

## Southern Baptists Wage Vigorous Warfare Against Tuberculosis In This Section

**FOUNTAIN PLAYS IN CENTER OF COURT BETWEEN TWO INFIRMARIES**

In one of the most extensive fights that has ever been made by any religious body in America for the eradication of disease, Southern Baptists, through their Home Mission Board, have undertaken the task of combating tuberculosis in the 18 states comprising the territory of the Southern Baptist Convention. The first step in this direction was the recent establishment on a tract of 143 acres at El Paso, Texas, of the Southern Baptist Sanatorium, where \$500,000 from the 75 Million Campaign has been invested and where \$600,000 more will be placed by the end of the campaign period. The institution is located at an altitude of 4,500 feet on the side of Mt. Franklin and commands an excellent view of the mountains of New Mexico, Western Texas and Old Mexico, whose border is only six miles distant. Dr. H. F. Vermillion is superintendent.

Included in this plant at present are the administration building, the newly completed women's infirmary and men's infirmary, a heating and refrigerating plant and the superintendent's quarters. Provided for in the building plans for the future are a medical and educational building, nurses' home, children's building, dormitories for convalescent patients, an occupational and vocational therapy building, chapel, laundry and minor structures.

**750 People Die Daily.** Indicating the need of additional effort looking to the elimination of tuberculosis in the South, reliable figures gathered by the public health agencies of the South and the Nation show that there are 150 deaths daily from tuberculosis in the 18 states comprising the territory of the Southern Baptist Convention, making the annual death toll of the white plague in this section of the country alone

**RECREATION PATIO BETWEEN MEN'S AND WOMAN'S BLDGS.**

**ENTRANCE TO ADMINISTRATION BUILDING**

57,782. The death rate from tuberculosis is 14.2% higher in the South than in the Nation as a whole. One reason for the exceedingly high death rate in the South is the great prevalence of the plague among the negroes who are especially susceptible to tuberculosis, the death rate among them being three and one-half times that among the whites. But inasmuch as the negroes will doubtless continue to be intimately associated with the whites in domestic and other work in the future, the whites will never be safe from infection until the negroes, as well as the whites, have been freed from the plague.

It has been estimated that the total economic loss from the ravages of tuberculosis in the South is \$175,000,000 a year, and in projecting their warfare against the plague the Baptists hope to greatly reduce this loss, as well as to save the life and promote the health and general efficiency of the whole people.

**Would Educate the People.**

In addition to providing treatment for persons who have already con-

tracted tuberculosis, the sanatorium is carrying on an educational work that seeks to inform the public at large through the printed page, as to the danger of tuberculosis, how it can be avoided and how, once it is contracted, its progress can be arrested through proper sanitary measures at home. Other phases of the educational program include the training of workers inside the sanatorium and occupational and vocational work for patients. The extension department is widely disseminating literature on how to combat tuberculosis. An endowment fund that is being created for the institution will make possible a much larger circulation of literature and will also enable the institution to take care of indigent patients.

The sanatorium is at present seeking to devise special plans whereby it can serve the negroes of the South in combating tuberculosis. It is felt that the negroes' inability to help themselves in the matter entitles them to this consideration and that this assistance should be given, furthermore, as a means of self-protection on the part of the whites.

The piercing of women's ears for the wearing of ear-rings is a survival of the old heathen customs of mutilating the body to please some god.

### Abolition of the Senate

Melborne, Nov. 19.—The Interstate Labor Conference has terminated its proceedings by adopting a proposal of Premier Theodor of Queensland, in favor of making the commonwealth the supreme governing authority of Australia with unlimited powers, states to have only such functions as the commonwealth confers and the commonwealth to have the right to create new states.

The scheme, which is a drastic form of unification, provides for the abolition of the Senate, the vesting of the final jurisdiction in all cases in the High Court, and disallowing the acceptance of Imperial honors in any circumstances by any Australian citizen.

### Asks That Circulars And Catalogues be left out

New York, Nov. 21.—Postmaster Morgan has again appealed to the business men of New York to discontinue, as far as possible, the mailing of large quantities of circulars and catalogues during the week immediately preceding Christmas day. This is to enable the post-office to handle the great quantity of Christmas mail which begins to run heavy about two weeks before the holiday.

The postmaster stated that business men aided him last year in preventing congestion of mail at that time by withholding mail which could be deferred until after Christmas.

In urging them to do the same this year, he stated that it had been ascertained that many persons transporting large numbers of circulars and catalogues should arrange their advertising campaigns so that these can be mailed either before December 19 or after the holiday rush was over, without detriment to their interests.

Some San Francisco women play golf carrying their babies in golf stick bags.

Experiments show excellent paper can be made out of grape vines.

Each British family, it is estimated, pays an average of \$15 a week in taxes.

The Veterans' Bureau has 15,873 employees, drawing an aggregate monthly income of \$2,000,000.

