Walter's Glasses

People who can not see clearly at a distance through their reading glasses are at a disadvantage. Frequently they are embarrassed by failing to recognize friends and acquaintances, and constantly they are annoyed by the necessity of removing their glasses—or fussing with two pairs.

KRYPTOK GLASSES

THE INVISIBLE BIFOCALS

KRYPTOK (pronounced Criptocks) combine near and far vision in the crystal clear lens. You can instantly adjust your vision from near or far.

KRYPTOK Glasses give you there advantages without the drawback of the seam or hump of old style bifocals. No one can tell that KRYPTOK are double vision glasses because their surfaces are clear and smooth.

Examination without charge.
