**The NEW EDISON**  
"The Phonograph with a Soul"

the instrument by which Mr. Edison has given Music's Re-Creation to the world. This marvelous invention Re-Creates the human voice and the music of human-played instruments with such fidelity that 2,000,000 music lovers and the music

critics of 1500 representative American newspapers have been completely mystified by their inability to tell the living voice from its duplication by the New Edison. Before the invention of the New Edison such an accomplishment was impossible.
