SMITHS LEAD IN WAR.

Johnsons Next Strongest, Followed Closely by the Jones Boys. The bureau of war risk insurance announces that 51,000 Smiths were with the colors. The Johnsons were next strongest, with their 29,000 fighters. The Jones boys were 22,500 strong, and the Greens had about the same number. There were 9,000 Browns and 4,500 Cohens. There was only one Woodrow Wilson in the ranks; but there were 74 George Washingtons, two Abraham Lincolns, two Ulysses S. Grants and five Ulysses Grants without the initials S. There were 79 Robert E. Lees, four Bismarks and two Caesars in the war. Better Than a Clock. "My dear, do you know it is the fashion now to have a big clock at the head of the stairs?" "Yes, I know; but ours is not going there." "Why not?" "A clock at that point is not necessary. When you come home late, I shall always be at the head of the stairs to tell you what time it is." Speaking of vacations, the most delightful one that we could imagine would be not to hear nor see nor think the word "expense" for about two weeks. Read The Herald, only \$2.00 year.

The Luxury Tax.

Collector D. C. Heyward of the internal revenue service, has given out additional instructions in connection with the collection of internal revenue taxes. These instructions are especially important in that they make clear the fact that the tax is payable on each ten cents of the amount of a purchase, rather than upon each separate five or ten cents article included in a given purchase. The instructions are as follows: Section 630. On what is commonly known as soft drinks compounded and mixed at or in close proximity to soda fountains or other similar places of business including ice cream etc. The tax is one cent on each sale of ten cents or less and if above ten cents one cent on each ten cents or fraction part thereof. The tax is on the whole amount of the price paid by the purchaser when the price is paid at one time though it might be in payment for several articles or drinks but which are the subject of a single transaction, purchase or sale. For example, if a sale is made of one glass of coca cola at the price of 5 cents, the tax hereon is one cent, but if one person purchases 5 glasses of coca cola at a price of 25 cents the tax thereon is 3 cents. Section 904. Covering the tax upon the following articles sold at retail in excess of the specified prices. The tax is ten per cent of the amounts in excess of the following amount: 1. Picture frames above \$10; 2. Trunks above \$50; 3. Carpets and rugs above \$5 per square yard; 4. Valises, traveling bags, suit cases, etc., above \$25; 5. Purses, pocket-books, shopping and hand bags above \$7.50; 6. Portable lighting fixtures, lamps, etc., above \$25; 7. Umbrellas, parasols and sunshades above \$4; 8. Fans any amount above \$1; 9. House or smocking coats, lounging and bath robes, etc., above \$7.50; 10. Men's waistcoats sold separately from suits above \$5; 11. Women's and misses hats, bonnets and hoods above \$15; 12. Men's and boys' hats above \$2; 14. Men's women's, and boys' boots, shoes, pumps, etc., above \$10; 15. Men's and boys' silk stockings and hose above \$2 per pair; 16. If the kaiser is tried for his part in the war he will come to the judgment bar no longer a prince "clad in shining armor," but an ordinary man with a heavy burden upon his soul.

The Dutch Prophet Says—

Cool periods in July similar to present conditions (June 28) will occur July 13 and July 27. Precipitation will continue in July in greater volume in some sections than others in the South Atlantic States, but enough and to spare generally.

Foliage on elm and oak begins to show the effect of the absence of proper radiation of the sun's rays: Readers of the State will find in Sunday's issue (Page 35) a full explanation of the proper radiation of the sun's rays as they should effect the earth at this period of the year. The Dutch Weather Prophet has been asked to explain this matter, and so he directs attention to the section of

the astronomical article by Dr. Benjamin in which he shows how the earth is normally farthest from the sun at this period of the year.

The Dutch Weather Prophet feels sure that the position of the earth and sun is now different and more like the position it assumes as the

winter solstice on December 20, not entirely so, but sufficiently out of the summer solstice order to cause "freaks," so to call it, in the atmosphere, which in turn does not supply sufficient nourishment to produce a healthy growth in vegetable life of all kinds on the earth's surface.

These conditions began to appear in 1914 and will continue through 1921. It is not unusual for the earth to swing out of its path around the sun and assume conditions as at present prevail. So it will be back in its groove and we will all benefit by its little escapade in 1914-1921.

Do You Want to Make an Interesting Test?

YOU are a music lover: Every normal man and woman loves good music. Do you realize what Mr. Edison has lately done for music lovers?

The NEW EDISON

"The Phonograph With a Soul."

literally Re-Creates the voices of the world's great singers and the performances of the world's great instrumentalists. It gives you all that the ear can give of the art of the world's greatest artists.

BY direct comparisons between the instrument and the living artists, the New Edison has earned the right to be called the only instrument which Re-Creates music. The government has given Mr. Edison the exclusive right to use the word "RE-CREATION" as applied to the phonographic reproduction of music. These amazing tests between the New Edi-

son and the artists whose voices have been Re-Created by it were made before two million people by thirty different great artists and are chronicled in the news columns of America's principal newspapers.

These tests are conclusive, but we want you to come to our store and make a test of your own.

CAN YOU FORGET?

Can you come to our store, seat yourself comfortably and forget that you are in a phonograph store? If you are able to do this, we shall give you a very wonderful experience. We shall ask you to take a chair about 20 feet from the New Edison. We shall show you a picture of a great singer—for example, Frieda Hempel, of the Metropolitan Opera. We shall ask you to recall the last time you heard a great soprano. Perhaps we shall ask you to close your eyes, or turn your back upon the instrument. Then we shall play—no, this is not the word—then Frieda Hempel will sing for you. Every quality of her glorious voice that has contributed to

her world-wide success will be present in the New Edison's RE-CREATION. With your eyes closed or your back turned, and with your mind open to the inspiration of the music, you will forget that you are listening to an inanimate object. You will almost feel Frieda Hempel's presence in the room.

We want you to make this test. It will give you all of the rare sensations that a music lover gets at the opera or concert. It will probably determine you to become the owner of a New Edison, but you will not be urged to buy. Come to our store and say, "I want to test the New Edison."
