CAUGHMAN & SOX

LEXINGTON, S. C.

NO MORE VOLUNTEERS

The Navy Department, working in conjunction with the War Depart. ment, in the carrying out of the new draft aw of 18 to 45 years that is now before Congress, has discontinued enlistments in all branches Naval Service for the present.

This order which has stopped all re cruiting in the country does not necessarily mean that no more men will be accepted for the Navy, but was made in order to stop indiscriminate enlistments of men who will be affected by the new law, and keep them in useful occupations that must be carried on until the government sees fit to place them elsewhere.

Enlistments in the navy now total 430,000 men, according to Rear Admiral Palmer, of the bureau of navigation, who appeared before the senate military committee this week. Admiral Palmer further stated that he did not believe to furnish the required number of men for the navy. that any changes needed be made in the army draft law, and that the navy could depend upon volunteers to car ry on the great work that it is doing.

As soon as any changes are made in regard to navy enlistments the people of the state will be notified through the newspapers, and if ordiers are received to continue enlist. ing for this branch of the service, pro per publicity will be given it.

PRICE FOR GINNING IN SOUTH CAROLINA

T. C. Callison County Food Admr. has received the following communication from State Food Admr.:

The price for ginning in South Carolina is fixed by the Food Administration as follows:

For ginning a bale of 500 pounds of lint cotton or less. \$3.50 per bale For each additional 10 pounds of lint cotton, at the rate of seventy cents per 100 pounds of lint cotton. at the rate of seventy cents per 100 pounds. When bagging and ties are furnished by ginner, \$1.50 additional The farmer shall have the privilege of furnishing his own bagging

Yours very truly. WILLIAM ELLIOTTFood Administrator for South ...

Columbia, S. C.,

Carolina. August 10, 1918.

FOR CANNED GOODS

Home-Canned Products Will be Given Preference Over Maryland and Virginia Pack by Large Concerns.

Columbia.-A ready market has seen developed in South Carolina for all home-canned fruits and vegetables that will be put up during the coming canning season in excess of domestic needs. This announcement has been made by the Conservation and Production Division of the Food Administration, which has been working on the problem of marketing of home-canned products for the past two months. A number of the leading wholesale grocers and jobbers of the State have not only expressed their willingness to buy home-canned fruits and vegetables properly prepared for commercial use, but will give the home-canned - product the preference over Maryland and Virginia packed goods.

The Food Administration has on file the requirements of several large concerns and has been asked to find the canned products to supply their needs. Thousands of cans of fruits and vegetables can be readily sold, but the packers will be required, as a matter of course, to conform to certain trade rules.

In the first place, the price must be in conformity with that for which Maryland and Virginia packed goods can be bought.

Canned products should not be offered for the wholesale trade except m large lots. It is suggested that farmers and others who desire to put upfruits and vegetables for the market form marketing agencies, in order that their product may be handled in larger lots to a greater advantage.

The grades must be uniform and certain standards maintained. The canned product must of course be put up in uniform cases, and the cans uniformly labelled.

Contracts for fall deliveries should be made now or in the very near

Canning clubs, community clubs or marketing agencies with large quantitles of canned fruits and vegetables to offer for sale should write the Food Administration, Conservation and Production Division, at Columbia, stating what they have to offer at the present time or what they will have to deliver in the fall, stating the price desired

CALOMEL DYNAMITES A SLUGGISH LIVER

Crashes into sour bile, making you sick and you lose a day's work

Calomel salivates! It's mercury. Calomel acts like dynamite on a slug gish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious; headachy; consti pated and all knocked out, just go to your druggist and get a bottle of Dod son's Liver Tone for a few cents which is a harmless vegetable substi tute for dangerous calomel. Take a spoonful and if it doesn't sart your liver and straighten you up better and quicker than nasty calomel and with out making you sick, you just go back and get your money.

If you take calom ' today you'll be sick and nauseated orrow; besides it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It's harm less, pleasant and safe to give to chil den; they like it.

General Foch will go down in histor as one of the greatest generals the world has ever produced. He is master of the situation in France, all

and all information.

The Food Administration will make no purchases or sales, but it may serve as a connecting link to bring the packers and the dealers together.

As has already been announced, there will be plenty of cans and jars available for home canners during the coming season. Communities that are not supplied should report to the Food Administration at Columbia, and merchants will be put in touch with sources of supply upon request. Attractive stock labels can be bought at a very low price.

Packers of fruits and vegetables should remember that they cannot extheir products if sold at whole sale, and those who have only job lots to offer should seek a market in their home communities. The wholesaler and the jobber cannot handle job

Any information which may be deeired by any interested person or canning club will be furnished by the Conservation and Production Division of the Food Administration, Columbia.
