earned for themselves and for their instructor the most complete measure of praise which could be bestowed by any audience.

The medal was delivered by J. F. Carter, Esq., who, in his most happy and witty style, kept the audience keyed up to the highest degree of curiosity while he gave the winner and the losers some good advice concerning the lessons to be learned from

DR. WATSON PLEADS FOR MORE SPIRITUALITY.

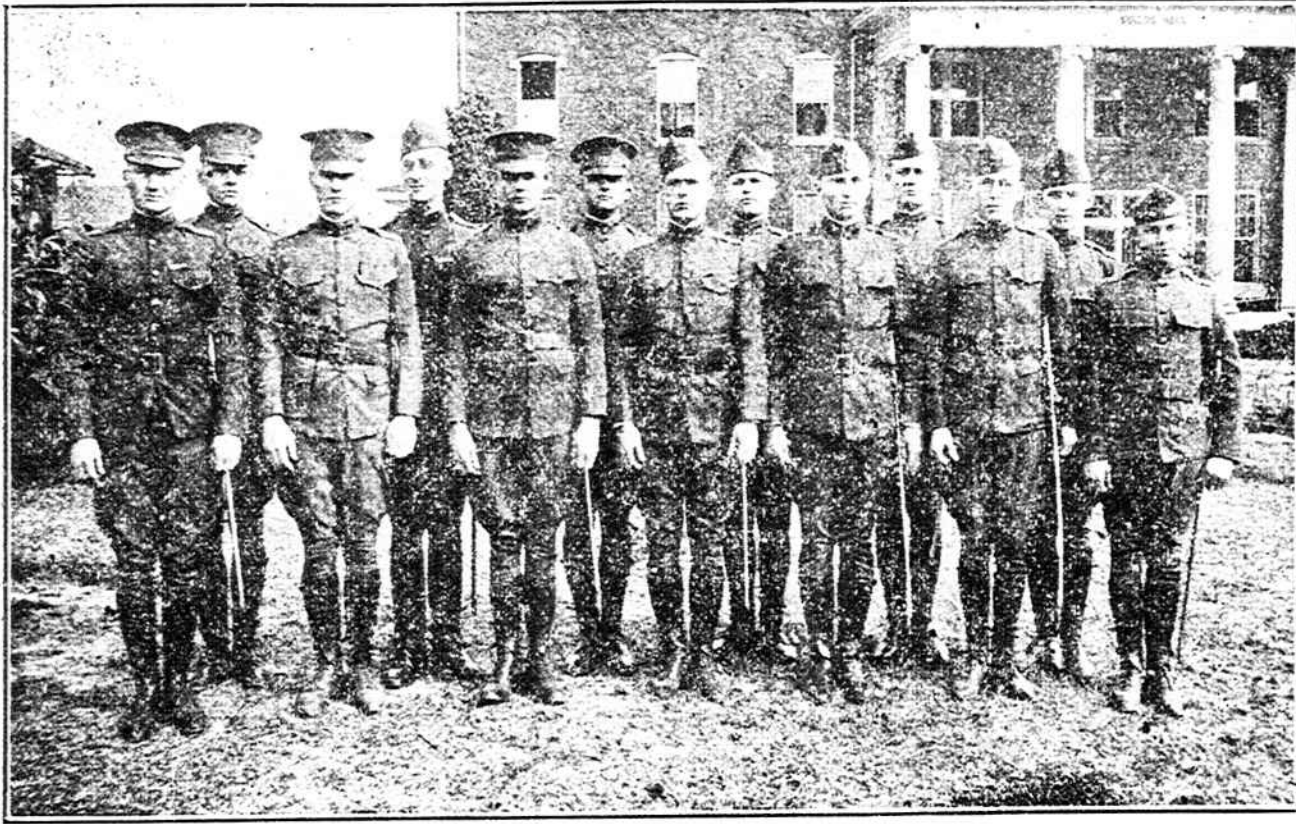

(Continued from page 1, column 4.)

Man's blindness to spiritual values made necessary the destruction of the world at the time of the flood; blindness to the significance of Christ's work made necessary the Crucifixion; such blindness brought on the French revolution, led the colonists to revolt against British rule in 1776, was a factor in producing the civil war, and was instrumental in bathing the world in blood in the late war. The

of God through Jesus Christ. There must be less desire for things material, and a corresponding thirst for the things that are spiritual.

men in high places on the watch towers have failed to see the signs of the times, and history is now repeating itself. We are told by all countries that America is the hope of the world, but everything is not well with America. There are many disquieting conditions facing us now, such as riots and strikes, the startling increase of divorces, departure from our ideals as to womanhood, immigration, and illiteracy. There can be only one cure for such conditions, and that is by looking into the face of God and to gain a knowledge

A Memphis lawyer entered his condemned client's cell: "Well," he said, "good news at last."

"A reprieve?" exclaimed the prisoner eagerly.

"No, but your uncle has died leaving you \$5,000, and you can go to your fate with the satisfying feeling that the noble efforts of your lawyer in your behalf will not go unrewarded."—The Lawyer and Banker (Detroit.)

HEART ON RIGHT SIDE.**Organs of Spartanburg Man in Wrong Place.**

Spartanburg, May 28.—With his heart on right side, his liver on his left side, and various other internal organs situated in positions of the anatomy just opposite to those ordinarily accepted as the proper locations for such organs, a prominent person of Spartanburg county is causing local physicians and surgeons much thought. The discovery that this person possesses an anatomy seldom encountered by men of the medical world was made this week when he visited the office of a Spartanburg physician for the purpose of undergoing examination. The person had experienced much pain in his side and fearing he was about to be stricken with appendicitis he visited the physician's office.

TELEPHONE FIGHT TO FRONT.**Ask Commission to Annul Increase Order.**

Columbia, May 28.—Immediate action before the South Carolina railroad commission was decided upon by the executive committee of the South Carolina telephone commission at a meeting here yesterday in the matter of increased telephone rates recently granted by the railroad commission. The president of the association was instructed to proceed at once to the employment of counsel and to make an immediate request and petition to the commission that their order granting increased rates and discontinuing intertown service, is annulled.

The change in conditions during the past few months, together with much new evidence that has been discovered, constitute the grounds upon which the suspension of the

commission's order will be requested. The treasurer reported that funds were coming in from all over the state, but that a much larger response would be necessary in order to take care of the necessary expenses of the fight. Statewide support of the efforts of the association was reported by every member of the committee.

At the conclusion of the meeting the president announced that the case would be promptly carried before the commission.

So Natural.

"I don't see how you allow your cook to abuse your husband that way," commented a caller as an angry female voice resounded through the house.

"Oh, he doesn't mind it," answered the mistress. "You see, he's a baseball umpire and he isn't working today and I was afraid he wouldn't appreciate this afternoon off."

They never made a cigarette like this in my day—

The Camel idea wasn't born then. It was the exclusive expert Camel blend that revolutionized cigarette smoking.

That Camel blend of choice Turkish and Domestic tobaccos hits just the right spot. It gives Camels such mellow mildness and fragrance!

The first time I smoked Camels I knew they were made for me. I knew they were the smoothest, finest cigarette in the world, at any price.

Nobody can tell me anything different.
