

What Fordson Owners Say

DURING the past year the Fordson Farm Tractor has demonstrated that it is the World's Leading Farm Tractor. Over 150,000 users testify to this fact. The FORDSON is revolutionizing farming.

The Fordson is being used as tractors have never been worked before and for every purpose imaginable---plowing, discing, harrowing, rolling, drilling, haying, harvesting, threshing, filling silos, sawing wood, dragging and grading roads, and many other jobs.
