsettled the peace of the world for nearly fifty years, should be righted, in order that peace may once more be made secure in the interest of all.

9. A readjustment of the frontiers of Italy should be effected along clearly recognizable lines of nationality.

10. The peoples of Austria-Hungary, whose place among the nations we wish to see safeguarded and assured, should be accorded the freest opportunity of autonomous development.

11. Rumania, Serbia, and Montenegro should be evacuated; occupied territories restored; Serbia accorded free and secure access to the sea; and the relations of the several Balkan States to one another determined by friendly counsel along historically established lines of allegiance and nationality; and international guarantees of the political and economic independence and territorial integrity of the several Balkan States should be entered into.

12. The Turkish portions of the present Ottoman Empire should be assured a secure sovereignty, but the other nationalities which are now under Turkish rule should be assured an undoubted security of life and an absolutely unmolested opportunity of autonomous development and the Dardanelles should be permanently opened as a free passage to the ships and commerce of all nations under international guarantees.

13. An independent Polish State should be erected which should include the territories inhabited by indisputably Polish populations, which should be assured a free and secure access to the sea, and whose political and economic independence and territorial integrity should be guaranteed by international covenant.

14. A general association of nations must be formed under specific covenants for the purpose of affording mutual guarantees of political independence and territorial integrity to great and small States alike.

### DELCO-LIGHT Increases Farm Efficiency

Fifty thousand Delco-Light plants in operation on American farms are saving at the most conservative estimate, an hour a day each—or over 18,000,000 work hours a year. That is equal to an army of 60,000 men working ten hours a day for a full month.

Delco-Light is a complete electric light and power plant for farms and suburban homes.

It furnishes an abundance of clean, safe, economical light, and operates pump, churn, cream separator, washing machine and other appliances.

It is also lighting rural stores, garages, churches, schools, army camps and railway stations.

# BUY "EYES" FOR OUR ARMY

AEROPLANES are the eyes of the Army.

They report the enemy's movements and enable us to check the Hun's every move. They find the range of the enemy guns and help to put them out of commission.

It takes two hundred (200) \$50.00 Bonds of the Fourth Liberty Loan to build one fighting plane, and we shall need thousands of them.

How much of a plane will you buy?

## Help the Operators Serve You Better

Telephone subscribers are urged to call by number and not by name. In a community of this size the operators cannot possibly remember the names of all subscribers; when you call by name you delay your service and hamper its efficiency.

All telephones are known to the operators by numbers which are on the switchboard directly in front of them. The directory is your index to the switchboard and should be consulted before making a call.

Call by number and help the operator serve you better.

## DESTROYS SLEEP

Many Bamberg People Testify to This.

You can't sleep at night. With aches and pains of a bad back.

When you have to get up from urinary troubles.

If the kidneys are at fault.

Set them working right with Doan's Kidney Pills.

Here is Bamberg proof of their merit.

L. B. Fowler, contractor and builder, Church St., says: "I have found Doan's Kidney Pills to be a mighty fine kidney and bladder medicine and have told a great many people to try them. Some eight years ago I was in awful shape with my kidneys. The action of these organs was scanty and weak and the secretions unnatural and highly colored. Nights I had to get up several times and mornings I felt all tired out and weak. My sleep didn't seem to refresh me any. I was in a bad shape. My back was as stiff as leather and so lame that I couldn't bend over. My kidneys hurt all the time and were in an awful poor condition. I started to take Doan's Kidney Pills and they were what my kidneys needed, for they rid me of all this trouble and fixed me up in A-1 shape again."

### No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS child TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.