### Lockhart Junction

Lockhart Junction, Nov. 18.—I am at Union a few days collecting for the paper and am meeting with much success. People, like all other good people, give me a warm welcome. I love my friends and it doesn't stop there. I love freedom and liberty. We are a people who should be loyal and true to faith and duty and our fellow-man.

At this time I am thinking of the great powers of the world as they are in conference at Washington to discuss the naval armament. We all don't think it amounts to much and of course I am not acquainted with matters of this kind to tell anything about it, but the question comes to me, are the nations of this world today loyal enough to each other. I will answer it as I see it, no. As long as we prepare for war we will have to fight. If all the powers of the world were educated with that Christian education that the world needs we need not fear of warring nations.

When I listen to the great men in the Methodist conference at Lancaster and heard men representing the Eastern world I thought how much more need we have still of Christian education.

I learn today that Frank Adams, who is a well-known citizen of this county, is very sick at this time. We hope he will soon be well again.

Moxy.

### Gift of Library to Yale

New Haven, Conn., Nov. 21.—Acceptance by the Yale Corporation of the gift of a library of Argentine literature, places within the university the largest and best selected collection of South American literary works in the United States. The donor of the library, which has just been installed, was Carlos Alfredo Tornquist of Buenos Aires. It numbers 500 volumes. The presentation was made by Enrique Gil, a member of the Argentine Bar, who has offices in New York City. It had been a gift that Thomas LeBreton, the Argentine ambassador to the United States, should be present when the library was formally turned over to the Corporation but at the last moment he was unable to come and Senor Gil, a friend of both Mr. Tornquist and Ambassador LeBreton, attended the Corporation meeting.

The library contains specially bound volumes on history, law, letters, oratory and sociological subjects. Mr. Tornquist is a professor in the University of Buenos Aires, and long had had admiration for Yale University.

The Yale collection of Latin-American books now numbers several thousand volumes.

### Leaders in India Removed

London, Nov. 20.—Three of the most active of the followers of Gandhi, the independence leader in India, have been removed from activity for the time being by the sentence of two years' imprisonment imposed at Karachi, India, of Mahomed Ali, Shaikat Ali and Dr. Kitchlew on charges of sedition and causing disaffection among the troops.

According to information received here, the Ali brothers have been a source of trouble to the British government in India for some years. They were interned in 1915 on charges of having promoted sympathy for the King's enemies in the war. Four years later, in 1919, they were imprisoned on charges of disloyalty in the Afghan war, but were released after about six months' imprisonment, under a royal proclamation of clemency toward political prisoners at the time of the passing of the India Reform Act.

It is claimed that they at once renewed their activity against the government. Mahomed Ali was selected leader of the Caliphate delegation which came to London last year and was granted interviews by the prime minister.

On returning to India, it is charged that he prompted the migration of pious Musselmans from India to Afghanistan, which migration was part of the Caliphate agitation. Some 18,000 persons left their homes in the frontier provinces of India but soon returned after suffering severe hardships in Afghanistan.

The government charged that the Ali brothers were in close association with Gandhi and moved up and down the country conducting a campaign of non-cooperation and made constant appeal to the militant fervor of their co-religionists.

### Asking for Dry Zone

Santiago, Chile, Nov. 18.—President Alessandri has announced that he intends to ask Congress to pass legislation prohibiting the sale of all intoxicants in the industrial centers of Chile. These include the coal mining districts in the south and the nitrate fields in the northern provinces.

The president's announcement was in reply to requests from various societies asking for a "dry zone" in the coal mining districts where a clash occurred recently between workers, alleged to have been intoxicated, and government troops. Eight of the workers were killed and 20 wounded before order was restored.

### Moving Pictures in Tahiti

Papeete, Tahiti, Oct. 11.—(By Mail).—During the past month, Tahiti has been a vast moving picture studio. A company of American "movie" actors has been staging a hectic drama of love and hate in the South Seas. The coconut groves and fairy valleys have echoed to the cries of frenzied directors and clicking of cameras until the lotus eaters have been awakened from their beatific dreams; and the tinkle of much backshesh has stirred even the Tahitian native to get up and bustle.

It has not been one "grand sweet song" for the director. There has been no little difficulty in getting the native "supers" to take their parts seriously. When the big aeroplane engine started the hurricane, which was to sweep the native village to the four quarters of the compass, the inhabitants, instead of rushing from their tottering huts and registering consternation, stood around in groups laughing at the artificial destruction and incidentally spoiling several hundred feet of valuable film. Nor has it been easy to induce pious church members (whose ancestors repudiated heathenism over a hundred years ago) to bow down with convincing abandon to the big papier-mache idol (made in the U. S. A.) set up before the mystic grotto—especially with their friends and relatives standing about making ribald remarks.

It has nevertheless, been a joyous month for the islanders. They have long been ardent devotees of the moving picture theatre; and this opportunity of witnessing the technique of the making of pictures has afforded them much delight.
