

CENSUS AGRICULTURAL FIGURES

FOR BAMBERG COUNTY ANNOUNCED.

(Continued from page 3, column 1.)

Value of dairy products.....	dollars.....	41,405
Receipts from sale of dairy products.....	dollars.....	11,268
Average production of milk per dairy cow.....	gallons.....	243
Eggs and chickens: Eggs produced (as reported).....	dozens.....	155,139
Eggs sold.....	dozens.....	44,839
Chickens raised (as reported).....	number.....	51,769
Chickens sold.....	number.....	7,765
Value of chickens and eggs produced.....	dollars.....	119,506
Receipts from sale of chickens and eggs.....	dollars.....	28,437
Honey and wax: Honey produced.....	pounds.....	3,880
Wax produced.....	pounds.....	145
Value of honey and wax.....	dollars.....	1,057
Table III. Domestic Animals Not on Farms or Ranges: 1920.		
Inclosures reporting domestic animals.....		215
Horses, total number.....		216
Mules, total number.....		333
Cattle, total number.....		322
Dairy cows.....		161
Goats, total number.....		3
Swine, total number.....		344
Table IV. Value of All Crops and Acreage.—Value of All Crops.		
Total.....	dollars.....	7,170,465
Cereals.....	dollars.....	1,014,132
Other grains and seeds.....	dollars.....	99,100
Hay and forage.....	dollars.....	190,284
Vegetables.....	dollars.....	307,461
Fruits and nuts.....	dollars.....	30,857
All other crops.....	dollars.....	5,528,631
Selected Crops (acres harvested and production).		
Cereals: Total.....	acres.....	41,633
	bushels.....	530,977
Corn.....	acres.....	37,961
	bushels.....	462,447
Oats.....	acres.....	3,140
	bushels.....	63,754
Wheat.....	acres.....	398
	bushels.....	3,517
Rye.....	acres.....	84
	bushels.....	549
Rough rice.....	acres.....	50
	bushels.....	710
Other grains and seeds: Dry peas.....	acres.....	3,825
	bushels.....	15,647
Peanuts.....	acres.....	851
	bushels.....	11,850
Hay and forage: Total.....	acres.....	20,345
All tame or cultivated grasses.....	acres.....	787
	tons.....	525
Wild, salt or prairie grasses.....	acres.....	14
	tons.....	14
Small grains cut for hay.....	acres.....	1,073
	tons.....	793
Annual legumes cut for hay.....	acres.....	4,973
	tons.....	2,937
Corn cut for forage.....	acres.....	11,891
	tons.....	1,791
Kafir, sorghum, etc., for forage.....	acres.....	1,607
	tons.....	333
Vegetables: Potatoes (Irish or white).....	acres.....	18
	bushels.....	1,526
Sweet potatoes and yams.....	acres.....	458
	bushels.....	59,003
Other vegetables.....	acres.....	314
Miscellaneous crops: Tobacco.....	acres.....	300
	pounds.....	147,601
Cotton.....	acres.....	46,303
	bales.....	25,672
Sorghum grown for sirup.....	acres.....	29
	tons.....	181
Sirup made.....	gallons.....	2,637
Fruits and Nuts.		
Orchard fruits: Total.....	trees not of bearing age.....	2,038
	trees of bearing age.....	5,807
	bushels harvested.....	9,514
Apples.....	trees not of bearing age.....	471
	trees of bearing age.....	858
	bushels harvested.....	1,297
Peaches.....	trees not of bearing age.....	1,286
	trees of bearing age.....	3,972
	bushels harvested.....	5,671
Pears.....	trees not of bearing age.....	228
	trees of bearing age.....	704
	bushels harvested.....	2,306
Plums and prunes.....	trees not of bearing age.....	52
	trees of bearing age.....	265
	bushels harvested.....	237
Cherries.....	trees not of bearing age.....	1
	trees of bearing age.....	8
	bushels harvested.....	3
Grapes.....	vines not of bearing age.....	138
	vines of bearing age.....	230
	pounds harvested.....	3,123
Subtropical fruits: Figs.....	trees of bearing age.....	43
	trees of bearing age.....	230
	pounds harvested.....	4,428
Nuts: Pecans.....	trees not of bearing age.....	2,948
	trees of bearing age.....	2,722
	pounds harvested.....	32,171

GIRL WRITERS ARE WANTED.

Disabled Veterans to Send Jumping Beans as Rewards.

Sante Fe, New Mexico, Nov. 13.—Lookie! Watch it! There it goes! These exclamations will soon be heard all over the United States, with the distribution of thousands of genuine Mexican jumping beans. The jumping beans have been trained to leap through hoops and stand unhitched by the 5,000 disabled war veterans recuperating in this state. They are to be sent to girls throughout the country who agree to correspond with one of the war veterans.

"Who wants one of these novelties?" asks Herman G. Baca, of Sante Fe, adjutant of the New Mexico Department of the American Legion. He will see that one is forwarded to every girl who writes to him and expresses a willingness to correspond with a convalescent veteran.

The jumping beans are dark brown, somewhat larger than the ordinary bean; The animation of the bean is caused by a tiny worm that crawls into it and eats the edible portion. The worm dies but the bean keeps on jumping.

Christ Is Healing Still Today.

I love to think of Jesus,
How He conquered death and sin.
How he bore the cross and suffered,
Your soul and mine to win.
His love so strong and tender
Is my help in life's long way;
For I know He is my Saviour,
And He loves us all today.

I often think of Jesus—
Of His wonderful power and might,
How He stilled the raging tempest
On the sea one dark, sad night;
And when waves of doubt and trouble
Sweep o'er mine I will obey,
Casting on Him every burden,
For His power's the same today.

I often think of Jesus,
How He healed them, every one,
Without thought of wealth or station;
All who unto Him would come;
Helpless, sin-sick, weak and faltering
Not one soul He turned away—
And we have this blessed assurance:
He is healing still today.

For the sin-sick there is mercy,
For the heavy-laden, rest;
For the prisoner there is freedom,
Comfort for the sore-distressed.
Only trust Him—He will heal you;
Come, for there is naught to pay;
You and I may touch His garment,
For He's healing still today.

Seek and you shall surely find Him;
No good thing will he deny,
For His ear is very open
To each earnest, humble cry.
I'm so thankful for His promise,
"Lo, I am with you always!"
Yes, I am glad He lives and loves us—
Glad He's healing still today.

REMEMBER THE ORPHANS.

Work-Day Thanksgiving Appeal Is Made for the Orphans.

As your thoughts turn towards thanksgiving, think of the orphan boys and girls of the state, and through your contribution help to make their lives happy on this occasion.

There are in the four church orphanages of the state, 988 fatherless children, who must be cared for. They are divided as follows: 100 in the Church home, Episcopal, 223 in Epworth orphanage, Methodist; 350 in Connie Maxwell, Baptist; and 315 in Thornwell Orphanage, Presbyterian. All of the institutions, due to the financial depression of the past few months, have suffered from a lack of funds and their needs at present are urgent.

A state-wide appeal is therefore being made for a work-day thanksgiving offering in their behalf. You are asked to contribute at least one day's wages, or the proceeds therefrom, to the orphanage of your preference.

The appeal is urgent. The orphans must be remembered. Send in your contribution, thereby helping to provide for the care of these boys and girls and bringing happiness and joy into their lives.

All contributions should be sent to: Thos. P. Noe, Church home, York, S. C.; W. D. Roberts, Epworth orphanage, Columbia, S. C.; A. T. Jamison, Connie Maxwell, Greenwood, S. C.; L. Ross Lynn, Thornwell orphanage, Clinton, S. C.

The father of an ape family will always do battle for his mate and young.

The treaty of Paris in 1856 ended privateering as a modern method of warfare. probable that these unfortunate deaths resulted from some acute and violent contagion, to which each member of the family was susceptible, and to which each was exposed."

Something Doing.

First salesgirl—"That man I just sold a five-pound box of candy to said it was for his wife."

Second ditto—"It he newly married?"

First—"Either that or he has done something."—Boston Transcript.

Torpedoes cost \$15,000 each and are rated as the most expensive ammunition used in warfare.

France, with a population of 39,601,500 inhabitants, has an armed force of 935,000, or 1.85 per cent.

In 16 years New York subways have carried 4,301,000,000 passengers.

DR. THOMAS BLACK DENTAL SURGEON.

Graduate Dental Department University of Maryland. Member S. C. State Dental Association. Office opposite postoffice. Office hours, 9:00 a. m. to 5:30 p. m. Read The Herald, \$2.00 per year.

Funeral Directors and Embalmers Motor Hearse J. COONER & SONS Bamberg, S. C.

Buy a pipe—and some P.A.

Get the joy that's due you!

We print it right here that if you don't know the "feel" and the friendship of a joy's jimmy pipe—GO GET ONE! And—get some Prince Albert and bang a howdy-do on the big smoke-gong!

For, Prince Albert's quality—flavor—coolness—fragrance—is in a class of its own! You never tasted such tobacco! Why—figure out what it alone means to your tongue and temper when we tell you that Prince Albert can't bite, can't parch! Our exclusive patented process fixes that!

Prince Albert is a revelation in a makin's cigarette! My, but how that delightful flavor makes a dent! And, how it does answer that hankering! Prince Albert rolls easy and stays put because it is crimped cut. And, say—oh, go on and get the papers or a pipe! Do it right now!

Prince Albert is sold in tippy red bags, tidy red tins, handsome pound and half pound tin humidors and in the pound crystal glass humidor with sponge moistener top.

Absolutely Free!

THE SOUTHERN AGRICULTURIST

Nashville, Tennessee

The Herald has made arrangements with the Southern Agriculturist, one of the best farm papers in the south, whereby we can offer for a limited time only this excellent farm journal free of charge to subscribers of The Herald.

All you have to do is to renew your subscription for one year, or, if you are not now a subscriber to The Herald, send us \$2.00 for one year's subscription, and you will be given one year's subscription to the Southern Agriculturist, the subscription price of which is \$1.00 per year.

The Herald has only a limited number of subscriptions it can give its readers, and the first come will be first served. When our quota has been exhausted, the offer will be withdrawn. This offer is intended for our farmer friends only, and your name will be sent in to the farm paper only if you request it. We do not wish to send the farm paper to anyone not interested in farm matters.

Every farmer or farm owner ought to have a good farm paper. The popularity of the Southern Agriculturist may be judged by the fact that it has 375,000 subscribers. It is distinctly a southern farm paper for southern farmers.

Fill out the attached coupon today and forward to The Herald, Bamberg, S. C.

THE BAMBERG HERALD, Bamberg, S. C.

Date.....192.....

Bamberg Herald,
Bamberg, S. C.

I beg to enclose herewith two dollars (\$2.00), for which please (Renew—Enter) my subscription to The Herald for one year. I am also to receive the Southern Agriculturist without cost to me for one year.

BIG GAINS BY DEMOCRATS.

Maryland, Kentucky, Virginia and New York Show Turn in Politics.

New York, Nov. 9.—Final summarization tonight of results of yesterday's "off year" elections throughout the country indicated substantial gains by the Democrats in four states—Maryland, Kentucky, Virginia and New York—while municipal ballots in many cities resulted in changes of party control.

The outstanding case of state-wide Democratic victory was in Kentucky, where that party gained control of the legislature, which has been republican for two years. In Maryland, where the entire lower house was elected, with twenty-seven members of the senate, Democratic control was increased.

In Virginia, the Democratic gubernatorial candidate, State Senator E. Lee Trinkle, led his Republican opponent by a wide margin, which extended also to his running mates, including J. Murray Hooker, the party's candidate for representative in congress.

In the New York assembly, the Democrats increased their representation by twenty-three seats, although Republicans with a total of ninety-six assembly men, still retained a wide working margin.

Albany Goes Democratic.

Albany, long regarded as the stronghold of Republicanism in this state will have a Democratic administration in the near future, it should be readily detected in the process of the careful examination to which the internal organs are now being subjected.

Tells of Water Supply.

"An interesting sidelight on these cases, and the theories which have been advanced in which the water drunk by these people has been implicated, is the condition of the water supply ordinarily used by the family.

"The well consists of the ordinary dug shaft, from 30 to 40 feet deep (estimated), located on the down grade a few feet from the edge of the stable lot on the premises. Its location and construction is such as to permit the entry of a maximum amount of surface wash from the stock yard. A very small amount of water lay in the well at the time of the investigation, even though its use had been discontinued some time previously and common knowledge held that the water was not more than two or three feet deep ordinarily. This indicates the enormous concentration of organic matter and other contamination usually in the water.

"Some of this water had been drawn and inspected by local physicians who stated that mosquito larvae or 'wiggles' were present in large numbers and most active. The presence of these little animals in the living state is opposed to the theory that the water was poisoned with arsenic or some similar substance as such a poison in amounts sufficient to kill otherwise normal adults and children would in all probability prevent mosquito breeding. The presence of living organisms or germs as determined by a bacteriological examination of this water would further upset this hypothesis.

"The symptoms as described by the attending physicians, and particularly the absence of certain constant and pathognomonic symptoms, tend to rule out metallic and escharotic poisons and in addition minimize the possibility of death having resulted from any of the common gastro-intestinal disorders. The attending physicians are unanimous in declaring that diarrhoea or purging was at no time present in any of the cases.

"It is not possible to rule out some extraneous poison the visual examination of a dead body alone but as the common symptoms of poisoning were absent and as the classical symptoms of several acute infectious diseases were present it is more than
